1.Incident Name:   2.Operational Period: DAY		INCIDENT OBJECTI	VES (ICS 202)	
08/28/2023 2100 TUE	1. Incident Name:	2. Operational Period:	DAY	
3. Objective(s):  OBJECTIVES FOR FIREFIGHTER AND PUBLIC SAFETY Safety of Firefighters and the public will be the highest priority throughout all phases of the incident. Manage the risk to fire fighters and the public by ullizing a risk-based approach to decision making. Ensure quality tradeoff conversations occur with Agency Administrators, partners, and stakeholdors.  OBJECTIVES FOR PROTECTION OF VALUES AT RISK Utilize appropriate fire strategies to minimize fire impacts to critical community infrastructure, private lands and improvements to reduce the potential for adverse health, social, financial, and economic hardships. These include:  - Private lands and infrastructure within the Weminuche Creek and East Fork San Juan River drainages - Powerlines and gas utility lines serving these communities - Smoke impacts to local communities and US Highway 160 - Natural resources, cultural and historic sites and recreationists and opportunities within the planning area - Observe fire progression in relation to M.A.P.S. provided in the long term management strategy, take action as neccessary  OBJECTIVES FOR INFORMATION AND RELATIONSHIPS Maintain and enhance relationships with cooperators, stakeholders, the local community and adjoining agencies through effective, honest, and timely communication, engagement, and information sharing. Implement strategies that minimize the impact of smoke to sensitive areas and receptors by adjusting tactics, monitoring smoke impacts, and following guidance in state smoke management plans and coordinating with state and local Air Quality Control Commission.  4. Operational Period Command Emphasis:  COMMAND EMPHASIS:  1. Manage risk to firefighters by ensuring hazards are included in this incident Action Plan;	QUARTZ RIDGE / BEAR CREEK	Date/Time From:	*	Date/Time To:
OBJECTIVES FOR FIREFIGHTER AND PUBLIC SAFETY Safety of Firefighters and the public will be the highest priority throughout all phases of the incident. Spot Forecast for **Quartz Ridge**...CO-SJF National Weather Service Grand Junction CO

#### .DISCUSSION...

Drier air continues to move in from the north but enough moisture will remain over the San Juans to allow a few showers and thunderstorms to form near the wildfire. Chances are low but as there's still a chance, they will remain in the forecast. Similar conditions expected Wednesday. The big concern will be gusty outflow winds from any convection that does form. Monsoonal moisture with increased showers and storms may return Thursday onwards.

#### .TUESDAY . . .

Sky/weather......Partly sunny (50-60 percent). Chance of showers and thunderstorms.

Max temperature....68-73.

Min humidity......25-35 percent.

Wind (20 ft)......West through northwest winds 8 to 12 mph. Gusty and erratic winds expected near thunderstorms.

Haines Index.....5 or moderate.

LAL....4.

Transport winds....Northwest 10 mph.

#### .TUESDAY NIGHT...

Sky/weather.....Partly cloudy (20-30 percent).

Min temperature....44-49.

Max humidity......77-82 percent.

Wind (20 ft).....Becoming downslope/downvalley 3 to 6 mph.

Haines Index.....4 or low.

LAL....1.

Transport winds.....Southwest 10 mph.

#### . WEDNESDAY . . .

Sky/weather......Sunny (10-20 percent) then becoming partly sunny (50-60 percent) Chance of showers and thunderstorms in the afternoon.

Max temperature....69-74.

Min humidity......30-40 percent.

Wind (20 ft)......Southwest winds 10 to 14 mph. Gusty and erratic winds expected

near thunderstorms in the afternoon.

Haines Index.....5 or moderate.

LAL.....1 until 1200, then 4.

Transport winds.....West 10 mph.

#### .FORECAST DAYS 3 THROUGH 5...

#### . THURSDAY . . .

Partly cloudy. Chance of showers and thunderstorms. Lows around 50. Highs in the lower 70s. Southwest winds 10 mph.

.FRIDAY...Partly cloudy. Chance of showers and thunderstorms. Lows in the upper 40s. Highs in the upper 60s. Southwest winds 10 mph.

.SATURDAY...Mostly cloudy. Chance of showers and thunderstorms. Lows in the upper 40s. Highs in the upper 60s. Southwest winds 10 mph.

