<p>Morning Briefing: 0700 Night Briefing: 1800</p> <p>Meal Hours Breakfast: 0600-0900 Dinner: 1800-2100</p> <p>Shower Hours 0530-1200 1400-2200</p>

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <div style="text-align: center;">Elk</div>	2. Operational Period: Date From: 10/8/2024 Date To: 10/9/2024 <div style="text-align: center;">Time From: 0700 Time To: 0700</div>															
3. Objective(s): <ul style="list-style-type: none"> • Minimize risk to the public through timely planning and implementation of evacuations, and area and road closures as the fire situation warrants. • Develop and implement a strategic plan that ensures the risk to firefighters and incident personnel is commensurate with the threat to critical values. • Prevent negative impacts to municipal watersheds in Big Goose and Tongue River drainages and associated infrastructure through a combination of direct, indirect, and point protection strategies and tactics. • Minimize impacts to communities, subdivisions, and primary and secondary structures using a combination of point protection, direct, and indirect strategies and tactics. • Prevent additional loss of private grazing assets by minimizing fire spread as conditions allow. • Enhance and maintain relationships by effectively addressing the needs/concerns local landowners, residents, and communities in a timely manner and minimizing our impact to the local area when possible. • Provide timely and accurate information to all agencies, media outlets, cooperators, public, and stakeholders. 																
4. Operational Period Command Emphasis: <p>Ensure timely and effective evacuations as needed by effective communications with the Sheriff's Office.</p> <p>Continue to emphasize protection of critical values at risk.</p> <p>Evaluate Resource needs for all operational periods to ensure adequate work/rest mitigations.</p> <p>Continue to share known intel with new supervisors and other responders.</p>																
General Situational Awareness <p>Ensure LCES, especially as conditions change.</p>																
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> <div style="float: right;">Site Safety Plan Not Applicable</div> <p>Approved Site Safety Plan(s) Located at:</p>																
6. Incident Action Plan (the items checked below are included in this Incident Action Plan): <table style="width: 100%; border: none;"> <tr> <td style="width: 33%;"><input checked="" type="checkbox"/> ICS 203</td> <td style="width: 33%;"><input type="checkbox"/> ICS 207</td> <td style="width: 34%;">Other Attachments:</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 204</td> <td><input checked="" type="checkbox"/> ICS 208</td> <td><input checked="" type="checkbox"/> Fire Behavior Forecast</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 205</td> <td><input checked="" type="checkbox"/> Map/Chart</td> <td><input checked="" type="checkbox"/> ICS 220</td> </tr> <tr> <td><input type="checkbox"/> ICS 205A</td> <td><input checked="" type="checkbox"/> Weather Forecast/Tides/Currents</td> <td><input checked="" type="checkbox"/> Finance Message / Training Message</td> </tr> <tr> <td><input checked="" type="checkbox"/> ICS 206</td> <td></td> <td><input checked="" type="checkbox"/> Line Supply Order / Saw Parts Request</td> </tr> </table>		<input checked="" type="checkbox"/> ICS 203	<input type="checkbox"/> ICS 207	Other Attachments:	<input checked="" type="checkbox"/> ICS 204	<input checked="" type="checkbox"/> ICS 208	<input checked="" type="checkbox"/> Fire Behavior Forecast	<input checked="" type="checkbox"/> ICS 205	<input checked="" type="checkbox"/> Map/Chart	<input checked="" type="checkbox"/> ICS 220	<input type="checkbox"/> ICS 205A	<input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	<input checked="" type="checkbox"/> Finance Message / Training Message	<input checked="" type="checkbox"/> ICS 206		<input checked="" type="checkbox"/> Line Supply Order / Saw Parts Request

INCIDENT Weather Forecast

FORECAST NO: 5

PREDICTION FOR: Tuesday

SHIFT DATE: 10/8/23

FORECAST ISSUED: 10/7/24 at 1900 MDT

NAME OF FIRE: Elk

UNIT: Bighorn NF

SIGNED: Shawn Palmquist -Incident Meteorologist

Send Weather Observations to 218-390-9917

WEATHER DISCUSSION:

High pressure over the region will continue to bring warm and dry conditions to the fire area once again today. Winds are expected to remain light overall, with the ridges seeing winds shift around to the NW and N in the afternoon. Smoke will continue to filter into the area from fires to the west. Poor to moderate RH recoveries can be expected tonight, with thermal development possible on the mid-slopes. Southwest or terrain-driven winds will prevail overnight, with gusts to 20 mph on the ridges. Wednesday will trend warmer, with SW to terrain-driven winds on the slopes and SW to W winds on the ridges.

