Fire Information: (970) 628-0130 2020.pinegulch@firenet.gov Media Line: (970) 812-3706

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY	
PINE GULCH	Date/Time From: 08/30/2020 0600 SUN	Date/Time To: 08/30/2020 2100 SUN
3. Objective(s):		
<ol style="list-style-type: none"> 1. Provide for firefighter and public safety by utilizing sound risk management processes and life/safety principles. 2. Minimize the spread of COVID-19 by following CDC guidance and established local, state, and national direction. 3. Minimize adverse impacts to residences, commercial properties, and critical community infrastructure. Values at risk include the community of De Beque and surrounding area, private land and ranches, BLM infrastructure, cultural and historic sites, power transmission lines, oil & gas infrastructure, sensitive species, range infrastructure, and recreation infrastructure. 4. Implement a full suppression strategy utilizing a variety of tactics to limit fire size and achieve containment. 5. Coordinate with affected partners to ensure timely and accurate distribution of information to the public. 6. Maintain and develop relationships with adjacent agency staffs, cooperators, permittees, and stakeholders. 7. Ensure incident cost is commensurate with the values at risk. 8. Implement suppression repair plan. 		
4. Operational Period Command Emphasis:		
<ol style="list-style-type: none"> 1. Implement strategies and tactics that commit responders only to operations where and when they can be successful, and under conditions where important values at risk are protected with the least exposure necessary. 2. Hold existing control lines and maintain structure protection actions where threats exist. Aggressively suppress fire that escapes or threatens to escape control lines. 3. Mop-up only to the extent necessary to prevent escape or protect values at risk. 4. Coordinate with Resource Advisors to develop and implement plans for suppression repair. 5. Implement actions associated with the fire crossing management action points (MAPs). 		
General Situational Awareness:		
<p>Follow COVID mitigation measures such as social distancing, maintaining module of one separation, wearing face coverings, and practicing good personal hygiene. Go to medical tent at ICP at the first sign of a cough or flu like symptoms. Maintain situational awareness as the transition between the two IMTs occurs. Ensure complacency doesn't set in as you complete daily operational tasks.</p>		
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>		
Approved Site Safety Plan(s) Located at:		
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):		
<input checked="" type="checkbox"/> ICS 202 <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206	<input type="checkbox"/> ICS 207 <input checked="" type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> ICS 220 <input checked="" type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	Other Attachments: <input checked="" type="checkbox"/> <u>FINANCE INSTRUCTIONS</u> <input checked="" type="checkbox"/> <u>LINE SUPPLY ORDER</u> <input checked="" type="checkbox"/> <u>COVID SUPPLY ORDER</u> <input checked="" type="checkbox"/> <u>TENTATIVE DMOB</u>

To: All Incident Personnel, Pine Gulch 2020

As Southern Area National Type I Incident Commander, I am committed to a policy of “zero tolerance” of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated. Known or reported acts will be dealt with appropriately.

I am particularly concerned about the perception that alcohol has a place in any of the Incident facilities. It is not appropriate to indulge in alcoholic beverages during any fire assignment.

The National Team from the Southern Region has a policy of “NO ALCOHOL” from the time of dispatch until the time of physical release from the Incident. Members of the Team voluntarily comply with this policy; all incident personnel will be expected to do so also.

We endorse, support, and expect an attitude of mutual respect for all Incident personnel and the public we serve. We also, endorse the attitude and work ethic that places “Safety First, every time on every Incident.” We expect nothing less.

/s/ Mike Dueitt

Incident Commander

SAIMT 1

Pine Gulch Fire Weather Forecast

FORECAST NO: 25
FORECAST FOR: Sunday, Aug 30 Day & Night Shifts
FORECAST ISSUED: August 29, 2020, 2000 MDT

NAME OF FIRE: Pine Gulch
UNIT: BLM – GJT Office
SIGNED: //s// Mark Loeffelbien - IMET

WEATHER DISCUSSION: Drier air moving into northwest Colorado will reduce the chance of thunderstorms and lower afternoon RHs. Ridge top winds will be gusty again in the late afternoon with the added potential of gusts to 40 mph from any thunderstorms that do develop. Heavy rainfall can't be ruled out once again. Winds at the top of the East Salt Creek drainage with gust stronger than other ridge tops due to the channeling effect of the southwest winds.

