## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b>		<b>2. Operational Period:</b> DAY	
SAINT CHARLES		Date/Time From: 10/27/2023 0700 FRI	Date/Time To: 10/27/2023 2100 FRI
<b>3. Objective(s):</b>			
Objectives for Firefighters and Public Safety			
<ul style="list-style-type: none"> <li>• Reduce risk to incident personnel and the public through a strategic risk management process and risk analysis in which values are identified and prioritized and includes conversations on tradeoffs with Agency Administrators, partners, and stakeholders. Take into consideration consequences of a low probability weather event that may lead to a long duration fire.</li> <li>• Minimize the spread of infectious diseases by following CDC guidance and following good personal hygiene practices.</li> </ul>			
Objectives for Protection of Values at Risk			
<ul style="list-style-type: none"> <li>• Utilize a full suppression strategy to minimize negative impacts to values at risk including the communities of Aspen Acres, Lake Isabel, Pine Hill Estates, Popes Snowslide Valley Estates, the Boy Scout Camp, Lake Isabel Work Center and the associated infrastructure that it serves, private structures and homes, powerline infrastructure, and cultural resources.</li> <li>• Protect natural resources including Mexican Spotted Owl habitat in St. Charles drainage by limiting fire intensities that would kill the overstory.</li> <li>• Coordinate with READs on suppression planning to avoid potentially damaging suppression activities to natural and cultural resources.</li> <li>• Mop-up to the extent necessary to lessen the likelihood of escape. Ensure Agency Administrators are involved in discussions when this will occur.</li> <li>• Utilize cost containment principles by managing costs commensurate with values at risk.</li> <li>• Utilize "light hand" suppression tactics on private property to minimize surface disturbances and erosion.</li> </ul>			
Objectives for Information and Relationships			
<ul style="list-style-type: none"> <li>• Provide timely and accurate information to Agency Administrators, cooperators, stakeholders, the public, County Sheriff's Office/Emergency Operations, and the media.</li> <li>• Maintain and enhance relationships with Pueblo and Custer Counties, elected officials, stakeholders, cooperators, and local communities.</li> </ul>			
<b>4. Operational Period Command Emphasis:</b>			
<ul style="list-style-type: none"> <li>• Manage risk to firefighters by ensuring hazards are identified, assessed, and mitigated, where possible. Ensure this risk is communicated. Be prepared to accept residual risk when values threatened warrant it and the probability of achieving objectives is high.</li> <li>• Utilize strategies and tactics that commit responders only to the operations where and when they can be successful, and under conditions where important values at risk are protected with the least exposure necessary.</li> <li>• Coordinate and communicate with residents, local cooperators, stakeholders, and media regarding the fire situation using media, press releases, social media, and personal contacts.</li> <li>• Manage human resources assigned to the fire in a manner that promotes a positive and harassment-free work environment. A "no tolerance" policy is expected for harassment, alcohol, or illegal drug use.</li> </ul>			
<b>General Situational Awareness:</b>			
<ul style="list-style-type: none"> <li>• Maintain good situation awareness while working in steep rugged terrain and areas of snags.</li> <li>• Identify escape routes and safety zones and ensure good communication is maintained.</li> <li>• Make sure you know who you are working for with the transfer of command.</li> </ul>

FINAL

## Fire Weather Forecast for Saint Charles...444 PM MDT Thu Oct 26 2023

Today's highs will be about 10-15 degrees cooler than yesterday, with afternoons highs in the mid-low 50s. Overnight lows the next several nights will be in the mid-30s tonight. Starting Saturday night into Sunday, expect overnight lows to bottom out in the mid-low teens, with Sunday's highs not being much warmer than that. Temperatures slowly start to rebound after Sunday, but the cool air will remain in place through most of next week. After very good to excellent recovery last night, Relative humidity will be substantially higher today than the last several days.

Today's winds will be from the SSW, gusting to roughly 25 mph. Meanwhile, the lower elevations to the east will see more east-southeasterly winds gusting around 15 mph. This wind regime will continue on Saturday, though gusts may be a bit lower. Sunday's winds will mostly be from the east around 10-15 mph.

**Precipitation potential:** Friday will be dry, with chances for showers not increasing until Saturday morning. Saturday will see the chance of an isolated shower or two, but the chances are still pretty low (~10%). More widespread precipitation chances begin Saturday evening, with scattered to widespread showers increasing through at least Sunday afternoon. **CWR tops out around 50% on Sunday.** Snow is currently forecasted to **fall over the burn site starting in the very early hours of Sunday around 0100 hours** and last through Sunday evening. Current accumulation is forecasted at 3-6 inches, with the higher amounts over the higher slopes. Those numbers could change slightly, depending on the positioning and timing of the front as it moves across the area.

