#### Pine Gulch Fire Weather Forecast

**FORECAST NO: 42** 

PREDICTION FOR: Saturday September 19th, 2020

**UNIT: BLM- GJT** 

FORECAST ISSUED: 1537 MDT Sep 18th,

2020 SIGNED: Rebecca Roller PSC3 (T)

# **WEATHER DISCUSSION:**

Winds will increase tomorrow out of the southwest ahead of a front. Gusts will be as high as 35 mph and perhaps 40 mph along the ridges. An isolated shower is possible tomorrow evening and overnight, but wetting rain is still unlikely. Sunday will still be windy with gusts up to 25-30 mph. We return to tranquil winds on Monday.

#### **WEATHER FORECAST**

#### .SATURDAY...

Sky/weather.......Mostly sunny (20-30%).

Max temperature.....82-87 F.

Min humidity.......15-20%.

Wind (20 ft)......Southeast winds 8-15 mph shifting to the southwest in the afternoon. Gusts up to 35 mph.

Haines Index.......5 or moderate.

LAL...........1.

#### .SATURDAY NIGHT...

Sky/weather.......Mostly cloudy (60-70%) then becoming mostly clear (20-30%). Isolated showers in the evening.

Min temperature.....57-62 F.

Max humidity.......45-50%.

Wind (20 ft)......South winds 8-15 mph with gusts to around 25 mph

becoming east 5-10 mph overnight.

Haines Index......5 or moderate.

LAL.....1.

#### .SUNDAY...

#### 6. Control Operations/Work Assignments:

Task: Continue suppression damage repair as identified in the suppression repair priority plan.

**Purpose:** Suppression damage does not leave lasting impacts on natural resources.

End State: Repair control features to near natural conditions.

#### 7. Special Instructions:

- Continue repair work in Division Bravo
- Work on umbrella area to H13 for any additional repair work
- Continue repair work in East Salt Creek/Barrel Springs
- Stage Lower Valley ambulance at division discretion
- Perform radio checks before engaging in work
- Work with READs on priorities and needs
- Gas and oil pipelines outside current closure area are active now. Pay close attention performing rehab and repair activities around or near pipelines.
  - Tactical channel 12 is primary. Tactical channel 14 is secondary.
  - Lower Valley Ambulance staged at DP 25 or at Branch/Division discretion.

IWI IC Responsibilities:

- Take charge of the scene inform the Division Supervisor and Communications that you are the IWI
   IC and establish radio communications (frequencies, channels). Identify the emergency name (Ex. Division A medical, Fish Meadows medical, Highway 21 accident.)
- Assign or begin patient assessment Medical Incident Report (MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information toCommunications.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.

As appropriate, conduct an After Action Review to determine successes, areas to improve and lessons learned.

**Daily COVID-19 Reminder** 

- It is mandatory to communicate your daily COVID self-check to your supervisor
- Crews and Engines may make one submission if all personnel in crew or on engine answer NO to all questions and have a temperature less than 100. Please enter ONE temperature on the form. Self-monitor all day and if you have any symptoms, call medical and isolate until further directed.
- If you cannot socially distance, please wear your masks while you are inside a building on the incident. If you are outside and not socially distanced, please wear your mask.
- Check with your home unit and state as soon as possible to make sure you know what is expected of you before your return. There are free COVID tests Tuesday- Saturday 0800-1500 at the Mesa County Fairgrounds/grandstands.
- Questions please contact:

COVID Coordinator at 970-644-0747

- Scan the QR code (on following page) or use the link to register for your COVID-19 test (ignore any request for insurance information, the test is free).
- A family unit/pod/module/crew that has traveled together can travel to the test site with masks on in the same vehicle.
- The test site is located at the fairgrounds and is inside the grandstands.
- The test site is open Tuesdays-Saturdays from 0800 to 1500.

# **Before Your Test**

# **REGISTER FOR YOUR TEST** (Choose A or B)

Account # 12928

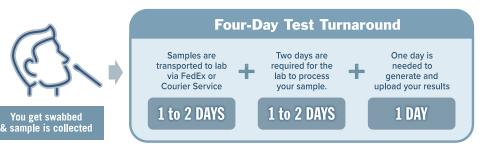

PRE-REGISTER (NOTE: This option is encouraged to REDUCE wait time.) Step 1: Visit https://tinyurl.com/gjcoff-12928. Or scan this QR code with your smartphone. **Step 2:** Complete the registration form. **Note:** Double check the spelling of your name and your date of birth. This information must be exactly correct to receive your results. Step 3: Upon completing the form you will receive an email with your registration number beginning with MX. Show this number to the site attendant in order to proceed with your test.