FORECAST FOR TODAY: Mostly Sunny (10-30%). 20% Chance of Thunderstorms.

Max Temperature: (6500 ft.) 82-85 (1-3° Warmer) Min RH: (6500 ft.) 16-20% (4-8% Lower)
(8500 ft.) 72-76 (1-3° Warmer) (8500 ft.) 18-21% (7-10% Lower)

20 FT Winds:

Slope/Valleys: Upslope 3-5 mph after 1000, then up valley/canyon 4-6 mph.
Ridgetops: ENE 4-6 mph until 1100, then WSW 10-14 Gusts 25 mph.

Branch I & IV:

Slope/Valleys: Downvalley 4-6 mph through 0900, then SW 5-8 mph through 1800.
Ridgetops: NNW wind 6-9 mph thru 1000, then SW 5-8 mph thru 1600, then WSW 10-14 Gusts 25 mph.

iRAWS above E Salt Creek: SSW 10-14 Gusts 25 mph thru 1500, then SSW 12-16 Gusts 30 mph.

CWR (0.1"+): 10% LAL: 2
Inversion: Breaking 1500-1600 Haines: 5 Moderate Dispersion: Poor until 1000, then Good

OUTLOOK FOR TONIGHT: Mostly Clear. An isolated thunderstorm possible. Thermal Belts Developing.
Min Temperature: Valleys 60-64 Max RH: Valleys 35-40%
Midslopes 66-70 Midslopes 25-30%
Ridgetops 58-62 Ridgetops 27-32%

20 FT Winds:

Slope/Valleys: Upcanyon 4-6 mph until 2000, then downslope 2-4 mph.
Ridgetops: West 8-12 Gusts 19 mph until 2200, then ESE 5-8 mph.

CWR (0.1"+): 10% LAL: 1 Haines: 5 Moderate

EXTENDED OUTLOOK:

Monday...Fire Weather Watch...Partly Cloudy. Slight Chance of Thunderstorms late. High 82-85 Min RH: 10-15%. Winds WSW 12-16 Gusts to 35 mph. Haines: 6. CWR (0.1"+): Less than 10%.
Tuesday...Partly Cloudy. Rain possible in the morning with thunderstorms in the afternoon. High 72-76 Min RH: 22-34%. Winds WNW 11-14 Gusts to 20 mph. Haines: 3. CWR (0.1"+): 30%.
Wednesday...Mostly Sunny. High 80-83 Min RH: 13-16%. Winds W 9-12 Gusts to 16 mph. Haines: 5. CWR (0.1"+): 0%

Sunrise today: 6:41am
Sunset tonight: 7:46pm

PLEASE submit your weather observations here:
Or send a picture of them to (240)778-5281.

FIRE BEHAVIOR FORECAST			
Incident Name	Pine Gulch	Forecast Number	27
Operational Period	08/30/2020	Date/Time Issued	08/29/2020 - 2000
Unit	CO-GJFO	Forecast by (Name & Position)	Greg Titus FBAN Mike Ward FBAN (t)

FACTORS INFLUENCING FIRE BEHAVIOR

WEATHER:

HOT (Temp 84-87) & **DRY** (Min RH 12-18%)
WINDS: Slope & Valley: 3-5mph upslope after 1100, then up valley at 4-6mph.
Ridgetops: WSW 9-13 mph gusting to 22.
Good Humidity recovery from previous night (Max RH 60-70%).
Haines: 4, Forecasted ERC: 70 (fuel model 7H)

FUELS:

Live Woody Fuel Moisture: 80-90%
Forecasted Min. Fine Dead Fuel Moisture Content: 4%
Heavy Dead Fuel Moisture Content (1000hr): 6%

Local Thresholds for Critical Fire Behavior: 20' Winds: >18-24 mph RH: < 15-20% Temp: >81-89° max recovery >40% 1000: <10%

FIRE BEHAVIOR Outputs

GENERAL:

Fire activity interior and along the fire edge is expected to continue to moderate as weather conditions are expected to remain above critical temperature and RH thresholds.

