### **HEALTH AND SAFETY MESSAGE**

We are **ALL** accountable for **SAFE** behaviors

INCIDENT: Florida Bugaboo DATE: 5-12-07 Op Period: Day Shift

# Major Hazards and Risks:

# **Driving, Severe Fire Behavior & Structural Protection**

Fire Order of the Day –Obtain current information on fire status

**Driving hazards** –Drive defensively at all times. Watch out for vehicles and personnel along roads. Use seat belts at all time. Traffic congestion around ICP and at intersections and evacuations. Use spotter when backing. Lights on. Remain alert for deer crossing roads.

**Severe Fire Behavior** = Maintain situational awareness. Rapid rates of spread and spotting. What is your contingency? Don't allow your escape routes to be cut off. Communicate. Know weather forecast. Clear and concise briefings.

**Structural Protection** = Firefighter safety and survival is number one priority. Down powerlines, gas tanks and traffic. Always stay mobile. Back in equipment. Identify escape routes and safety zones. Keep egress route clear. Go over guidelines on page 14 in IRPG.

**Remember the Basics** = PPE, Seatbelts, Drive slow, LCES, 10 & 18.

**Hazard Trees** = Identify, flag and mitigate by chainsaw felling or stay away. Be sure it's a hazard trees before exposing fallers to the hazard of mitigating.

#### **THINK & ACT DECISIVELY:** Remember if its Predictable, its Preventable

# Common Denominators of Fire Behavior On Tragedy Fires

- \*Most incidents happen on the smaller fires or on Isolated portions of larger fires.
- \*Most fires are innocent in appearance before the "flare-ups" or "blow-ups". In some cases, tragedies occur in the mop-up stage.
- \*Flare-ups generally occur in deceptively light fuels.
- \*Fires run uphill surprisingly fast in chimneys, gullies, chutes and on steep slopes.
- \*Some suppression tools, such as helicopters or air tankers, can adversely affect fire behavior. The blasts of air from low flying helicopters and air tankers have been known to cause flare-ups.

# SITUATIONAL AWARENESS

Work aggressively but provide for Safety First and Initiate all action based on Safety

Remain aware of the effects of weather

Ensure instructions are Given and Understood

Talk with local forces about hazards & risks

Remain in communication with crew, leader and adjoining forces

Determine Safety Zones and Escape Route

**Establish Lookouts** 

Remain in control and be **responsible** 

Stay **Alert**, Keep Calm, **Think Clearly** and Act Decisively

Incident Safety Officer: Glen Stapleton

#### Fire Weather Forecast

FORECAST NO: 4 NAME OF FIRE: Florida Bugaboo

PREDICTION FOR: Day Shift UNIT: Osceola NF

SHIFT DATE: Saturday May 12th SIGNED: Tony Edwards

TIME AND DATE

FORECAST ISSUED: 1800 Friday May 11th Incident Meteorologist

<u>WEATHER DISCUSSION:</u> A weak frontal boundary will drop closer to the fire area by late in the day. This front, combined with the westward advancing sea breeze will bring a slight chance for a thunderstorm by late in the afternoon. Otherwise, it will be another warm and dry day over the fire with light winds.

\_\_\_\_\_

#### **WEATHER FORECAST:**

**WEATHER:** Mostly sunny above the smoke in the morning, then partly cloudy. A 20% chance for a

thunderstorm after 1500.

**TEMPERATURES:** High near 90, unchanged.

**HUMIDITY:** Minimum afternoon humidity near 37%, 2 percent higher.

**20 FT WINDS:** Northeast around 5 mph, switching around to the northwest after 1700.

MIXING HEIGHT: 7200 ft.

**TRANSPORT WINDS:** North to northeast at 8 mph.

**HAINES INDEX:** 4, or low potential for large plume dominated fire growth.

**ERC:** 52 - Extreme.

OUTLOOK FOR SATURDAY NIGHT SHIFT: Partly cloudy above dense smoke. Low near 65. Max RH

100%. Northwest winds 1 to 3 mph.

**EXTENDED FORECAST:** 

Sunday: Partly cloudy with scattered thunderstorms in the afternoon and evening. High near 88 with the low

near 65. Minimum RH 43%. North to northeast winds 5 to 10 mph. Chance for wetting rains 50%.

Monday: Partly cloudy with a 20% chance for a thunderstorm. High near 84 with the low near 60. Minimum

RH 42%. Northeast winds 10 to 15 mph.

Tuesday: Mostly sunny. High near 86. Low near 58. Minimum RH 36%. East winds 5 to 10 mph.