**REGISTER-ON-SITE** (NOTE: This option will **INCREASE** your wait time.) Step 1: Provide a copy of your ID with Name, Date of Birth, and address to the site attendant. Additional information including phone number, email, etc. will be required. **Step 2:** The site attendant will complete the registration site form on-site.

# **After Your Test**

If you have not received your test results within four days of collection, please call MAKO.

**NOTE:** Please do not call the lab unless four full days have passed.

# **How to Access Your Results**

Results available after four days.

Text: "MAKO" to 66349

or visit https://mako.luminatehealth.com

If you have problems accessing your results, for fastest service please submit a support ticket via the website: https://mako.luminatehealth.com/common/signup Results will be available after FOUR DAYS.

# Antes de su prueba

# **REGÍSTRESE PARA SU PRUEBA** (Elija A o B)

Cuenta N.° **12928** 

REGISTRO PREVIO (NOTA: Se recomienda esta opción para REDUCIR el tiempo de espera.) Paso 1: Visite https://tinyurl.com/gjcoff-12928.

O escanee este código QR con su teléfono celular. Paso 2: Complete su formulario de registro. Nota: Revise dos veces la ortografía de su nombre y su fecha de nacimiento. Esta información debe ser exacta y correcta para que reciba sus resultados. Paso 3: Tras completar el formulario, recibirá un correo electrónico con su número de registroque comienza con MX. Muestre este número al asistente del lugar para continuar con su prueba.

REGISTRO EN LÍNEA (NOTA: Esta opción AUMENTARÁ su tiempo de espera.)

Paso 1: Proporcione una copia de su identificación con nombre, fecha de nacimiento y dirección al asistente del lugar. *Se le solicitará* información adicional, incluido su número de teléfono, correo electrónico, etc.

Paso 2: El asistente del lugar completará el formulario de registro en el lugar.

# Después de su prueba

Si no recibió los resultados de la prueba en los cuatro días posteriores a la toma, llame a MAKO.

NOTA: No llame al laboratorio a menos que hayan pasado cuatro días completos.

# Cómo acceder a sus resultados

Resultados disponibles después de cuatro días.

Envíe por mensaje de texto: "MAKO" al 66349 o visite https://mako.luminatehealth.com

# WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms<sup>1</sup>?

# Symptom Cough more than expected? Shortness of breath or difficulty breathing? Fever? Chills? Muscle pain outside your normal for firefighting? Sore throat? New loss of taste or smell?

# **Instructions for Screening**

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries:	DO NOT ANNOUNCE
Consider adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained.	Ask individual to step aside and follow the steps below.
If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	

Steps to follow	
Escort symptomatic individual to isolation area.	
Isolation support personnel should begin documentation.	
Have symptomatic individual contact Supervisor for further dire	ection.
Notify public health officials.	
Have individual transported as appropriate.	
Protect and secure any collected Personal Identifiable Informati Health Information (PHI).	on (PII) or Personal

st Take temperature with no-touch thermometer, if available st

# **HEALTH AND SAFETY MESSAGE**

**INCIDENT:** Pine Gulch Fire DATE: September 19, 2020

Major Hazards & Risks: Heavy Equipment Operations, Driving, Communications issues,

Working on slopes, COVID

# 1-800-273-TALK (8255) 24/7

It is fair to say that since the recognition of COVID-19 in March, our workforce has been in a Planning Level (PL5) level of reaction. We have been forced to adapt rapidly with ever-changing policies. This alone has created a stressful environment for many, and if you are feeling this way, you are not alone.

Our work as firefighters is not limited to wildfires any longer but has expanded to all risk, which brings even more exposure to stressful situations. Hurricanes, longer assignments, busier seasons, devastating fires...sound familiar? More time away from home and experiencing more stress can take its toll.

Learning to recognize the indicators that you or someone on your crew/unit/team needs additional support can be the difference that saves a life.

The mental health continuum can be used as a tool to help build resiliency, allowing for recovery from stressful events and reducing the chance of suicide.

#### **ACTION:**

- 1 YOU: Assess where you are currently on the spectrum.
- **2 As a CREW**: Have each person on the crew discuss three signs they exhibit when they are stressed as well as several things they enjoy doing to relieve stress.