- Active fire spread can be expected where fuels in areas exposed to high winds associated with thunderstorm passage.
- Heavy dead and down fuels will remain very dry and available for ignition despite recent patchy precipitation events.
- Live brush fuels and heavy dead and down fuels primary contributors to fire spread.
- patchy cloud cover resulting in diminished solar exposure on the fuels.
- New ignitions within continuous shrub/grass fuels will produce active fire spread backing, flanking with some short upslope runs, changing to more active fire behavior with isolated torching and short range spotting.

Head Fire Flame lengths maximum will be:

Fuel Type (Head Fire, 70% slope)	Flame Lengths (feet)	Rates of Spread (feet/minute)
Shrub (SH2)	7-8	17
Grass GR2	4-5	54
TU5 (Timber w/understory)	11	24

Probability of Ignition: 90%

From DIV A/B to D/E break Fire will continue to smolder and creep, backing down slope into wind. Munger Creek and Hunter Creek drainages show the greatest potential for active fire if updrainage winds and continuous fuels alignment.

Minimal fire behavior expected for the remained of the fire. Isolated smoldering and hot spots may

Night: Moderate fire behavior will continue into nighttime hours, diminished humidity recoveries will be conducive to continued fire growth through the night.

AIR OPERATIONS:

Minimal smoke production, no limitations to Air Operations

SAFETY:

New ignitions may produce very high to extreme fire behavior as all live and dead fuels are available for burning. Active upslope runs and spotting very likely for new ignition mid to lower slope. Don't let fire activity on current fire cloud your judgement on new ignitions.

Daily COVID-19 Reminder

It is **mandatory** to submit your daily COVID questionnaire using the QR code found around camp, in the IAP, or below.

Crews and Engines may make one submission if all personnel in crew or on engine answer **NO** to all questions and have a temperature less than 100. Please enter ONE temperature on the form.

*If a member answers **YES** please have them fill out an individual questionnaire and contact Medical Unit.*

Daily Temperature checks are mandatory for all personnel in field and/or ICP. Field crews utilize field medical personnel for temperature checks.

Self-monitor throughout your work day and please report to your medical personnel if symptoms are noticed for guidance.

Questions please contact:

Medical Unit and COVID Coordinator at 970-718-2510

HEALTH AND SAFETY MESSAGE

SAFETY** starts with **YOU

INCIDENT: **Pine Gulch Wildfire**

DATE: **August 30, 2020**

TIME: **DAYSHIFT**

Major Hazards and Risks:

Transition Day

Driving

Heavy Equipment

Dehydration

Fire Order of the Day – Obtain current information on fire status.

Narrative: **Driving** is a critical safety issue. Roads are dusty and winding with heavy use by engines, equipment, and transports. Drive with Headlights on! Watch out for ranchers accessing area looking for cattle. Obey posted speed limits on all main highways. Off the highway, maintain a speed appropriate for conditions. **Transition** Make sure you understand your assignment and be sure to familiarize yourself with your area of the fire; pre-plan and constantly reconfirm your escape routes and safety zones. **Dehydration** temperatures will be cooler today, but remember you still have to drink adequate fluids throughout the day; drink plenty of fluids (one quart per hour; mix water with Gatorade at 2:1 ratio; POPC – pee often, pee clear). Make sure radio communications are established and operational before engaging. **Heavy Equipment** ensure personnel stay well clear of heavy equipment and review working with heavy equipment in IRPG (pg. 86).

