HEALTH AND SAFETY MESSAGE

SAFETY starts with ***YOU***

We are **ALL** accountable for **SAFE** behaviors
For DAY Operations:

INCIDENT: Spring Creek

DATE: August 24, 2025

TIME: 0600

Major Hazards and Risks:

- **Mop up:** Watch for extreme fire behavior communicate hazards, scout, post lookouts- issue warnings and communicate. Watch for rolling rocks and debris. Watch footing.
- **DRIVING:** Drive defensively at all times and maintain safe vehicle separation distances. Keep head lights on and use emergency lighting where appropriate. Use spotters when backing or in tight areas. Keep stopping distance $\frac{1}{2}$ your sight distance.

When traveling home or to a new assignment, keep your gas tank close to full, wear seat belts, take breaks when you are feeling tired or yawning, stay hydrated, and watch out for unexpected hazards. Take a break every 2 to 4 hours. Do not drive more than 10 hrs. without switching drivers.

"Hey, I'm not crazy. ... Sure, I let him drive once in a while, but he's never, never off this leash for even a second."

Mop-Up

Standard: Do only what is necessary to secure fire edge! Do not go deep into the interior of the fire just looking for something to do.

Remember the Common Denominators of Tragedy Fires!

Who is beneath you when working on a steep hillside?

Corrupt Mop

THANKS, FROM YOUR SAFETY: Dick Terry

7. Help me! I've fallen and I can't get up! Review your 8-line <u>before</u> you need it. First - provide lifesaving emergency care. Next - yell for help! Turn to the IWI 8-line and follow the script. For code yellow or code red medicals, which by definition require emergency transport, call 911 by cell phone (day or night), or Cody Dispatch on Command (day), or MEDL Wayne Hare (day or night) on command or cell at 435-260-0051. Explain briefly what you've got and what transport you need. If you feel the patient needs Life Flight, ask for it. You will have to provide lat/long locations soon after contacting 911. For code green medicals, contact division who will arrange for appropriate transport. It is important for Division and MEDL H are to be notified of all medicals as soon as possible.
