HAYDEN PASS FIRE – CO-PSF-001022
MANAGEMENT ACTION POINTS

MAP	NAME	CONDITION	ACTIONS	RESOURCES	ACTIVE
1	CUTTYS	In direct path of wildfire.	Structure protection through fire line construction and possible burn out.	3 Engines, 2 Hand Crews	Yes
4		When fire threatened structures and infrastructure.	Use point protection and prepping structures along with containment lines as required.	Needs as determined by operations.	Yes
5	PS1	If the fire becomes established north of the MAP.	Re-evaluate fire spread potential to the north towards the community of Howard and identify natural barriers for holding actions.	Resources commensurate with wilderness values as determined by operations.	Yes
6	PS2	If fire becomes established north of the MAP.	Areas outside of the wilderness will be controlled. Begin to evaluate Stout Creek as a MAP for containment actions.	As determined by operations.	Yes
7	PSBLM1	If fire threatens MAP.	Evacuate threatened structures and community of Cotopaxi down to, and including, 5x road. Contact affected cooperators.	As determined by operations.	Yes
8	PSBLM2	If fire threatens MAP.	Evacuate and protect threatened structures in and around Falls Gulch, Price Park and community of Cotopaxi. Contact affected cooperators.	As determined by operations.	Yes
9	PS3	If fire threatens MAP.	Utilize Taylor Creek drainage system (outside of wilderness) to begin indirect/direct suppression of fire to prevent fire spread south of the Taylor Creek drainage.	Resources commensurate with suppression needs adjacent to the wilderness as determined by operations.	Yes
10	RG-1	If fire crosses MAP and becomes established in timber below MAP.	Re-evaluate closure order. Confirm strategy on west side of Sangre crest. Engage SLVFO BLM. Contact affected cooperators.	Agency administrator, Operations.	Yes
11	GBCT	Fire impacts habitat in riparian.	Evaluate burned area for potential need to protect remaining habitat and/or evacuation of Greenback Cutthroat trout.	Resource advisor and other resources as determined by operations.	Yes
12	Gunn-Sage	If fire becomes established on upper third of slope.	Notify Gunnison BLM agency representative if the fire is expected to impact Gunnison sage grouse habitat.	Resource Advisor, Agency Representative and IMT.	Yes