SAFETY THOUGHT FOR THE DAY: LCES combined with **attitude** equals LACES. Make sure your LACES are tied!

Safety Checklist

1. **LCES** must be established & known to **ALL** firefighters **BEFORE** needed.
2. Know the four major areas of safety concern on fires: the fireline, transportation, air operations, and camp.
3. Participate in crew briefings before, during, and after each operational period.
4. Drink enough water to replace fluids lost through perspiration. Drink at least one quart of water per hour.

DRIVE DEFENSIVELY!

- ◆ Drive with headlights and seatbelts on. Assure you can stop within less than ½ the distance you can see ahead. Yield a full lane to approaching traffic on blind-corners; select sites for passing only where at least two full vehicle widths are assured.
- ◆ Keep vehicle operator space clean free of distractions; keep vehicle windshields clean and mirrors adjusted. Assure separation of tools/equipment from passengers. Secure loose items inside and outside that could harm people.
- ◆ Park vehicles for easy access and escape. Block vehicle wheel from rolling when parked on an incline; set parking brake.
- ◆ When backing, use spotter or otherwise assure clear area for turning around.
- ◆ Obey speed limits; switch drivers or take a 10 minute break every 2 hour; drivers not to exceed 10 hours driving in a 15 hour 'duty-day'.
- ◆ Drivers going to the fireline (including drop points) are required wear leather boots and nomex clothing. A hardhat, leather gloves, and fire shelter must be in your immediate presence. Know the road system and always know the way to safe areas.
- ◆ Drivers are not allowed to talk on cell phones while driving. Avoid, when reasonable, driving between 2200 and 0500.

RED TEAM Incident Safety Officers: José Castro, Mike Cook Brad Lidell, Rob Poyner, and Dave Stone

Human Resource Message

August 30, 2020

PATIENCE

There are many benefits to developing and practicing patience, for both you and those around you!

- Anger and stress are two things that are enough to ruin a person's health. Patience is the antidote to both.
- Patience allows time for strategic thinking and completely evaluating a situation. Things have time to fall into place, presenting a clearer strategic view of what's taking place.
- Patience allows us to be kind to those in a variety of situations and communicate openly to alleviate any misunderstandings and mistrust.
- It gives us the persistence to carry out things that will lead us to a long-term goal.

*Patience is not the ability to wait,
but how you act while you're waiting.*

~Joyce Meyer

TRAINING MESSAGE

As a reminder, if you are a trainee (especially within Grand Junction Dispatch Zone, a Priority Trainee with a Geographic Area Priority Trainee Program, or IMT trainee) and have not checked in yet, feel free to stop by Plans or use the QR code for Trainee Check In Form to complete the on-line check in.

As a reminder, you do not have to wait until the last work day to complete a position task book evaluation and check out with TNSP. You can complete this any time on the incident. If you will be demobilizing soon, the sooner you can complete the Check Out process, the better as the IMT will be transitioning in near future.

Process for Checking In and Checking Out with Training Specialist

Step 1: Check In. In person is preferable. You can also use the QR code and complete the Check In Form.

Step 2: Check Out. In person is preferred; but, you can give me a call and we can go through the Exit Interview Form and discuss how your assignment went. If you cannot contact me, another option is to complete the Exit Interview Form through the QR code link. Hardcopy forms for Individual Performance Evaluation and NWCG Evaluation Form have been sent to field for the Division Supervisors to distribute. The forms are also available on line at [ICS 225 WF](#) and [NWCG Evaluation Record Form](#). Your Trainer should complete the following for you:

- a) Performance Evaluation;
- b) Evaluation Record(s) (pages at end of task book); and
- c) Final Evaluator's Verification (page 2 of task book) if Evaluator's Recommendation is Box 1 on Evaluation Record (recommend trainee be considered for agency certification).

