## **SAFETY MESSAGE**

*Maintain Situational Awareness at all times...*

### **MAJOR HAZARDS**

**Overhead Hazards** – Snags and widow makers are a priority hazard. Review in the IRPG.

**Traffic & Roads- Drive defensively!** UTV traffic is heavy. Hunting season is open. Watch speed on washboard roads. Be aware of people, pack animals, etc off the roads. Remain alert for road construction.

**Fatigue-** This one's a marathon not a sprint! Don't lose focus on the overall mission. Mental fatigue can contribute to poor decision making. Take the time to rest yourself both **PHYSICALLY and MENTALLY!**

- Inspect your vehicle before heading to the line as well as right before you reach the pavement. Tires, signals, lights. Check your duals for rocks!
- The weather is trending cooler with some possible showers. Be prepared for changes in temperature and road conditions.
- Drink plenty of fluids. Dehydration and overexertion can occur regardless of temperature.
- Be heads up for hunters and target shooters. Archery season is open. Remain alert for target shooting towards roads around camps.
- Remember **your physical AND mental health is most important.** Take some time to decompress and relax when returning home. You've earned it!

Thank you for all of your efforts keeping this incident safe!