Today:

WEATHER: Mostly sunny. Slightly warmer.

Upper Slopes/Ridges (>7,500 ft)		Mid-slopes (5,500 to 7,500 ft)	Lower Slopes/Valleys (<5,500 ft)
Temperatures	62-68 degrees	68-74 degrees	74-81 degrees
Min RH	16-24 percent	16-23 percent	16-23 percent
Winds (20 ft)	WSW 8-16 mph, becoming NW to N 6-12 mph with gusts to 18 mph in the afternoon.	Downslope or SW 6-12 mph, becoming upslope or NNE by the afternoon.	Downslope/downvalley or SW 5-10 mph, becoming upslope or NNE by the afternoon.

MIXING HEIGHT (7,500 ft): 7,000 ft AGL **TRANSPORT:** 280° @ 15 mph **CHC LTG:** 0% **CWR:** 0%

Tonight:

WEATHER: Mostly clear.

Upper Slopes/Ridges (>7,500 ft)		Mid-slopes (5,500 to 7,500 ft)	Lower Slopes/Valleys (<5,500 ft)
Temperatures	34-40 degrees	44-54 degrees	44-54 degrees
Max RH	37-45 percent	27-37 percent	35-42 percent
Winds (20 ft)	Becoming SW 8-16 mph. Gusts up to 20 mph.	Becoming downslope or SW 6-14 mph overnight.	Becoming downslope/downvalley or SW 5-10 mph overnight. SW 7-14 mph in SW-NE oriented drainages.

Inversion: 800 ft at 1900 MDT. **CHC LTG:** 0% **CWR:** 0%

OUTLOOK FOR WEDNESDAY:

Sunny. High temperatures 70-82 degrees, 64-70 degrees ridges. RH minimums 16-23 %. Downslope or SW 6-12 mph in the morning, with SW 6-12 mph prevailing in the afternoon. WSW 8-16 mph on the ridges.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 06	TYPE OF FIRE: Wildfire
FIRE NAME: ELK	OPERATIONAL PERIOD: Day/Night, 10/08/2024
DATE ISSUED: 10/07/2024	TIME ISSUED: 1930
UNIT: WY-BHF	SIGNED: /s/ Kevin Hillard
Typed/printed: Kevin Hillard	

INPUTS

WEATHER SUMMARY: *REFER TO IMET WEATHER FORECAST FOR RESPECTIVE AREA*
Sky: Mostly Sunny – Day, Mostly Clear - Night
Maximum Temperatures: Highs 62-68 higher elevations, 74-81 lower elevations
Minimum Humidity: 16-24% higher elevations 16-23% lower elevations
Winds (20’): – WSW 8-16 turning NW gusts to 18 upper ridges, downslope 6-12 early turning upslope 6-12 in the afternoon mid and lower slopes, SW 8-16 upper ridges, downslope 6-14 mid and lower slopes overnight

OUTPUTS

FIRE BEHAVIOR

GENERAL:

There will be a slight uptick in fire behavior due to slightly warmer temperatures and slightly lower relative humidities. Areas of minimal fire activity will be more visible today. The timber fuels are dry causing them to hold heat overnight. This heat will be most active in the thermal belt and from around noon to late evening elsewhere. Unlined areas of heat in the grass fuel type will start spreading after the smoke lifts out and continue into the early evening. Crown fire activity in timber fuel types will exhibit spotting. Crown fire activity in unburned interior islands has the potential to cause spotting outside of existing control features.

Rate of Spread: Timber/Heavy Down/Dead: 8-16 Chains per hour (head fire)
 1-2 Chains per hour (backing fire)

Flame Length: Timber/Heavy Down/Dead: 7-10 Feet (head fire)
 2-3 Feet (backing fire)

Rate of Spread: Grass: 19-50 Chains per hour (head fire)
 2-3 Chains per hour (backing fire)

Flame Length: Grass: 3-6 Feet (head fire)
 1-2 Feet (backing fire)

Crown Fire Potential: Isolated and group torching. Crown runs possible where winds align with slope or on steep slopes. Crown fire spread rates 0.25-0.75 miles per hour.

Spotting Distance: 0-0.3 mi (under developed smoke columns, spotting up to 1.5 miles is possible)

Probability of Ignition: Unshaded - Day 40-70%, Night 20-40%, will be greater in the thermal belt.

