Fire Weather Forecast

FORECAST NO: 16

PREDICTION FOR: Tuesday

SHIFT DATE: 9/19/2023

FORECAST ISSUED: 1700 9/18/2023

INCIDENT: Bear Creek

UNIT: San Juan National Forest

Incident Meteorologist: Jon Pelton/(T) Ty Vaughn

<u>Weather Discussion</u>: A passing disturbance will lead to increasing clouds today, with scattered showers and isolated thunderstorms mainly this afternoon. Chances for showers and storms diminish this evening with drier air arriving late tonight and Wednesday. As a series of disturbances work across the western U.S. this will lead to gusty winds from mid to late week. Wind gusts should peak Thu and Fri. Additional scattered showers and storms are anticipated late Wed night and Thu. Warmer and drier weather is expected this weekend, with gusts gradually decreasing.

Proper Use of Trigger Points

Accurate situation awareness (SA) requires a constant reassessment of conditions (existing and potential) that may impact the safety and effectiveness of tactics. Monitor for the 18 Watch Out Situations and establish trigger points (in the form of operational or environmental limits) ahead of time.

Remember, trigger points are not decision-makers but serve as predetermined cues to prompt you to re-evaluate the current and potential situation and its associated risks. They help you to determine and implement the proper course of action.

The following items are considerations in your planning and discussion.

- Use trigger points for preplanning. Do not wait until you are in the wrong place at the wrong time – with no time.
- Trigger points should be based on measurable factors such as:
 - Relative Humidity (RH).
 - Winds.
 - Fire behavior.
 - o Topographical boundaries.
 - Time constraints/time of day.
 - Time/distance to safety zones.
 - Loss of suppression resources.
 - o Other operational considerations (e.g., firefighter fatigue, loss of lookouts or communication, weather change).
- As you approach predetermined trigger points, go through the Risk Management Process to help you decide if a change in tactics is required:
 - Identify hazards.
 - Assess hazards.
 - o Develop controls and make risk decisions.
 - o Implement controls.
 - Supervise and evaluate.
- Consider the following command/leadership responsibilities when changing tactics:
 - Communicate the changes to your subordinates, as well as to adjacent forces and up the chain of command.
 - Account for all your people.
 - Make sure everyone knows and follows the new plan.

In addition to the QR Codes: If someone can't scan the QR codes, they can go to the inciweb site https://inciweb.wildfire.gov/

Have you received an Evaluation? Please turn in or email your evaluations to 2023.quartzridge.plans@firenet.gov

Evaluation forms can be found on the LinkTree QR Code.

Incident Finance Information

QR Code for all Finance Forms/Information

The QR Code which is on the main IAP page has a link to helpful finance pages. These include:

- Electronic CTRs for Bear Creek and Quartz Ridge Fires
- USFS Only Excess Lodging Memo (to be included with your voucher when submitted if your lodging is over 150% per diem rate).

CTRs and Shift Tickets:

Scan and email SIGNED shift tickets and CTRs to:

2023.quartzridge.finance@firenet.gov

NOTE: If you only take a photo of your CTR or Shift Ticket, PLEASE make sure that it is legible. All phones do have a scanning app, I can show you how if you would like.

- 1) Does your shift ticket or CTR include:
 - a. Your name? The date? The fire you were working on? Your incident supervisor's signature (wet or electronic)?
 - b. Justification for excess hours and/or hazard/environmental pay?
 - c. Start and stop mileage and hours of work time (Shift Tickets)?