If checking out in person, please bring your task book and evaluation with you. If checking out by phone or using on line QR code, please take pictures of documentation above and email them to gseamon@talltimbers.org

Step 3: The TNSP will compile documentation for Trainee, Home Unit Training Officer, and incident documentation.

Trainees and/or evaluators are encouraged to call the Incident Training Specialist if there are any questions or concerns.

Greg Seamon, Training Specialist
850-556-8613
gseamon@talltimbers.org

SOUTHERN AREA IMT1 RED TEAM FINANCE

Email: 2020.pinegulch.finance@firenet.gov

Time Reporting – Crew Time Reports and Equipment Shift Tickets

SUBMIT ALL DOCUMENTATION ELECTRONICALLY TO FINANCE:

1. Use QR code below to automatically create email to be sent directly to Finance

2. As an alternative to using the QR code, you can also send emails of photos, scans or pdf files of CTR and Equipment Shift Tickets to email: 2020.pinegulch.finance@firenet.gov with Resource Order number and *TIME* on Subject line

Tips:

- When emailing documentation to Finance, always include your Resource Order number on the Subject line.
- Include the word *TIME* (including the asterisks) in the subject line is required to help our Finance staff better organize and manage your paperwork
 - Example: SUBJ: O-9999 *TIME*
- When sending pictures or scans, be sure the signature portion is included
- Remember your Finance 100 training:
 - Write legibly
 - Include Resource Order #

- Add total work hours (this reminds your supervisor to provide additional documentation as needed)
- Ensure all signatures are on documents before emailing to Finance
- Contractors who would like an interim payment submitted for processing can email 2020.pinegulch.finance@firenet.gov and include your name and phone number so we may contact you for additional information
- Thank you from Finance!

Guide to Checking-In

Step 1. COVID Screening. If you were not screened at the entrance to ICP, use the QR code to the right, answer a few questions and then have your temperature checked at the Medical tent (third yurt east of Community Building).

Step 2. Resource Check-In. Using the QR code to the left, check-in to the Pine Gulch Fire, CO-GRD-000307. This replaces the paper ICS-211 Check-In forms.

Step 3. Finance Check-In. Using the QR code to the right, check-in with Finance. Send all CTRs, contracts, CRRFs, and related financial documents to:

2020.pinegulch.finance@firenet.gov

Step 4. Check-in with your supervisor

Demob Tips

Pine Gulch Fire CO-GRD-000307

For emergency or urgent demobs contact your supervisor first and then contact the Demob Unit directly at 2020.pinegulch.dmob@firenet.gov or (936) 488-1231.

Note: If you have cell phone coverage you will not physically need to come to demob.

After being notified by your supervisor of your tentative release date:

Step 1. Return all supplies, radios, etc. that were checked out.

Step 2. Submit final time documents electronically to Finance per directions in IAP. Remember to provide a valid email address. You are now free to safely travel home or to your next assignment. It is not necessary to wait for your time documents. Finance staff will post your time, let you review a draft, and send your final time documents to you, all electronically.

TRAINEES: Contact the Incident Training Specialist at (850) 556-8613 prior to demobing.

Step 3. All vehicles that have been on the fireline must go through the weed wash (located at the MACK Base) prior to completing demob.

AFTER steps 1-3 are completed:

Step 4. Complete Demob Checkout Sheet using QR code. Once you submit the Demob Checkout Sheet you are released from the incident and may begin travel home. You do not need to physically come to demob. Safe travels!

Team Ordering/Timeline Process:

1100 - Last call to change spike camp resource hot food location.
 1600 - *DIVS* to have next day's resource order ready for Planning OPS.

- All crew level orders will be placed through *DIVS* or Branch.
- *DIVS* or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

Definitions

FOB-Forward Operating Base is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

Line Spike Camp-Managed by Operations at the *DIVS* level; mobile, short duration and self- sufficient.

Spike Camp-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

Emergency Medevac- Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's. Communications to clear command channel radio traffic.

Medical Transport-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. <i>(WGS84)</i>
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
