Florida Bugaboo Fire

Incident Action Plan Thursday May 17, 2007 Day Shift 0700-1900

	1. Incident Name		2. Date Prepared	3. Time Prepared
Incident Objectives	FLOF	RIDA BUGABOO	05/16/07	0834
4. Operational Period 05/17/07	Thursday	Day Shift 0700 - 1900		
5. General Control Objectives for the incident	(include alterna	tives)		
 Provide for the safety of fire sup general public by adhering to the work/rest guidelines and through 	Standard Fir	e Orders", "Watch-Ou	t Situations" and b	
2. Maintain and improve relationsh current information and inviting		erators including the C	GOAL organization	by providing
3. Provide for a strong commitmen	t to cost conta	inment.		
6. Weather Forecast for Period				
Be on the lookout for erratic, gust thunderstorm.	y winds and	cloud-to-ground I	ightning with a	лу
Areas of dense smoke early. Partly cl	oudv with a 3	0% chance for show	wers and thunde	rstorms. Highs
in 80-85 with minimum humidity 40-45				.
7. General Safety Message				
Keep your guard up for changing condition Think ahead and have a contigency plan. K				ess at all times.

TAILGATE BRIEFING SHEET 1 OF 2 Signature/Date
WEATHER FORECAST Tony Edwards – Incident Meteorologist
Bugaboo Incident NF in Florida/Florida Div. of Forestry Forecast #12 5/17/2007 Day
WEATHER DISCUSSION:
Relative Humidity A cold front will move over the fire area today bringing a chance for showers and thunderstorms and turning winds around to a northerly direction by afternoon. Strong high pressure will then build over the southeastern U.S. through the weekend along with an unseasonably dry airmass, which will be accompanied by breezy north to northeasterly winds
<u>WEATHER FORECAST:</u> Be on the lookout for erratic, gusty winds and cloud-to-ground lightning with any thunderstorm
GENERAL: Areas of dense smoke early. Partly cloudy with a 30% chance for showers and thunderstorms.
TEMPERATURES: Lows 80 to 85. HUMIDITY: 40-45%.24 HOUR TREND:6 degrees coolert.24 HOUR TREND:5% wetter20 FT WINDS:Northwest 3 to 6 mph in the morning, then north 4 to 8 mph in the afternoon.
STABILITY/INVERSION: Morning inversion mixing out by 0900. Mixing height rising to around 6000 ft. Transport winds northwest early becoming northerly during the afternoon with speeds around 10 mph. Dispersion index 35
OUTLOOK FOR THURDAY NIGHT SHIFT: A 20% chance for an evening shower, otherwise partly cloudy. Lows 56 to 59. Humidity recovering to between 80 and 90%. 20 ft winds from the north 4
to 8 mph.

TAILGATE BRIEFING SHEET 2 OF 2 SAFETY MESSAGE PAY ATTENTION TO THE SMALL DETAILS

PAYATTENTION TO THE SMALL DETAILS

Fire Order of the Day - Cannot see main fire, not in contact with anyone who can

*DOZER OPERATIONS – maintain good communications with other ground units and aircraft in your area. Dozers need to stay out of the swamps. DO NOT plow lines in the swamps in these extreme fire conditions. Several incidents have occurred recently where dozers have gotten stuck on high stumps with heavy fire activity in very close proximity.

*AIR OPERATIONS - maintain good communications with other ground units and aircraft in your area. Ground crews must maintain a safe distance (200' in brush or 400' in timber) during retardant drops for not only personal safety, but to allow the pilot an opportunity to do his job in a safe and effective manner. Be aware of non-incident personnel during air-ops, especially if using heavy air tankers. Use air resources as lookouts when appropriate.

*FATIGUE, DEHYDRATION -Take care of yourself by getting adequate rest and eating regularly. Drink plenty of clean water and electrolyte drinks like Gatorade (3:1 water:electrolyte ratio). Drink enough to urinate at least every 3 hours. Never drink unfiltered water from springs, streams or from an unknown source.

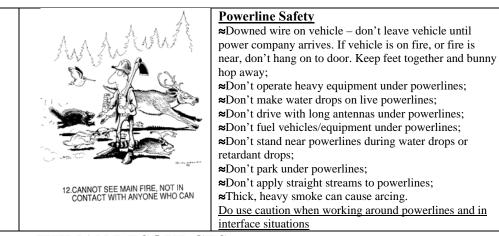

*TRANSPORTATION – WHEN TRAVELING BETWEEN INCIDENT AND ICP, lights on, use seatbelts, & obey all traffic laws. Don't allow fatigue to control your vehicle. Those of you that are driving home, please drive safely and watch out for the other vehicle. Share driving responsibilities between licensed operators. Watch out for livestock, wildlife and pedestrians. You may encounter smoke and areas being evacuated...Drive Defensively!

*STRUCTURAL PROTECTION/HAZARDOUS MATERIALS – Please read the message below and pages 11-17 of the Incident Response Pocket Guide.

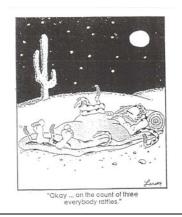

***POTENTIAL THUNDERSTORM ACTIVITY** – Watch out for development of thunderheads in the afternoon. Refer to page 75 of the Incident Response Pocket Guide.

Urban/Wildland Watch Outs

≈Wooden construction and wood shake roofs;
≈Poor access and narrow one-way roads;
≈Inadequate water supply;
≈Natural fuels 30 feet or closer to structures;
≈Extreme fire behavior;
≈Strong winds;
≈Evacuation of public (panic);
≈Bridge load limits.

HUMAN RESOURCES

"Just having fun"

The best assignment is one where you are able to accomplish your mission and have a good time in the process. We want this assignment to be a great one for you. It is okay to have some fun and good humor while you are here. Just remember, that sometimes what is funny to you may not be to those around you. Be sure you have the relationship with others to support your behavior. If you have any problems or concerns that you need help with, come see us.
