Fire Information: (970) 628-5622 2020.pinegulch@firenet.gov Media Line: (970) 628-5622

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY		
PINE GULCH	Date/Time From: 09/20/2020 0700 SUN		Date/Time To: 09/20/2020 2100 SUN
3. Objective(s):			
<ol style="list-style-type: none"> 1. Provide for firefighter and public safety by utilizing sound risk management processes and life/safety principles. 2. Follow CDC as well as local, state, and agency specific guidance to prevent COVID-19 spread. 3. Curtail adverse impacts to residences, commercial properties, and critical community infrastructure. Values at risk include the community of De Beque and surrounding area, private land and ranches, BLM infrastructure, cultural and historic sites, power transmission lines, oil & gas infrastructure, sensitive species, range infrastructure, and recreation infrastructure. 4. Implement a full suppression strategy utilizing a variety of tactics to limit fire size and achieve containment. 5. Coordinate with affected partners to ensure timely and accurate distribution of information to the public. 6. Maintain and develop relationships with adjacent agency staffs, cooperators, permittees, and stakeholders. 7. Ensure incident cost is commensurate with the values at risk. 8. Support initial attack for local fire unit. 9. Implement suppression repair plan. 			
4. Operational Period Command Emphasis:			
<ol style="list-style-type: none"> 1. Coordinate with Resource Advisors to continue suppression repair work. 2. Patrol existing control lines. 3. Mop-up only to the extent necessary to prevent escape or protect values at risk. 			
General Situational Awareness:			
<p>Follow COVID mitigation measures such as social distancing, maintaining module of one separation, wearing face coverings, and practicing good personal hygiene. At the first sign of cough or flu like symptoms, isolate yourself and call medical for further instructions.</p> <p>Maintain situational awareness. Ensure complacency doesn't set in as you complete daily operational tasks.</p>			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located at:			
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

IWI IC Responsibilities:

- Take charge of the scene – inform the Division Supervisor and Communications that you are the IWI IC and establish radio communications (frequencies, channels). Identify the emergency name – (Ex. Division A medical, Fish Meadows medical, Highway 21 accident.)
- Assign or begin patient assessment Medical Incident Report (MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to Communications.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.
- As appropriate, conduct an After Action Review to determine successes, areas to improve and lessons learned.

Daily COVID-19 Reminder

- It is mandatory to communicate your daily COVID self-check to your supervisor
- Crews and Engines may make one submission if all personnel in crew or on engine answer NO to all questions and have a temperature less than 100. Please enter ONE temperature on the form. Self-monitor all day and if you have any symptoms, call medical and isolate until further directed.
- If you cannot socially distance, please wear your masks while you are inside a building on the incident. If you are outside and not socially distanced, please wear your mask.
- Check with your home unit and state as soon as possible to make sure you know what is expected of you before your return. There are free COVID tests Tuesday- Saturday 0800-1500 at the Mesa County Fairgrounds/grandstands.
- Questions please contact:

COVID Coordinator at 970-644-0747

- **Scan the QR code (on following page) or use the link to register for your COVID-19 test (ignore any request for insurance information, the test is free).**
- **A family unit/pod/module/crew that has traveled together can travel to the test site with masks on in the same vehicle.**
- **The test site is located at the fairgrounds and is inside the grandstands.**
- **The test site is open Tuesdays-Saturdays from 0800 to 1500.**

Before Your Test

REGISTER FOR YOUR TEST (Choose A or B)

Account #
12928

A PRE-REGISTER (NOTE: This option is encouraged to **REDUCE** wait time.)
Step 1: Visit <https://tinyurl.com/gjcoff-12928>. Or scan this QR code with your smartphone. **Step 2:** Complete the registration form. **Note:** Double check the spelling of your name and your date of birth. This information must be exactly correct to receive your results. **Step 3:** Upon completing the form you will receive an email with your registration number beginning with MX. *Show this number to the site attendant in order to proceed with your test.*

B REGISTER-ON-SITE (NOTE: This option will **INCREASE** your wait time.)
Step 1: Provide a copy of your ID with Name, Date of Birth, and address to the site attendant. Additional information including phone number, email, etc. **will be required.**
Step 2: The site attendant will complete the registration site form on-site.

After Your Test

If you have not received your test results within four days of collection, please call MAKO.

NOTE: Please do not call the lab unless four full days have passed.

How to Access Your Results

(Results available after four days.)

Text: **“MAKO” to 66349**
or visit <https://mako.luminatehealth.com>

If you have problems accessing your results, for fastest service please submit a support ticket via the website: <https://mako.luminatehealth.com/common/signup>

Results will be available after **FOUR DAYS**.

