Fire Information: (970) 628-5622 2020.pinegulch@firenet.gov Media Line: (970) 628-5622

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY		
PINE GULCH	Date/Time From:	Date/Time To:	
	09/16/2020 0700 WED	09/16/2020 2100 WED	
3. Objective(s):			
<p>1. Provide for firefighter and public safety by utilizing sound risk management processes and life/safety principles.</p> <p>2. Follow CDC as well as local, state, and agency specific guidance to prevent COVID-19 spread.</p> <p>3. Curtail adverse impacts to residences, commercial properties, and critical community infrastructure. Values at risk include the community of De Beque and surrounding area, private land and ranches, BLM infrastructure, cultural and historic sites, power transmission lines, oil & gas infrastructure, sensitive species, range infrastructure, and recreation infrastructure.</p> <p>4. Implement a full suppression strategy utilizing a variety of tactics to limit fire size and achieve containment.</p> <p>5. Coordinate with affected partners to ensure timely and accurate distribution of information to the public.</p> <p>6. Maintain and develop relationships with adjacent agency staffs, cooperators, permittees, and stakeholders.</p> <p>7. Ensure incident cost is commensurate with the values at risk.</p> <p>8. Support initial attack for local fire unit.</p> <p>9. Implement suppression repair plan.</p>			
4. Operational Period Command Emphasis:			
<p>1. Implement strategies and tactics that commit responders only to operations where and when they can be successful, and under conditions where important values at risk are protected with the least exposure necessary.</p> <p>2. Hold existing control lines and maintain structure protection where threats exist. Aggressively suppress fire that escapes or threatens to escape control lines.</p> <p>3. Mop-up only to the extent necessary to prevent escape or protect values at risk.</p> <p>4. Coordinate with Resource Advisors to refine and implement plans for suppression repair.</p>			
General Situational Awareness:			
<p>Follow COVID mitigation measures such as social distancing, maintaining module of one separation, wearing face coverings, and practicing good personal hygiene. At the first sign of cough or flu like symptoms, isolate yourself and call medical for further instructions.</p> <p>Maintain situational awareness. Ensure complacency doesn't set in as you complete daily operational tasks.</p>			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

6. Control Operations/Work Assignments:

Task: Continue suppression damage repair as identified in the suppression repair priority plan.
Purpose: Suppression damage does not leave lasting impacts on natural resources.
End State: Repair control features to near natural conditions.

7. Special Instructions:

- Start repair work in Division Bravo
- Continue highway 139 corridor repair work
- Scout umbrella area to H13 for any additional repair work
- Continue repair work on county dozer lines east and west of County Road 256
- Perform radio checks before engaging in work
- Stage Lower Valley ambulance at division discretion
- Continue repair work in East Salt Creek.
- Gas and oil pipelines outside current closure area are active now. Pay close attention performing rehab and repair activities around or near pipelines.

- Tactical channel 12 is primary. Tactical channel 14 is secondary.

- **Lower Valley Ambulance staged at DP 25 or at Branch/Division discretion.**

IWI IC Responsibilities:

- Take charge of the scene – inform the Division Supervisor and Communications that you are the IWI IC and establish radio communications (frequencies, channels). Identify the emergency name – (Ex. Division A medical, Fish Meadows medical, Highway 21 accident.)
- Assign or begin patient assessment Medical Incident Report (MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to Communications.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.
- As appropriate, conduct an After Action Review to determine successes, areas to improve and lessons learned.

Daily COVID-19 Reminder

- It is mandatory to communicate your daily COVID self-check to your supervisor
- Crews and Engines may make one submission if all personnel in crew or on engine answer NO to all questions and have a temperature less than 100. Self-monitor all day and if you have any symptoms, call medical and isolate until further directed.
- If you cannot socially distance, please wear your masks while you are inside a building on the incident. If you are outside and not socially distanced, please wear your mask.
- Check with your home unit and state as soon as possible to make sure you know what is expected of you before your return. There are free COVID tests Tuesday- Saturday 0800-1500 at the Mesa County Fairgrounds/grandstands.
- Questions please contact:
COVID Coordinator at 970-718-2510

- **Scan the QR code (on following page) or use the link to register for your COVID-19 test (ignore any request for insurance information, the test is free).**
- **A family unit/pod/module/crew that has traveled together can travel to the test site with masks on in the same vehicle.**
- **The test site is located at the fairgrounds and is inside the grandstands.**
- **The test site is open Tuesdays-Saturdays from 0800 to 1500.**