Talking about stress can bring a crew/unit/team closer together, but it's not always easy to do. Consider discussing these questions to chat about stress and how to manage stress:

- How do you exhibit stress?
- Do co-workers have insights on how you exhibit stress?
- What stress-relief activities and strategies do you share with your co-workers?

# Stress Continuum Model

READY	REACTING	INJURED	ILL
(Green)	(Yellow)	(Orange)	(Red)
DEFINITION Adaptive coping and mastery Optimal functioning Wellness FEATURES Well trained and prepared Fit and focused In control Optimally effective Behaving ethically Having fun	DEFINITION Mild and transient distress or loss of optimal functioning Always goes away Low risk for illness FEATURES Irritable, angry Anxious or depressed Physically too pumped up or tired Loss of complete self control Poor focus Poor sleep Not having fun	DEFINITION  More severe and persistent distress or loss of function Leaves a "scar" Higher risk for illness CAUSES Life threat Loss Inner conflict Wear and tear FEATURES Panic or rage Loss of control of body or mind Can't sleep Recurrent nightmares or bad memories Persistent shame, guilt, or blame Loss of moral values & beliefs	DEFINITION Persistent and disabling distress or loss of function Clinical mental disorders Unhealed stress injuries TYPES PTSD Depression Anxiety Substance abuse FEATURES Symptoms and disability persist over many weeks Symptoms and disability get worse over time

#### **UPPER COLORADO RIVER IMT3 TEAM FINANCE**

Email: 2020.pinegulch.finance@firenet.gov

Time Reporting – Crew Time Reports and Equipment Shift Tickets

SUBMIT ALL DOCUMENTATION ELECTRONICALLY TO FINANCE:

1. Use QR code below to automatically create email to be sent directly to Finance

2. As an alternative to using the QR code, you can also send emails of photos, scans or pdf files of CTR and Equipment Shift Tickets to email: <a href="mailto:2020.pinegulch.finance@firenet.gov">2020.pinegulch.finance@firenet.gov</a> with Resource Order number and \*TIME\* on Subject line

#### Tips:

- When emailing documentation to Finance, always include your <u>Resource Order number</u> on the Subject line.
- Include the word \*TIME\* (including the asterisks) in the subject line is required to helpour Finance staff better organize and manage your paperwork
  - Example: SUBJ: O-9999 \*TIME\*
- When sending pictures or scans, be sure the signature portion is included
- Remember your Finance 100 training:
  - Write legibly
  - Include Resource Order #
  - Add total work hours (this reminds your supervisor to provide additional documentation as needed)
  - Ensure all signatures are on documents before emailing to Finance
- Contractors who would like an <u>interim payment</u> submitted for processing can email\_ <u>2020.pinegulch.finance@firenet.gov</u> and include your name and phone number so we may contact you for additional information

#### **REMOTE FINANCE DEMOB**

REMEMBER: All documentation must be submitted electronically to finance, and last CTR should include cell phone number and email address.

2020.pinegulch.finance@firenet.gov

Subject: reference your Resource Order number, name and Demob.

#### Tips:

- At least 48 hours prior to your scheduled demob date, submit any missing CTRs and/or STs and let Finance know the date you will be demobing.
- When your final work time has been signed by your supervisor, submit with start travel time or travel CTR/ST to Finance with request for draft final OF-288.
- Time recorder will email a draft for your review.
- Please be patient with Finance during the Demob process. You may travel without your travel documents or you can wait until the final is ready. However, you will not be compensated for waiting to receive your final pay documents.

Please scan this QR code to initiate your Finance Demob request.

# Pine Gulch Repair Standards

# **Hand Lines:**

- 1. Obliterate any berms.
- 2. Construct water bars at roughly 30 to 45-degree angles perpendicular to hand line
- 3. Water bar spacing:
  - < 15 percent slope (degrees) space at roughly 100 ft. apart
  - 15-30% slope space at roughly 50 ft. apart
  - > 30 percent slope space at roughly 25 ft. apart.
- 4. Hand line water bars should be 6-8" deep.
- 5. Adequately drain water bars away from line.