Spot Forecast for **Bear Creek**...CO-SJF National Weather Service Grand Junction CO

#### .DISCUSSION...

Drier air continues to move in from the north but enough moisture will remain over the San Juans to allow a few showers, maybe a few thunderstorms, to form near the wildfire. Chances are low but as there's still a chance, they will remain in the forecast. Similar conditions expected Wednesday. The big concern will be gusty outflow winds from any convection that does form.

#### .TUESDAY . . .

Sky/weather......Mostly sunny (40-50 percent). Slight chance of showers and thunderstorms.

Max temperature....71-76.

Min humidity.....21-26 percent.

Wind (20 ft)......Southwest winds 8 to 12 mph. Gusty and erratic winds expected near thunderstorms.

Haines Index..... 5 or moderate.

LAL....3.

Transport winds.....Northwest 10 mph.

#### .TUESDAY NIGHT...

Sky/weather......Mostly clear (15-25 percent).

Min temperature....47-52.

Max humidity......72-77 percent.

Wind (20 ft)......Downslope/downvalley winds 3 to 6 mph.

Haines Index.....4 or low.

LAL....1.

Transport winds.....West 10 mph.

#### .WEDNESDAY . . .

Sky/weather.....Sunny (10-20 percent) then becoming partly sunny (50-60 percent). Chance of showers and thunderstorms in the afternoon.

Max temperature.....72-77.

Min humidity......26-31 percent.

Wind (20 ft).....Southwest winds 10 mph. Gusty and erratic winds expected near thunderstorms in the afternoon.

Haines Index.....5 or moderate.

LAL.....1 until 1200, then 4.

Transport winds....West 10 mph.

#### .FORECAST DAYS 4 THROUGH 5...

#### . THURSDAY . . .

Partly cloudy. Chance of showers and thunderstorms. Lows in the lower 50s. Highs in the mid 70s. West winds 10 mph.

#### .FRIDAY . . .

Mostly cloudy. Showers likely and chance of thunderstorms. Lows in the lower 50s. Highs in the lower 70s. West winds 10 mph.

FIRE BEHAVIOR FORECAST							
FORECAST NUMBER	18	TYPE OF FIRE	Wildfire				
FIRE NAME	Quartz Ridge, Bear Creek	OPERATIONAL PERIOD	08/29/2023				
DATE ISSUED	08/28/2023	TIME ISSUED	18:00				
UNIT	CO-SJF	SIGNED	Cary Newman THSP				

#### **INPUTS**

#### **WEATHER SUMMARY:**

High pressure is to the southwest of us with a northwest flow ushering in drier air. There is still enough residual moisture circulating around in the high for convection to develop. Today will be much like yesterday with partial cloud cover and a chance for an isolated thundershower over the higher terrain in the afternoon. Temperatures will be seasonal with highs in the 70s and relative humidities will drop into the mid 20% range on the fires. Winds will be west to northwest less than 15 mph with strong gusts possible near any thunderstorms. Overnight humidity recoveries will be good.

#### **FUELS SUMMARY:**

Fuels in the fire area are composed primarily of timber with understory (mixed conifers with heavy litter and aspen stands). Heavy fuel concentrations of standing snags and large down dead are common in timbered areas. It is likely for fire to spread in concentrations of surface dead and down fuels which is promoting torching and spotting into receptive surface fuel beds. Aspen stands are currently retarding fire spread. Live surface fuels of grasses and forbs and brush are not promoting spread.

#### **OUTPUTS**

#### **FIRE BEHAVIOR**

#### General:

Both fires have received scant moisture (< 1/10<sup>th</sup> inch) over the last 48 hours and overnight humidity recoveries have been good. Fire activity will depend on how much sunshine fuels get over the course of the day. Fuels that have held heat in heavy concentrations of dead and down fuels have continued to smolder and spread minimally. With continued drier conditions and sunshine expect that these remaining pockets of heat may flare up producing visible smoke columns and isolated single and group tree torching. Spot fires my become established in fuels that have dried due to sunshine. Spread may become moderate in areas of closed timber but will continue to be retarded in aspen and areas of open timber with live surface fuels. Short crown runs are possible on steep slopes with heavy timber.

