Date and Time Products Delivered to Incident: 10/18/2020 @ 2350 MDT		Digital files sent to: https://ftp.nifc.gov/public/incident_specific_data/rocky_mtn/2020/EastTroublesomeCreek/IR/ Email: luke_floch@firenet.gov	
Comments /notes on tonight's mission and this interpretation: Per incident's request shapefiles are GCS_WGS_1984. Began interpretation with 20201018 Wildfire Daily Fire Perimeter. Interpretation focused on mapping heat visible in cloud breaks. There is likely more heat than what is mapped. No change was made to the perimeter.
