

SAINT CHARLES FIRE

CO-PSF-001717 – P2 QP9D (0212)

THURSDAY, OCTOBER 26, 2023

Day Operational Period 0700 – 2100

Night Operational Period 1800 – 0800

Rocky Mountain CIMT1

Dan Dallas, IC

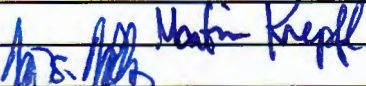

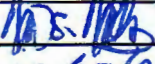

Phil Daniels, Deputy

PUBLIC FIRE INFORMATION: 970.628.0130

DAY OPERATIONAL PERIOD BRIEFING: 929.336.2435 Mtg ID: 141496128#

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: DAY	
SAINT CHARLES		Date/Time From: 10/26/2023 0700 THU	Date/Time To: 10/26/2023 2130 THU
3. Objective(s):			
Objectives for Firefighters and Public Safety			
<ul style="list-style-type: none"> • Reduce risk to incident personnel and the public through a strategic risk management process and risk analysis in which values are identified and prioritized and includes conversations on tradeoffs with Agency Administrators, partners, and stakeholders. Take into consideration consequences of a low probability weather event that may lead to a long duration fire. • Minimize the spread of infectious diseases by following CDC guidance and following good personal hygiene practices. 			
Objectives for Protection of Values at Risk			
<ul style="list-style-type: none"> • Utilize a full suppression strategy to minimize negative impacts to values at risk including the communities of Aspen Acres, Lake Isabel, Pine Hill Estates, Popes Snowslide Valley Estates, the Boy Scout Camp, Lake Isabel Work Center and the associated infrastructure that it serves, private structures and homes, powerline infrastructure, and cultural resources. • Protect natural resources including Mexican Spotted Owl habitat in St. Charles drainage by limiting fire intensities that would kill the overstory. • Coordinate with READs on suppression planning to avoid potentially damaging suppression activities to natural and cultural resources. • Mop-up to the extent necessary to lessen the likelihood of escape. Ensure Agency Administrators are involved in discussions when this will occur. • Utilize cost containment principles by managing costs commensurate with values at risk. • Utilize "light hand" suppression tactics on private property to minimize surface disturbances and erosion. 			
Objectives for Information and Relationships			
<ul style="list-style-type: none"> • Provide timely and accurate information to Agency Administrators, cooperators, stakeholders, the public, County Sheriff's Office/Emergency Operations, and the media. • Maintain and enhance relationships with Pueblo and Custer Counties, elected officials, stakeholders, cooperators, and local communities. 			
4. Operational Period Command Emphasis:			
<ul style="list-style-type: none"> • Manage risk to firefighters by ensuring hazards are identified, assessed, and mitigated, where possible. Ensure this risk is communicated. Be prepared to accept residual risk when values threatened warrant it and the probability of achieving objectives is high. • Utilize strategies and tactics that commit responders only to the operations where and when they can be successful, and under conditions where important values at risk are protected with the least exposure necessary. • Coordinate and communicate with residents, local cooperators, stakeholders, and media regarding the fire situation using media, press releases, social media, and personal contacts. • Manage human resources assigned to the fire in a manner that promotes a positive and harassment-free work environment. A "no tolerance" policy is expected for harassment, alcohol, or illegal drug use. 			
General Situational Awareness:			
<ul style="list-style-type: none"> • Maintain good situation awareness while working in steep rugged terrain and areas of snags. • Identify escape routes and safety zones and ensure good communication is maintained. • Make sure you know who you are working for with the transfer of command.

Spot Forecast for St Charles Fire...

USFS National Weather Service Pueblo CO 341 PM MDT Wed Oct 25 2023

Critical fire weather conditions are expected near the burn site tomorrow afternoon, with a Red Flag Warning going into effect for Pueblo County at 11 AM tomorrow morning. Westerly winds gusting up to 35 mph and relative humidity values falling into the mid-teens are likely for most of tomorrow afternoon and into tomorrow evening.

A big change of weather pattern is expected beginning with the passage of a cold front on Friday. Cooler and wetter weather moves in for the weekend, with cooler weather sticking around into next week as well.

.THURSDAY...

Sky/weather	Sunny.
LAL	1.
Max temperature	61-63F.
Min humidity	15-21 percent.
Wind (20 ft)	West winds 18-22 mph.
Mixing height	5500 ft agl.
Transport winds	West around 29 mph.
Smoke dispersal	Poor until 1100, then fair until 1300, then very good.
Haines Index	4 or low potential for large plume dominated fire growth.

.THURSDAY NIGHT...

Sky/weather	Mostly clear.
LAL	1.
Min temperature	33-36F.
Max humidity	70-75 percent.
Wind (20 ft)	West winds 16-20 mph with gusts to around 36 mph until 2400, then southwest around 9 mph.
Mixing height	1000 ft agl.
Transport winds	West around 14 mph until 0200, then south.
Smoke dispersal	Fair until 1900, then poor.
Haines Index	4 or low potential for large plume dominated fire growth.