Before Your Test

REGISTER FOR YOUR TEST (Choose A or B)

Account #
12928

A PRE-REGISTER (NOTE: This option is encouraged to **REDUCE** wait time.)
Step 1: Visit <https://tinyurl.com/gjcoff-12928>. Or scan this QR code with your smartphone. **Step 2:** Complete the registration form. **Note:** Double check the spelling of your name and your date of birth. This information must be exactly correct to receive your results. **Step 3:** Upon completing the form you will receive an email with your registration number beginning with MX. *Show this number to the site attendant in order to proceed with your test.*

B REGISTER-ON-SITE (NOTE: This option will **INCREASE** your wait time.)
Step 1: Provide a copy of your ID with Name, Date of Birth, and address to the site attendant. Additional information including phone number, email, etc. **will be required.**
Step 2: The site attendant will complete the registration site form on-site.

After Your Test

If you have not received your test results within four days of collection, please call MAKO.

NOTE: Please do not call the lab unless four full days have passed.

How to Access Your Results

(Results available after four days.)

Text: **“MAKO” to 66349**
or visit <https://mako.luminatehealth.com>

If you have problems accessing your results, for fastest service please submit a support ticket via the website: <https://mako.luminatehealth.com/common/signup>

Results will be available after **FOUR DAYS**.

Antes de su prueba

REGÍSTRESE PARA SU PRUEBA (Elija A o B)

Cuenta N.º
12928

A **REGISTRO PREVIO** (NOTA: Se recomienda esta opción para **REDUCIR** el tiempo de espera.) **Paso 1:** Visite <https://tinyurl.com/gjcoff-12928>. O escanee este código QR con su teléfono celular. **Paso 2:** Complete su formulario de registro. Nota: Revise dos veces la ortografía de su nombre y su fecha de nacimiento. Esta información debe ser exacta y correcta para que reciba sus resultados. **Paso 3:** Tras completar el formulario, recibirá un correo electrónico con su número de registro que comienza con MX. *Muestre este número al asistente del lugar para continuar con su prueba.*

B **REGISTRO EN LÍNEA** (NOTA: Esta opción **AUMENTARÁ** su tiempo de espera.) **Paso 1:** Proporcione una copia de su identificación con nombre, fecha de nacimiento y dirección al asistente del lugar. **Se le solicitará** información adicional, incluido su número de teléfono, correo electrónico, etc. **Paso 2:** El asistente del lugar completará el formulario de registro en el lugar.

Después de su prueba

Si no recibió los resultados de la prueba en los cuatro días posteriores a la toma, llame a MAKO.

NOTA: No llame al laboratorio a menos que hayan pasado cuatro días completos.

Cómo acceder a sus resultados

(Resultados disponibles después de cuatro días.)

Envíe por mensaje de texto: **“MAKO” al 66349** o visite <https://mako.luminatehealth.com>

Si tiene problemas para acceder a sus resultados, para un servicio más rápido, genere un recibo de soporte a través de la página web:

<https://mako.luminatehealth.com/common/signup>

Los resultados estarán disponibles después de **CUATRO DÍAS**.

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever?
Chills?
Muscle pain outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
<i>* Take temperature with no-touch thermometer, if available *</i>

Instructions for Screening

Item	What to Do
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed.	DO NOT MOBILIZE
At Entries: Consider adequate number of personnel needed for screening. Although medical personnel are ideal, screeners do not have to be medically trained. If resource has cough, shortness of breath or difficulty breathing, or any other listed symptoms including fever (over 100.4) at entry.	DO NOT ANNOUNCE Ask individual to step aside and follow the steps below.

Steps to follow

- Escort symptomatic individual to isolation area.
- Isolation support personnel should begin documentation.
- Have symptomatic individual contact Supervisor for further direction.
- Notify public health officials.
- Have individual transported as appropriate.
- Protect and secure any collected Personal Identifiable Information (PII) or Personal Health Information (PHI).

