**3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:**

1. **Aviation:** Ask first: Is this mission necessary? Is using aviation resources the best and safest way to accomplish the mission? Review IRPG Pages 62,74, and 76.
  
2. **Situational Awareness:** Know where you are. Flag access and evacuation routes and safety zones, and make them known. Label flagging. There are local residents in the area and many pedestrians. Be heads up.
  
3. **Medical:** Review the 8 line, available in the IAP and on Page 118 of the IRPG.
  
4. **Human Factors:** Evaluate the abilities and expirience of your resources. Not everyone is well-rested, has the same fireline expirience, or fitness levels. Review IRPG pages x/xi.
  
5. **Risk Managment:** The risk management process is ongoing. Be sure to review IRPG page 1.
  
6. **Night Operations:** When working at night, be sure to use overhead lights, headlamps, and be aware of snags and other overhead hazards, as well as uneven terrain.