.FRIDAY...

Sky/weather	Sunny.
LAL	1.
Max temperature	51F.
Min humidity	36-41 percent.
Wind (20 ft)	Southeast 12-16 mph.
Mixing height	2500 ft agl.
Transport winds	South around 15 mph.
Smoke dispersal	Poor
Haines Index	2 or very low potential for large plume dominated fire growth.

FORECAST DAYS 3 THROUGH 7...

.SAT	Partly cloudy. Lows in the upper 30s. Highs in the upper 40s. Southwest winds around 17 mph.
.SUN	Much colder. Mostly cloudy with chance of showers and snow showers. Lows around 20. Highs in the lower 20s. East winds around 12 mph.
.MON	Not as cool. Partly cloudy. Slight chance of snow showers. Lows around 16. Highs in the mid 30s. South winds around 8 mph.
.TUE	Mostly clear. Lows in the lower 20s. Highs in the lower 40s.
.WED	Warmer. Mostly clear. Lows in the mid 20s. Highs in the lower 50s.

Fire Behavior Forecast # 01

Name of Incident: Saint Charles

Administrative Unit: CO-PSF

Date & Time Issued: 10/25/2023 2000

Operational Period: Day – October 26, 2023

FBAN Glen Lewis

Signed: *Glen Lewis*

Weather Summary

See attached weather forecast for details

Fuels and Topography Summary

Fuels in the fire area are primarily composed of *Timber with Understory* (Mixed Conifers with litter and scattered shrubs), *and Grass with Shrubs* (perennial grasses mixed with brush). Fuel loading is mostly moderate with numerous rocky outcroppings. Steep slopes and drainages occur throughout the fire area, with flat ridgetops occurring immediately North of the fire. These areas have more open fuels. Most other ridgetops in the area are more narrow and generally have the similar timber fuels as the surrounding slopes.

Fire area topography includes steep slopes, and multiple deep drainages with all aspects represented. Elevations in the immediate fire area range from approximately 8,000 to over 9,000 feet.

Local fire danger indices have been and continue to trend above average for this time of year and are near the 90th percentile. Live fuels such as grass and shrubs (oak) have experienced seasonal drying but have also experienced a hard frost, making them available to burn.

Watch for significant topographic influences that can alter weather and fire behavior on a fine scale on this fire.

Fire Behavior Summary

GENERAL:

Critical fire weather today will result in an increase in potential fire behavior. Live fuels--particularly oakbrush and grass, will carry fire under today's higher windspeeds as the humidity begins to drop around 1200 hours. Timber litter and fine fuels are holding some moisture on steep northern slopes in the understory. Expect an extended active burn period today that lasts into the evening hours. Spotting probability is slightly lower today but potential spotting distance will be increased

Higher winds in the exposed areas will increase the probability of torching, group torching and the associated ember lofting that will start spot fires under the current conditions. The stronger winds today can result in crown fire runs, which will be heavily influenced by topographic alignment and further lofting distances.

Along the Northeast and East edge of the fire, anticipate additional fire activity where mop up has not been completed or where spotty fire spread occurred even when no smoke was apparent yesterday.

Safety

Remember One of the Common Denominators of Fire Behavior on Tragedy Fires: "On relatively small fires or deceptively quiet areas of large fires. In some cases, the fire was in the mop-up stage"

SAINT CHARLES FINANCE PROCEDURES

Finance Email: 2023.saintcharles.finance@firenet.gov

Finance Hotline: 720-693-1869

We are requesting that you submit your documents **ELECTRONICALLY**.

(If you are completing CTRs/Shift Tickets on paper, you can take a picture, save it as a PDF and then email it.)

ALL RESOURCES – When emailing, **please include your RO# in the subject line** and on all documents. Provide a contact phone number in your email.

ADD DOCUMENTATION TO YOUR CTR/ST IN THE "REMARKS" BOX – not just in your email.

At **check-in** submit the following:

- Resource Order
- Manifest/Roster
- Cooperator agreement or contract
(w/ correct resource highlighted)
- AD Casual Hire Form
- Vehicle Inspection Form

Daily submit the following:

- CTRs
- Shift Tickets

Ensure all CTR/Shift Tickets are signed and dated.

For easy document submission, scan the QR codes.

Overhead & Crews:

Use TIME in subject line of email
or QR code below

Contractors & Cooperators:

Use PROC in subject line of email
or QR code below

Demobing soon? We will need the below documents to process your OF-288/286.

At **DEMOB** submit the following:

- Final CTR/Shift Tickets w/ projected travel times
- Release Vehicle Inspection Form

All documents can be EMAILED for a faster, virtual demob process!