Precipitation wanes across the area into Monday morning, where we get cool and dry conditions into the start of next week.

### FRIDAY

Sky/weather Mostly sunny (35 percent).  
 Max temperature 50F.  
 Min humidity 33-38 percent.  
 Wind (20 ft) light and variable until 0900, then southeast 10-14 mph.  
 Mixing Height 2500 ft. agl.  
 Transport winds South around 14 mph.  
 Smoke dispersal Poor until 1300, then fair until 1500, then Poor.

**SATURDAY** Partly cloudy. Lows in the mid 30s. Highs in the lower 50s. Southwest winds around 10 mph.

**SUNDAY** Much colder. Mostly cloudy with snow showers likely and slight chance of showers. Lows around 15. Highs in the lower 20s. East winds around 9 mph.

**MONDAY** Not as cool. Partly cloudy. Chance of snow showers. Lows around 15. Highs in the upper 30s. Light winds.

**TUESDAY** Mostly clear. Lows around 20. Highs in the upper 30s.

**WEDNESDAY** Warmer. Mostly clear. Lows in the mid 20s. Highs around 50.

**Fire Behavior Forecast # 02**

<b>Name of Incident:</b> Saint Charles	<b>Administrative Unit:</b> CO-PSF
<b>Date &amp; Time Issued:</b> 10/26/2023 2000	<b>Operational Period:</b> Day – October 27, 2023
<b>FBAN Glen Lewis</b>	<b>Signed:</b> <i>Glen Lewis</i>

**Weather Summary**

**\*\*See attached weather forecast for details\*\***

**Fuels and Topography Summary**

Fuels in the fire area are primarily composed of *Timber with Understory* (Mixed Conifers with litter and scattered shrubs), *and Grass with Shrubs* (perennial grasses mixed with brush). Fuel loading is mostly moderate with numerous rocky outcroppings. Steep slopes and drainages occur throughout the fire area, with flat ridgetops occurring immediately North of the fire. These areas have more open fuels. Most other ridgetops in the area are more narrow and generally have the similar timber fuels as the surrounding slopes.

Fire area topography includes steep slopes, and multiple deep drainages with all aspects represented. Elevations in the immediate fire area range from approximately 8,000 to over 9,000 feet.

Local fire danger indices have been and continue to trend above average for this time of year and are near the 90<sup>th</sup> percentile. Live fuels such as grass and shrubs (oak) have experienced seasonal drying but have also experienced a hard frost, making them available to burn.

*Watch for significant topographic influences that can alter weather and fire behavior on a fine scale on this fire.*

**Fire Behavior Summary**

**GENERAL:**

The higher humidity and lower wind speeds today will substantially reduce potential rates of spread today as compared to yesterday and will reduce spotting distance as well. Significantly lower temperatures will reduce the probability of ignition. Live fuels--particularly oakbrush and grass, will still carry fire under today's conditions but will need to be in alignment for significant spread rates. Timber litter and fine fuels are holding some moisture on steep northern slopes in the understory and can be expected to slow fire spread. Expect a relatively short active burn period today that begins mid afternoon

ERC's are continuing to fall but are still above average for this time of year and indicate that even with the more moderate conditions forecast for today, fire behavior is likely to be above what would be expected in more average years. However the fire has been primarily confined to surface fuels with limited torching and short crown runs due to higher foliar moistures. This can be expected to continue today and into the near future.

**Safety**

Remember One of the Common Denominators of Fire Behavior on Tragedy Fires: "On relatively small fires or deceptively quiet areas of large fires. In some cases, the fire was in the mop-up stage"

## CHECK-IN AND DEMOB TIPS

### CHECK-IN

Submit the electronic check-in form using the QR code on front of IAP and selecting **Incident Check In** from the menu.

Email the following items to [2023.saintcharles.checkin@firenet.gov](mailto:2023.saintcharles.checkin@firenet.gov)

- Red card/fire card
- Manifest (Crews)

### DEMOB

FOR EMERGENCY OR URGENT DEMOBS CONTACT YOUR SUPERVISOR FIRST AND THEN CONTACT THE DEMOB UNIT DIRECTLY AT 720.584.8887

If you need a flight, please email [2023.saintcharles.demob@firenet.gov](mailto:2023.saintcharles.demob@firenet.gov) 72 hours in advance or call 720.584.8887

After being notified by your supervisor of your tentative release date:

Step 1. Return all supplies, radios, etc. that were checked out.