#### Specific:

#### Quartz Ridge

Infrared images from the Multi-Mission Aircraft (MMA) on 8/27 showed some pockets of heat on the south side of the fire on the east side of Quartz Creek. These pockets are in heavy timber and could flare up causing torching, spotting and possibly a short crown run up towards scabby fuels higher up the slope. MMA also showed a heat pocket on the west side of Quartz Creek north of where the fire crossed the creek on 8/21. This pocket could also flare up but it is unlikely that spread could continue to the east as there is a meadow on the east side of the creek

#### Bear Creek

There may be a few pockets of heat remaining on the Bear Creek fire on the ridge between Bear Creek and Shaw Creek that may flare up but ridgetop winds out of the west/northwest would tend to blow any embers from torching trees back into the burn.

#### **SAFETY**

Situational Awareness is a continuous process that is best accomplished with group input. Invariably others will recognize factors that you may overlook, and communication will be key. Use all your available tools to gather information to increase yours and your crews' awareness.

## Division/Group Assignment List (ICS 204 WF) Controlled Unclassified Information//Basic

1. Incident Name: Branch: **QUARTZ RIDGE / BEAR CREEK** Division/Group 2. Operational Period: E (QUARTZ RIDGE) Date/Time From: Date/Time To: 08/29/2023 0700 08/29/2023 2100 TUE 4. Control Operations/Work Assignments: Task Continue to assess and identify mitigation needs to protect the values at risk within the East Fork Ranch. Assess fire behavior & track progress towards MAPs taking actions as indicated. **Purpose** To minimize threat to values within strategic action area. **End State** Proposed strategic control lines are secured and the fire no longer threatens values at risk or fire line personnel and public safety. TASK: Construct shaded fuel break along FS 684 between East Fork Ranch and Quartz Meadow. PURPOSE: Reduce ladder fuels and concentrated heavy fuels to reduce chances of torching and spotting. END STATE: Continuous shaded fuel along FS 684 north from Quartz Meadow. 7. Special Instructions: Contact OSC if READ need arises. Operate UTVs carefully when shuttling crews and continue to monitor road conditions for ingress/egress. Be aware of public vehicle traffic road ways. Please ensure all resources have current Comm plan from 8-28. Division/Group Communication Summary 8. #### SAFETY MESSAGE

V

Firefighter safety comes first on every fire, every time.

#### **MAJOR HAZARDS**

**Overhead Hazards** — Snags and widow makers are a priority hazard. Review in the IRPG. **Increased Recreational Traffic**- Utv traffic is heavy on dirt roads. Drive Defensively! Hunting season is opening soon, so be aware of people, pack animals, etc off the roads. **Weather-** Remain vigilant of changing weather conditions.

- Ensure your replacement resources get a thorough briefing. Take the time to set them up for success.
- The communications plan is changing. Make sure your radios are cloned and the new comm. plan is reviewed.
- With the change to sleeping accommodations, make sure your vehicles and personal items are secured.
- When felling trees please review Procedural Felling Operations in the IRPG.
- As this incident continues to evolve, make sure to manage fatigue. Hydrate, eat, and insure that you are getting enough rest. Pace yourself and take rest breaks as needed!
- Remember your physical and mental health is most important. Take care of each other as well as yourself.

Thank you personally for all of your efforts keeping this incident safe! Tom Lubas, Safety 307-299-6645

## **Incident Finance Information**

#### QR Code for all Finance Forms/Information

The QR Code which is on the main IAP page has a link to helpful finance pages. These include:

- Electronic CTRs for Bear Creek, Mosca, and Quartz Ridge Fires
- USFS Only Excess Lodging Memo (to be included with your voucher when submitted if your lodging is over 150% per diem rate).

#### **CTRs and Shift Tickets:**

Scan and email SIGNED shift tickets and CTRs to:

2023.quartzridge.finance@firenet.gov

**NOTE:** If you only take a photo of your CTR or Shift Ticket, PLEASE make sure that it is legible. All phones do have a scanning app, I can show you how if you would like.

- 1) Does your shift ticket or CTR include:
  - a. Your name? The date? The fire you were working on? Your incident supervisor's signature (wet or electronic)?
  - b. Justification for excess hours and/or hazard/environmental pay?
  - c. Start and stop mileage and hours of work time (Shift Tickets)?

#### **Incident Information:**