Major Hazards & Risks:	Driving, Oil & Gas, Steep Slopes & Covid 19
<u>COVID-19</u>.....<i>Follow all identified precautions and mitigations!</i>	
<ol style="list-style-type: none"> 1. <i>Social distancing-6 foot minimum when possible-AVOID Gaggling up-remind others</i> 2. <i>Face coverings worn in enclosed spaces and when less than 6 foot from others not in “module of one”</i> 3. <i>Regular sanitizing/disinfecting, hand washing, and daily self-checks for symptoms</i> 	
<u>Driving Hazards:</u>	<u>Mitigations:</u>
Other vehicles.....	<i>Drive defensively, anticipate others, reduce speed, limit distractions</i>
Narrow roads.....	<i>Drive defensively, anticipate others, reduce speed</i>
Dusty/smokey roads.....	<i>Space out convoys, reduce speed or stop in safe area</i>
Muddy roads.....	<i>Scout prior to committing, wait out for drier roads or avoid</i>
Fatigue leading to loss of awareness.....	<i>Ample rest (8 hrs off), take breaks, have conversations, roll windows down</i>
<u>Oil and Gas Hazards:</u>	<u>Mitigations:</u>
Toxic or explosive gases (H ₂ S, methane, etc.).....	<i>Avoid areas with these hazards if possible, use a multi-gas monitor when available, stay upwind and upslope, ensure that anyone feeling ill evacuates the area, pass up information on un-marked infrastructure and leaks.</i>
Pipelines.....	<i>Don't drive over, scout out for above ground lines, acquire intel where lines may located, take extra precaution with vehicles and especially heavy equipment in these areas</i>
Random O/G Infrastructure.....	<i>Assume it could be hazardous, park at least 100 foot away when possible, avoid loitering in these areas, use a O/G liaison for questions and cooperation with industry reps. Don't use as safety zones and never use “produced water” for suppression.</i>
<u>Steep Slopes:</u>	<u>Mitigations:</u>
Rocks, unstable soil, falls.....	<i>Avoid if possible, create spacing between workers, implement a system for calling out falling rocks or other uphill hazards, advise a slow and steady approach</i>
Ultimately, decisions in the fire environment should be based on the benefit or purpose of that action being outweighed by the risk of implementing that decision.	
See IRPG Page 28, for more information on Oil and Gas Safety	

UPPER COLORADO RIVER IMT3 TEAM FINANCE

Email: 2020.pinegulch.finance@firenet.gov

Time Reporting – Crew Time Reports and Equipment Shift Tickets

SUBMIT ALL DOCUMENTATION ELECTRONICALLY TO FINANCE:

1. Use QR code below to automatically create email to be sent directly to Finance

2. As an alternative to using the QR code, you can also send emails of photos, scans or pdf files of CTR and Equipment Shift Tickets to email: 2020.pinegulch.finance@firenet.gov with Resource Order number and *TIME* on Subject line

Tips:

- When emailing documentation to Finance, always include your Resource Order number on the Subject line.
- Include the word *TIME* (including the asterisks) in the subject line is required to help our Finance staff better organize and manage your paperwork
 - Example: SUBJ: O-9999 *TIME*
- When sending pictures or scans, be sure the signature portion is included
- Remember your Finance 100 training:
 - Write legibly
 - Include Resource Order #
 - Add total work hours (this reminds your supervisor to provide additional documentation as needed)
 - Ensure all signatures are on documents before emailing to Finance
- Contractors who would like an interim payment submitted for processing can email 2020.pinegulch.finance@firenet.gov and include your name and phone number so we may contact you for additional information

REMOTE FINANCE DEMOB

REMEMBER: All documentation must be submitted electronically to finance, and last CTR should include cell phone number and email address.

2020.pinegulch.finance@firenet.gov

Subject: reference your Resource Order number, name and Demob.

Tips:

- At least 48 hours prior to your scheduled demob date, submit any missing CTRs and/or STs and let Finance know the date you will be demobing.
- When your final work time has been signed by your supervisor, submit with start travel time or travel CTR/ST to Finance with request for draft final OF-288.
- Time recorder will email a draft for your review.
- **Please be patient with Finance during the Demob process. You may travel without your travel documents or you can wait until the final is ready. However, you will not be compensated for waiting to receive your final pay documents.**

Please scan this QR code to initiate your Finance Demob request.

Finance Phone List

Demob Tips

Pine Gulch Fire CO-GRD-000307

Note: If you have cell phone coverage you will not physically need to come to demob.

After
being
notified

For emergency or urgent demobs contact your supervisor first and then contact the Demob Unit directly at 2020.pinegulch.dmob@firenet.gov or (936) 488-1231.

and by your supervisor of your tentative release date:

Step 1. Return all supplies, radios, etc. that were checked out.

Step 2. Submit final time documents electronically to Finance using the QR code below.