Step 2. Release Inspection is required for all private contract equipment resources (i.e. Engines, Water Tenders, Heavy Equipment, Transports, etc.)

Step 3. Submit final time documents electronically to Finance per directions in the IAP. Provide a valid email address. Finance will post your time, let you review a draft, and send your final documents to you, all electronically.

Step 4. Complete Demob Checkout Form – accessed by scanning using QR code on the IAP and selecting **Incident Demob** from the menu. Once you submit the form, you are released from the incident and may begin travel home. Safe Travels!

*Any questions about the check-in or demob process, call 720.584.8887  
or email [2023.saintcharles.demob@firenet.gov](mailto:2023.saintcharles.demob@firenet.gov)*

# SAINT CHARLES FINANCE PROCEDURES

Finance Email: [2023.saintcharles.finance@firenet.gov](mailto:2023.saintcharles.finance@firenet.gov)

Finance Hotline: 720-693-1869

We are requesting that you submit your documents **ELECTRONICALLY**.

(If you are completing CTRs/Shift Tickets on paper, you can take a picture, save it as a PDF and then email it.)

ALL RESOURCES – When emailing, **please include your RO# in the subject line** and on all documents. Provide a contact phone number in your email.

*ADD DOCUMENTATION TO YOUR CTR/ST IN THE "REMARKS" BOX – not just in your email.*

At **check-in** submit the following:

- Resource Order
- Manifest/Roster
- Cooperator agreement or contract  
*(w/ correct resource highlighted)*
- AD Casual Hire Form
- Vehicle Inspection Form

**Daily** submit the following:

- CTRs
- Shift Tickets

*Ensure all CTR/Shift Tickets are signed and dated.*

For easy document submission, scan the QR codes.

Overhead & Crews:

Use TIME in subject line of email  
or QR code below

Contractors & Cooperators:

Use PROC in subject line of email  
or QR code below

For questions about claims:

Use COMP in the subject line  
of email or QR code below

Demobing soon? We will need the below documents to process your OF-288/286.

At **DEMOB** submit the following:

- Final CTR/Shift Tickets w/ projected travel times
- Release Vehicle Inspection Form

All documents can be EMAILED for a faster, virtual demob process!

Thank you from your Friendly Finance Section! We appreciate your help in keeping your records accurate!

## PUBLIC INFORMATION

There are multiple ways for the public to access official Saint Charles fire information and speak with an information officer regarding fire activity.

Phone: 970-628-0130 8am-8pm

Facebook: [www.facebook.com/SaintCharlesFire](http://www.facebook.com/SaintCharlesFire)

Inciweb: <https://inciweb.nwcg.gov/incident-information/copsf-saint-charles-fire>

Email: [2023.saintcharles@firenet.gov](mailto:2023.saintcharles@firenet.gov)

Text Updates: text SaintCharlesFire to 77295; text and data rates apply

If a member of the public or media stops you and asks questions, please feel free to direct them to the information office. However, the public loves speaking to you. Here are some general talking points.

- There are no evacuations, **only** pre-evacuations that were issued on October 23 for Simson Meadows in Pueblo County; Aspen Acres, Tara J, and San Isabel area in Custer County.
- The fire, started by a lightning strike is a holdover from September 25. Often times, lightning can ignite a fire in the duff, a tree or the roots of a tree but not be visible until conditions become right and reignite the affected vegetation.
- The fire did not grow significantly during Red Flag weather conditions on Thursday the 26<sup>th</sup>. Estimated growth of 50 to 100 acres primarily from unburned islands and pockets posing no significant threats.
- Both Custer and Pueblo County have enacted Stage 1 fire restrictions, and there is a Fire Area Closure in place.

We would love your **photos of the Saint Charles Fire.**

Please send to the Saint Charles Fire email account

at: [2023.saintcharles@firenet.gov](mailto:2023.saintcharles@firenet.gov)

## HEALTH AND SAFETY MESSAGE

*Communicate – Collaborate – Coordinate – Cooperate*

**“We don’t plan on luck to be safe, we plan on good risk management and good decisions”**

**INCIDENT:** Saint Charles Fire

**DATE:** 10/27-28/2023

**SHIFT:** Day and Night

### Safety Topics

- **Driving**
- **Start Preparing for Cold Weather**
- **Model Professionalism**

### *Driving*

Driving continues to be one of the higher risk activities you are doing. There have been reports of deer being hit (by the public) almost daily, so have all in the vehicle be on the lookout. Tonight and Saturday night will be prime Halloween party nights, so be extra watchful or plan on being at your hotel early.