#### **Heavy Equipment Lines:**

- 1. Coordinate reclamation work with READ
- 2. Re-establish natural grade and remove berms
- 3. Construct water bars at roughly 30 to 45-degree angles perpendicular to dozer line to facilitate drainage
- 4. Construct water bars a minimum of 12" deep with 18"-24" berm
- 5. Down slope end of water bars is open and has adequate length to prevent runoff from reentering the control line.
- 6. Locate and construct water bars based on site specific conditions
- 7. Pull trees, rocks and other debris to sit perpendicular to slope across dozer line, where feasible
- 8. Remove and place line construction debris from stream channels to prevent soil movement into water resources.
- 9. Reinforce water bars with native materials where necessary.

#### **Recreational Trails and Routes:**

- 1. Where used as hand line, rehabilitate the trail/route tread to the original width as recommended by the READ.
- 2. When appropriate camouflage fire lines with rocks, limbs and other natural debris over a natural sightline distance from hand line crossing.
- 3. Remove hazards (e.g., snags/limbs, flush cut stumps and unstable rocks or logs) from along recreational trails (and recreation sites) if and when conditions allow.
- 4. Scatter excess accumulations of cut limbs and logs in natural patterns (irregular) along recreational routes.

#### **Roads:**

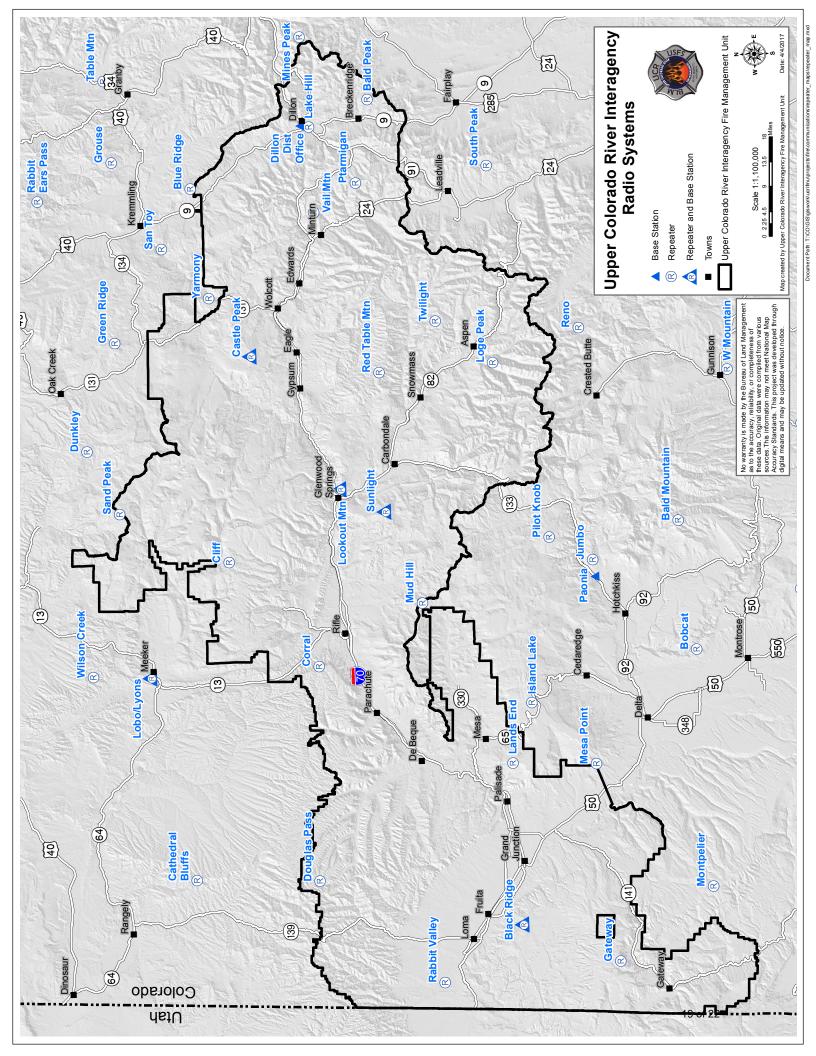

#### Conduct the following work in yellow to retain site specific knowledge from Division crews.

- 1. Repair (or blade) any roads, culverts, or drainage structures, and ditch lines that have been impacted by suppression activities.
- 2. Remove suppression debris 50 feet from ditch lines and culvert inlets.

Repair and restore drainage crossings where suppression activities have impact possible flow.

# **Stream crossing/ Riparian**

- 1. Drafting and dip sites will be rehabilitated to natural conditions
- 2. Stream and drainage crossing will have natural flow patterns restored