Remember to provide a valid email address. Finance staff will post your time, let you review a draft, and send your final time documents to you, all electronically. Do Not leave the incident without your final OF-288 or OF-286.

TRAINEES: Contact the Incident Training Specialist at (850) 556-8613 prior to demobing.

Step 3. All vehicles that have been on the fireline must go through the weed wash (located at the ICP) prior to completing demob.

AFTER steps 1-3 are completed:

Step 4. Complete Demob Checkout Sheet using QR code. Once you submit the Demob Checkout Sheet you are released from the incident and may begin travel home. You do not need to physically come to demob. Safe travels!

Pine Gulch Repair Standards

Hand Lines:

1. Obliterate any berms.
2. Construct water bars at roughly 30 to 45-degree angles perpendicular to hand line
3. Water bar spacing:
 - < 15 percent slope (degrees) space at roughly 100 ft. apart
 - 15-30% slope space at roughly 50 ft. apart
 - > 30 percent slope space at roughly 25 ft. apart.
4. Hand line water bars should be 6-8" deep.
5. Adequately drain water bars away from line.

Heavy Equipment Lines:

1. Coordinate reclamation work with READ
2. Re-establish natural grade and remove berms
3. Construct water bars at roughly 30 to 45-degree angles perpendicular to dozer line to facilitate drainage
4. Construct water bars a minimum of 12" deep with 18"-24" berm
5. Down slope end of water bars is open and has adequate length to prevent runoff from reentering the control line.
6. Locate and construct water bars based on site specific conditions
7. Pull trees, rocks and other debris to sit perpendicular to slope across dozer line, where feasible
8. Remove and place line construction debris from stream channels to prevent soil movement into water resources.
9. Reinforce water bars with native materials where necessary.

Recreational Trails and Routes:

1. Where used as hand line, rehabilitate the trail/route tread to the original width as recommended by the READ.
2. When appropriate camouflage fire lines with rocks, limbs and other natural debris over a natural sightline distance from hand line crossing.
3. Remove hazards (e.g., snags/limbs, flush cut stumps and unstable rocks or logs) from along recreational trails (and recreation sites) if and when conditions allow.
4. Scatter excess accumulations of cut limbs and logs in natural patterns (irregular) along recreational routes.

Roads:

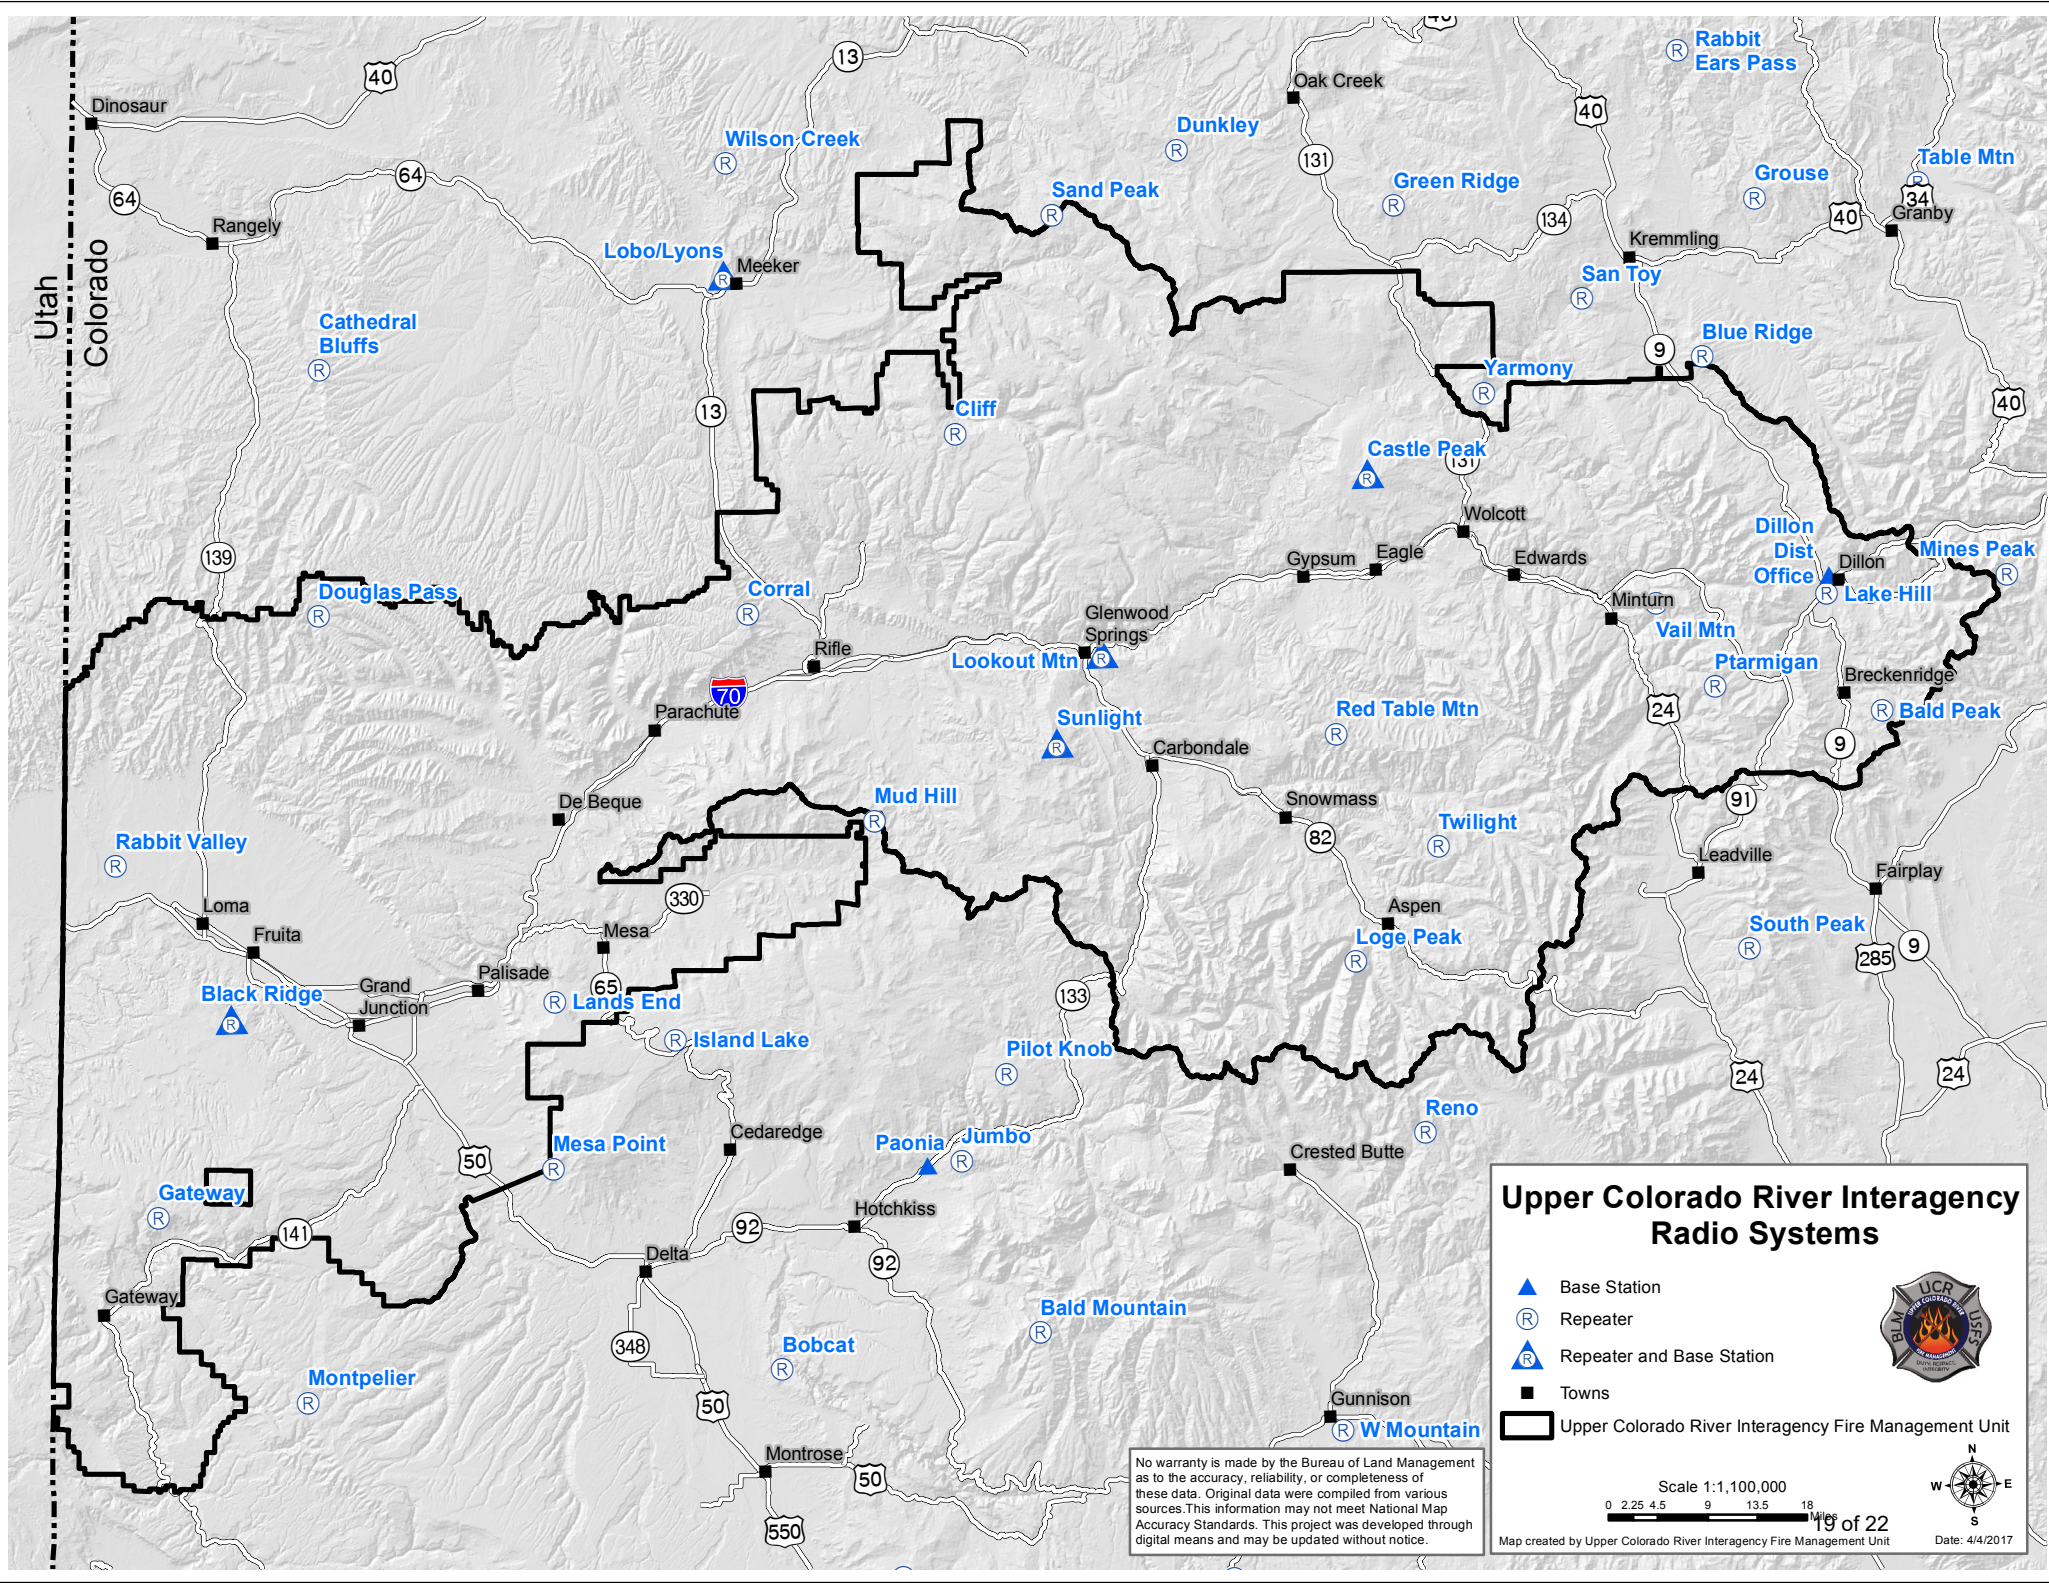

Conduct the following work in yellow to retain site specific knowledge from Division crews.

1. Repair (or blade) any roads, culverts, or drainage structures, and ditch lines that have been impacted by suppression activities.
2. Remove suppression debris 50 feet from ditch lines and culvert inlets.

Repair and restore drainage crossings where suppression activities have impact possible flow.

Stream crossing/ Riparian

1. Drafting and dip sites will be rehabilitated to natural conditions
2. Stream and drainage crossing will have natural flow patterns restored

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. <i>(WGS84)</i>
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extraction

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