Antes de su prueba

REGÍSTRESE PARA SU PRUEBA (Elija A o B)

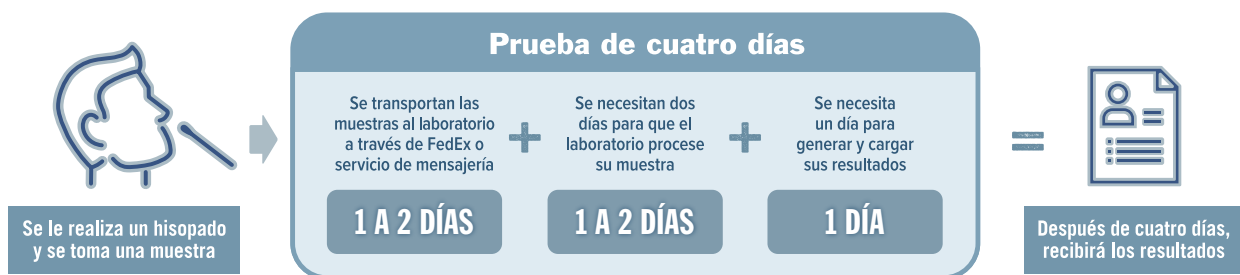

Cuenta N.º
12928

A **REGISTRO PREVIO** (NOTA: Se recomienda esta opción para **REDUCIR** el tiempo de espera.) **Paso 1:** Visite <https://tinyurl.com/gjcoff-12928>. O escanee este código QR con su teléfono celular. **Paso 2:** Complete su formulario de registro. Nota: Revise dos veces la ortografía de su nombre y su fecha de nacimiento. Esta información debe ser exacta y correcta para que reciba sus resultados. **Paso 3:** Tras completar el formulario, recibirá un correo electrónico con su número de registro que comienza con MX. *Muestre este número al asistente del lugar para continuar con su prueba.*

B **REGISTRO EN LÍNEA** (NOTA: Esta opción **AUMENTARÁ** su tiempo de espera.) **Paso 1:** Proporcione una copia de su identificación con nombre, fecha de nacimiento y dirección al asistente del lugar. **Se le solicitará** información adicional, incluido su número de teléfono, correo electrónico, etc. **Paso 2:** El asistente del lugar completará el formulario de registro en el lugar.

Después de su prueba

Si no recibió los resultados de la prueba en los cuatro días posteriores a la toma, llame a MAKO.

NOTA: No llame al laboratorio a menos que hayan pasado cuatro días completos.

Cómo acceder a sus resultados

(Resultados disponibles después de cuatro días.)

Envíe por mensaje de texto: **“MAKO” al 66349** o visite <https://mako.luminatehealth.com>

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever?
Chills?
Muscle pain outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
<i>* Take temperature with no-touch thermometer, if available *</i>

Instructions for Screening

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries: Consider adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained. If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	DO NOT ANNOUNCE Ask individual to step aside and follow the steps below.

Steps to follow

- Escort symptomatic individual to isolation area.
- Isolation support personnel should begin documentation.
- Have symptomatic individual contact Supervisor for further direction.
- Notify public health officials.
- Have individual transported as appropriate.
- Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

HEALTH AND SAFETY MESSAGE

INCIDENT: Pine Gulch Fire

DATE: September 20, 2020

Major Hazards & Risks: Heavy Equipment Operations, Driving, Communications issues, Working on slopes, COVID

50 Rollovers recorded on the Lessons Learned Center since records began. Equipment and vehicles included dozers, excavators, utvs/atvs, engines, tenders, command vehicles and other equipment.

Multiple reasons why rollovers occur, but this message will specifically address parking.

In 2005, three fireline fatalities related to improper parking on slopes occurred. One involved a water tender, another a fire engine, and the third was a command vehicle. In wildland fire operations, we frequently exit vehicles quickly, but it is imperative that anytime a vehicle is left unattended, time is taken to assure it is parked safely and will not present a hazard to ourselves or others.

Standard operating procedures for parking vehicles safely on slopes are:

- Turn the front wheels uphill or into the inside/embankment.
- Firmly set the emergency brake.
- Put the vehicle in park (if automatic transmission) or in forward gear (if manual transmission); do not leave it in neutral.
- Turn off the engine.
- Chock the wheels. When utilizing chocks, make sure they are on the correct side in reference to the slope. Assure the chocks are approved to hold the weight of the vehicle and will grip on the road surface.
- Be especially aware of safe parking on slopes on incidents when moving a vehicle frequently, as in using engines in pumping operations along a roadway – it is very easy to get complacent with procedures or not even realize that you are on a slightly different slope which would require placing chocks differently. It is the driver's responsibility to assure not only that the vehicle is operated safely, but is positioned and parked safely.