Thank you from your Friendly Finance Section! We appreciate your help in keeping your records accurate!

PUBLIC INFORMATION

There are multiple ways for the public to access Saint Charles fire information or to speak with an information officer regarding fire activity and status.

Phone: 970-628-0130 8am-8pm

Facebook: www.facebook.com/SaintCharlesFire

Email: 2023.saintcharles@firenet.gov

If a member of the public or media stops you and asks questions, please feel free to direct them to the information office. However, the public loves speaking to you. Here are some general talking points.

- The fire is predominantly in Pueblo County but is also in a small area of Custer County in the San Isabel area.
- The fire, started by a lightning strike is a holdover from September 25. Often times, lightning can ignite a fire in the duff, a tree or the roots of a tree but not be visible until conditions become right and reignite the affected vegetation.
- The fire remains active and Red Flag weather conditions will exist from 11am to 7pm tomorrow.
- Both Custer and Pueblo County have enacted Stage 1 fire restrictions, and there is a Fire Area Closure in place.

We would love your **photos of the Saint Charles Fire.**

Please send to the Saint Charles Fire email account

at: 2023.saintcharles@firenet.gov

Incident:

Saint Charles Fire

Date:

10/26-27/2023

Operational Period:

Day & Night Shift

SAFETY MESSAGE

Fire fighter safety comes first on every fire, every time

Transition Day: Go Slow to Go Fast

Regardless of fire behavior or activities, transition is a likely time for things to slip through the cracks! Know who you are working for and establish good communication with them for accountability. If you don't know something, **ASK**. If you have helpful information pass it on. Remember that an obvious hazard to you may be unknown to others, unless YOU communicate it!!!

- There are new division supervisors, do you know who you are working for?
- Do you have an updated map? (No changes to Divisions)
- Do you know what command and tactical channels you are using?
- Do you know what to do in case of a medical emergency? (See the ICS 206)

Aviation:

- There are dead and fire weakened trees throughout the burn area. Ensure you and your crew are out of the drop area and above the drop vs. below.
- Perform a risk assessment before requesting aviation to evaluate the risk vs. benefit. Don't transfer the risk if there is no benefit.

Driving:

- Windshield time is your highest risk on this incident. Time will be spent in communities with school zones and on I-25 and State Hwy 165 to access the fire and then dusty dirt roads or dozer lines on the fire. Limit your distractions and expect the unexpected around every corner. There are deer, deer and more deer, along with the public as there are no mandatory evacuated areas.

THE TAKEAWAY MESSAGES HERE ARE ...

Know who you are working for, how to communicate to them and always maintain accountability. Communicate your concerns upward.

Safety Officers: David Vitwar, Damon McRae, Lehi Vizcaino & Ryan Romero

LOGISTICS MESSAGE

Services for 10/26 & 10/27

ICP

Fuel	Use local gas stations for fuel, oil, fluids
Food & Lodging	All Responders are on per diem – no meals provided
Ground Support	0600 – 2130 Large Parking Area at ICP
Mechanic / Tow	None on site – use normal procedures for breakdowns
Supply	0600 – 2130 Large Parking Area at ICP

WORK CENTER

Fuel	Drip Torch and Mark III fuel <u>only</u>
Lunches	Will be available
RV Antifreeze	Supply on site
Supply	Some supply items will be staged
Water & Gatorade	Will be available

FIREFIGHTER HEALTH LINE

LINEA DE SALUD DEL BOMBERO

Team Ordering/Timeline Process:

1400- Last call for change in dinner deliver locations. Submit to the Food Unit Leader via 213 or through communications.

1600 - DIVS to have next day's resource order ready for Planning OPS.

- All crew level orders will be placed through *DIVS* or Branch.
- *DIVS* or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

Definitions

FOB-Forward Operating Base is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

Line Spike Camp-Managed by Operations at the *DIVS* level; mobile, short duration and self- sufficient.

Spike Camp-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

Emergency Medevac- Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's. Communications to clear command channel radio traffic.

Medical Transport-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report																													
<p>FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.</p> <p>FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.</p>																													
<p>Use the following items to communicate situation to communications/dispatch.</p>																													
<p>1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i></p> <p>2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i></p>																													
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o - 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o - 3^o burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>																												
Nature of Injury or Illness & Mechanism of Injury			<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>																										
Transport Request	<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>																												
Patient Location	<i>Descriptive Location & Lat. / Long. (WGS84)</i>																												
Incident Name	<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>																												
On-Scene Incident Commander	<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>																												
Patient Care	<i>Name of Care Provider (Ex: EMT Smith)</i>																												
<p>3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)</p> <p>Patient Assessment: See IRPG page 106</p> <p>Treatment:</p>																													
<p>4. TRANSPORT PLAN:</p> <p>Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:</p> <p>Helispot / Extraction Site Size and Hazards:</p>																													
<p>5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:</p> <p><i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i></p>