### *Start Preparing for Cold Weather*

Cold temperatures are in the forecast with freezing low temperatures overnight. Do you have the clothing required to keep you warm? Start preparing now to have antifreeze available or know how to drain your engine pumps. Don’t forget the portable pumps and hose laid out on your divisions.

### *Model Professionalism*

Each of us represents the Rocky Mountain Area Complex Incident Management Team 1 while you are assigned to the Saint Charles Fire. While assigned to the fire the expectation is that all resources model Duty, Integrity, and Respect. Personnel will be fit and available for duty while assigned, this includes no alcohol, illegal drug use, or controlled substance abuse.

**Your Safety Officers: David Vitwar, Damon McRae, Lehi Vizcaino, Ryan Romero & Brent Johnson**

## LOGISTICS MESSAGE

### Services for 10/27 & 10/28

#### ICP

Fuel	Use local gas stations for fuel, oil, fluids
Food & Lodging	All Responders are on per diem – no meals provided
Ground Support	0600 – 2130 Large Parking Area at ICP
Mechanic / Tow	None on site – use normal procedures for breakdowns
Supply	0600 – 2130 Large Parking Area at ICP

#### WORK CENTER

FUEL	Will NOT be available
Lunches	Will be available

---

## FIREFIGHTER HEALTH LINE

LINEA DE SALUD DEL BOMBERO

**720.693.3188**

**COVID self-tests are available at briefings and by request.**

**Autoprebas de COVID están disponibles en la sesión informativa y previa solicitud.**

**Team Ordering/Timeline Process:**

**1400- Last call for change in dinner deliver locations. Submit to the Food Unit Leader via 213 or through communications.**

**1600 - DIVS to have next day's resource order ready for Planning OPS.**

- All crew level orders will be placed through *DIVS* or Branch.
- *DIVS* or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

**Definitions**

**FOB-Forward Operating Base** is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

**Line Spike Camp**-Managed by Operations at the *DIVS* level; mobile, short duration and self- sufficient.

**Spike Camp**-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

**Emergency Medevac**- Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's. Communications to clear command channel radio traffic.

**Medical Transport**-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.

# MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report																													
<p><b>FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.</b></p> <p><b>FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.</b></p>																													
<p><b>Use the following items to communicate situation to communications/dispatch.</b></p>																													
<p><b>1. CONTACT COMMUNICATIONS / DISPATCH</b> (Verify correct frequency prior to starting report)  <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i></p> <p><b>2. INCIDENT STATUS:</b> Provide incident summary (including number of patients) and command structure.  <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i></p>																													
Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2<sup>o</sup> - 3<sup>o</sup> burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2<sup>o</sup> - 3<sup>o</sup> burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>																												
Nature of Injury or Illness & Mechanism of Injury			<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>																										
Transport Request	<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>																												
Patient Location	<i>Descriptive Location &amp; Lat. / Long. (WGS84)</i>																												
Incident Name	<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>																												
On-Scene Incident Commander	<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>																												
Patient Care	<i>Name of Care Provider (Ex: EMT Smith)</i>																												
<p><b>3. INITIAL PATIENT ASSESSMENT:</b> Complete this section for each patient as applicable (start with the most severe patient)</p> <p>Patient Assessment: See IRPG page 106</p> <p>Treatment:</p>																													
<p><b>4. TRANSPORT PLAN:</b></p> <p>Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:</p> <p>Helispot / Extraction Site Size and Hazards:</p>																													
<p><b>5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:</b></p> <p><i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i></p>																													
<p><b>6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable</b></p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 15%;">Function</th> <th style="width: 20%;">Channel Name/Number</th> <th style="width: 15%;">Receive (RX)</th> <th style="width: 15%;">Tone/NAC *</th> <th style="width: 15%;">Transmit (TX)</th> <th style="width: 20%;">Tone/NAC *</th> </tr> </thead> <tbody> <tr> <td>COMMAND</td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>AIR-TO-GRND</td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>TACTICAL</td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> </tbody> </table>						Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *	COMMAND						AIR-TO-GRND						TACTICAL