UPPER COLORADO RIVER IMT3 TEAM FINANCE

Email: 2020.pinegulch.finance@firenet.gov

Time Reporting – Crew Time Reports and Equipment Shift Tickets

SUBMIT ALL DOCUMENTATION ELECTRONICALLY TO FINANCE:

1. Use QR code below to automatically create email to be sent directly to Finance

2. As an alternative to using the QR code, you can also send emails of photos, scans or pdf files of CTR and Equipment Shift Tickets to email: 2020.pinegulch.finance@firenet.gov with Resource Order number and *TIME* on Subject line

Tips:

- When emailing documentation to Finance, always include your Resource Order number on the Subject line.
- Include the word *TIME* (including the asterisks) in the subject line is required to help our Finance staff better organize and manage your paperwork
 - Example: SUBJ: O-9999 *TIME*
- When sending pictures or scans, be sure the signature portion is included
- Remember your Finance 100 training:
 - Write legibly
 - Include Resource Order #
 - Add total work hours (this reminds your supervisor to provide additional documentation as needed)
 - Ensure all signatures are on documents before emailing to Finance
- Contractors who would like an interim payment submitted for processing can email 2020.pinegulch.finance@firenet.gov and include your name and phone number so we may contact you for additional information

REMOTE FINANCE DEMOB

REMEMBER: All documentation must be submitted electronically to finance, and last CTR should include cell phone number and email address.

2020.pinegulch.finance@firenet.gov

Courtney Murray: (970) 712-9755

Subject: reference your Resource Order number, name and Demob.

Tips:

- At least 48 hours prior to your scheduled demob date, submit any missing CTRs and/or STs and let Finance know the date you will be demobing.
- When your final work time has been signed by your supervisor, submit with start travel time or travel CTR/ST to Finance with request for draft final OF-288.
- Time recorder will email a draft for your review.
- **Please be patient with Finance during the Demob process. You may travel without your travel documents or you can wait until the final is ready. However, you will not be compensated for waiting to receive your final pay documents.**

Please scan this QR code to initiate your Finance Demob request.

Finance Section Chief: Courtney Murray (970) 712-9755

Pine Gulch Repair Standards

Hand Lines:

1. Obliterate any berms.
2. Construct water bars at roughly 30 to 45-degree angles perpendicular to hand line
3. Water bar spacing:
 - < 15 percent slope (degrees) space at roughly 100 ft. apart
 - 15-30% slope space at roughly 50 ft. apart
 - > 30 percent slope space at roughly 25 ft. apart.
4. Hand line water bars should be 6-8" deep.
5. Adequately drain water bars away from line.

Heavy Equipment Lines:

1. Coordinate reclamation work with READ
2. Re-establish natural grade and remove berms
3. Construct water bars at roughly 30 to 45-degree angles perpendicular to dozer line to facilitate drainage
4. Construct water bars a minimum of 12" deep with 18"-24" berm
5. Down slope end of water bars is open and has adequate length to prevent runoff from reentering the control line.
6. Locate and construct water bars based on site specific conditions
7. Pull trees, rocks and other debris to sit perpendicular to slope across dozer line, where feasible
8. Remove and place line construction debris from stream channels to prevent soil movement into water resources.
9. Reinforce water bars with native materials where necessary.

Recreational Trails and Routes:

1. Where used as hand line, rehabilitate the trail/route tread to the original width as recommended by the READ.
2. When appropriate camouflage fire lines with rocks, limbs and other natural debris over a natural sightline distance from hand line crossing.
3. Remove hazards (e.g., snags/limbs, flush cut stumps and unstable rocks or logs) from along recreational trails (and recreation sites) if and when conditions allow.
4. Scatter excess accumulations of cut limbs and logs in natural patterns (irregular) along recreational routes.

Roads:

Conduct the following work in yellow to retain site specific knowledge from Division crews.

1. Repair (or blade) any roads, culverts, or drainage structures, and ditch lines that have been impacted by suppression activities.
2. Remove suppression debris 50 feet from ditch lines and culvert inlets.

Repair and restore drainage crossings where suppression activities have impact possible flow.

Stream crossing/ Riparian

1. Drafting and dip sites will be rehabilitated to natural conditions
2. Stream and drainage crossing will have natural flow patterns restored

MEDICAL PLAN (ICS 206 WF)

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY. FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.					
Use the following items to communicate situation to communications/dispatch.					
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i>					
2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury			<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>		
Transport Request			<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>		
Patient Location			<i>Descriptive Location & Lat. / Long. (WGS84)</i>		
Incident Name			<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>		
On-Scene Incident Commander			<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>		
Patient Care			<i>Name of Care Provider (Ex: EMT Smith)</i>		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Patient Assessment: See IRPG PAGE 106					
Treatment:					
4. TRANSPORT PLAN:					
Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:					
<i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i>					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.					
8. ADDITIONAL INFORMATION: Updates/Changes, etc.					
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