Rollouts: Watch for locations where rollout is set up for and uphill run

SPECIFIC:

Divisions A, D & F – In Divisions A & D northwest winds during the burn period will cause fire spread to the southeast from late morning to early evening. Division F will see upslope winds and fire spread during the burn period with short crown fire runs probable on steep un-burned slopes. With Fire activity above the smoke layer in the timber will continue later into the evening. in Division F.

Divisions Z, P, M, K, I & H – Expect the lower elevations to be smoked in but with less smoke. In the morning fire in the timber will spread to the southeast where it is not checked up by a control feature. Fire activity in the grass will pick up as the smoke lifts out in the late morning and spread upslope. In the thermal belt, fire in both fuel types will remain somewhat active with a slight decrease in activity before sunrise.

Night Operations – As the sun sets in the early evening fire activity will decrease. Fire activity will continue to diminish as the night wears on except where the thermal belt sets up. Fire spread in the grass fuel types will become minimal but fire in timber fuel types will continue to spread slowly with isolated torching possible.

AIR OPERATIONS

Smoke conditions will produce visibilities similar to yesterday.

SAFETY

Know where the fire is and what it’s doing when you’re not working with “one foot in the black”

Work Assignments:							
Task: Mop up and secure fire edge along roads, dozer lines and handlines from Drop Point 22 to Division break at PK lane. Continue to mop up near structures. Continue to patrol from Drop Point 22 to Division M/K break.							
Purpose: Reduce the potential of fire becoming established outside the current fire perimeter in Division M/K. Limit any additional impacts to structures, grasslands and private property.							
End State: Fire perimeter in Division K/M is contained to current area. No additional impacts to private property, grasslands and values at risk are protected.

ELK FIRE FINANCE PROCEDURES

Finance email: 2024.elk.finance@firenet.gov

Finance Phone Numbers

Time (Personnel and Equipment): 208-914-1873

Comp/Claims: 208-891-6348

To complete Finance check-in, please email electronic copies of the following documents as applicable:

- Contract/Agreement/State Cooperative Agreement
- Casual Hire Form
- Resource Order
- Crew Manifest
- Travel CTRs and Shift Tickets

Time

Please email completed CTRs and/or Shift Tickets signed by immediate supervisor **every 2-3 days, after submitting travel time**. Include Resource Order Number in the subject line.

- Electronic CTRs and Shift Tickets are available through the QR code on the IAP cover.
- A **legible photo** is acceptable.
-

**** All time must include required justifications for hazard pay, compensable meal breaks, or excess hours. Don't forget name, RO# and date. Include a valid phone # and email.**

Medical

Please work directly with the **Medical Unit Leader**. The MEDL will work with Finance to ensure forms are available and completed.

Damages or Claims

Do not wait until day of demob. An electronic OF-289, *Property Loss or Damage Report*, is available through the QR Code on the IAP cover. Contact Comp/Claims (or FSC) with questions. Include witness statements, signatures and **your contact info**.

Training Message

Solve the puzzle! Don't forget to complete the "trainee check-in" on Linktree.

Today's Message: Trainees should _ _ _ _ _

Revised 5/26/2020

Team Ordering/Timeline Process:

1100 - Last call to change spike camp resource hot food location.

- All crew level orders will be placed through *DIVS* or Branch.
- *DIVS* or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

GPS Datum: NAD 83- Degrees, Decimal, Minutes (DDMM.MM)

Definitions

Line Spike Camp-Managed by Operations at the *DIVS* level; mobile, short duration and self-sufficient.
 Spike Camp-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.
 Emergency Medevac-Life threatening situation requiring immediate medical attention. Handled as per IAP med plan.
 Communications to clear command channel radio traffic.
 Medical Transport-Transport of less serious injury/illness managed by Operations Section or line Medics back to camp for evaluation and/or treatment.

Burnout vs. Stress

Stress is a feeling of emotional strain & pressure. Some causes of stress:

- *A Life Threat:* Due to an experience of death-provoking terror, horror, or helplessness.
- *A Loss Injury:* A grief injury due to the loss of cherished people, things, or parts of oneself.
- *A Moral Injury:* Due to behaviors or the witnessing of behaviors that violate moral values.
- *Cumulative Stress:* Due to the accumulation of stress from all sources over time without sufficient rest and recovery.

Burnout is a state of emotional, physical & mental exhaustion caused by excessive & prolonged stress.

Utilizing your IRPG, discuss what signs indicate stress in a person? How can you as an individual, or you as a crew, mitigate stress and prevent burnout?

Safety Officers: Alison Robb, Mark Sachara & Tedd Teahon

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency/ Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled Litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert, Keep Calm. Think Clearly. Act Decisively.
