## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b>	<b>2. Operational Period: DAY</b>	
PINE GULCH	Date/Time From: 09/13/2020 0700      SUN	Date/Time To: 09/14/2020 2100      MON
<b>3. Objective(s):</b>		
<ol style="list-style-type: none"> <li>1. Provide for firefighter and public safety by utilizing sound risk management processes and life/safety principles.</li> <li>2. Follow CDC as well as local, state, and agency specific guidance to prevent COVID-19 spread.</li> <li>3. Curtail adverse impacts to residences, commercial properties, and critical community infrastructure. Values at risk include the community of De Beque and surrounding area, private land and ranches, BLM infrastructure, cultural and historic sites, power transmission lines, oil &amp; gas infrastructure, sensitive species, range infrastructure, and recreation infrastructure.</li> <li>4. Implement a full suppression strategy utilizing a variety of tactics to limit fire size and achieve containment.</li> <li>5. Coordinate with affected partners to ensure timely and accurate distribution of information to the public.</li> <li>6. Maintain and develop relationships with adjacent agency staffs, cooperators, permittees, and stakeholders.</li> <li>7. Ensure incident cost is commensurate with the values at risk.</li> <li>8. Support initial attack for local fire unit.</li> <li>9. Implement suppression repair plan.</li> </ol>		
<b>4. Operational Period Command Emphasis:</b>		
<ol style="list-style-type: none"> <li>1. Implement strategies and tactics that commit responders only to operations where and when they can be successful, and under conditions where important values at risk are protected with the least exposure necessary.</li> <li>2. Hold existing control lines and maintain structure protection where threats exist. Aggressively suppress fire that escapes or threatens to escape control lines.</li> <li>3. Mop-up only to the extent necessary to prevent escape or protect values at risk.</li> <li>4. Coordinate with Resource Advisors to refine and implement plans for suppression repair.</li> </ol>		
<b>General Situational Awareness:</b>		
<p>Follow COVID mitigation measures such as social distancing, maintaining module of one separation, wearing face coverings, and practicing good personal hygiene. At the first sign of cough or flu like symptoms, isolate yourself and call medical for further instructions.</p> <p>Maintain situational awareness. Ensure complacency doesn't set in as you complete daily operational tasks.</p>

- Take charge of the scene – inform the Division Supervisor and Communications that you are the IWI IC and establish radio communications (frequencies, channels). Identify the emergency name – (Ex. Division A medical, Fish Meadows medical, Highway 21 accident.)
- Assign or begin patient assessment Medical Incident Report (MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to Communications.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.
- As appropriate, conduct an After Action Review to determine successes, areas to improve and lessons learned.

## HEALTH AND SAFETY MESSAGE

<b>INCIDENT:</b> Pine Gulch Fire	<b>DATE:</b> Sunday, September 13, 2020
<b>Major Hazards &amp; Risks:</b>	Driving, Oil & Gas, Steep Slopes & Covid 19
<i>Risk with Purpose discussion</i>	
<h3>Subjective vs. Objective Hazards</h3> <ul style="list-style-type: none"><li>• <u>Subjective hazards</u>: based on or influenced by personal feelings or opinions. These hazards can be controlled or minimized through proper experience, skill, and decision making. Cutting a tree above your ability, working below heavy equipment operating upslope from you, overexertion, and driving/operating your equipment are all examples of subjective hazards.</li><li>• <u>Objective hazards</u>: a natural part of the environment. They cannot be eliminated and either one must not go into the environment where they exist or adhere to a procedure where safety from the hazard is assured.</li></ul> <p>The hazards in the wildland fire environment are either subjective or objective.</p> <p>The wildland fire environment has four basic <b>objective hazards</b>; lightning, fire-weakened timber (standing and lying), rolling rocks, and entrapment by running fires. When these hazards exist the options are to not enter the environment or to adhere to a safe procedure. The key to safe procedure is Lookout(s), Communications(s), Escape routes, and Safety zone(s) (LCES). The nature of wildland fire suppression dictates continuously evaluating and, when necessary, re-establishing or re-evaluating actions.</p> <h3>Identify subjective or objective hazards of working in the vicinity of, or associated with:</h3> <ul style="list-style-type: none"><li>• Dozer(s) or Tractor Plows.</li><li>• Bad roads (dusty, muddy, etc..)</li><li>• Snags</li><li>• Other Engines and Vehicles.</li><li>• UTVs</li><li>• Oil and Gas Wells, and Pipelines.</li><li>• Power lines.</li><li>• Floating Divisions.</li><li>• WUI.</li></ul> <p>Ultimately, decisions in the fire environment should be based on the benefit or purpose of that action being outweighed by the risk of implementing that decision.</p> <p>See IRPG Page 1 for more information on Risk Management</p>
