

Florida Bugaboo Fire Incident Action Plan

**May 20, 2007
Night Shift
1900-0700**

Incident Objectives	1. Incident Name FLORIDA BUGABOO	2. Date Prepared 05/20/07	3. Time Prepared 1536															
4. Operational Period 05/20/07 Sunday Night Shift 1900 - 0700																		
5. General Control Objectives for the incident (include alternatives) <ol style="list-style-type: none"> 1. Provide for the safety of fire suppression forces assigned to the Florida Bugaboo Wildfire and the general public by adhering to the "Standard Fire Orders", "Watch-Out Situations" and by following work/rest guidelines and through public awareness of risks to the community. 2. Maintain and improve relationships with Cooperators including the GOAL organization by providing current information and inviting participation. 3. Provide for a strong commitment to cost containment. 																		
6. Weather Forecast for Period Clear and cool. Temperatures 46-50. Humidity recovery to around 100%. Southeast winds 2-6 mph until 2100 then becoming calm.																		
7. General Safety Message Keep your guard up for changing conditions and react accordingly. Maintain situational awareness at all times. Think ahead and have a contingency plan. Know escape routes and safety zones. <u>ROAD CONSTRUCTION ALERT</u> The Department of Transportation has advised us that road construction is scheduled for the section of Hwy 441 between Hwy 90 and the junction with Hwy 100A beginning on Monday May 21. Traffic delays can be expected in this area beginning Monday. If you need to travel to Deep Creek, it is advisable to turn right off Hwy 90 onto Hwy 100A just past the airport (as you enter Lake city from the east) and travel Hwy 100A to Hwy 441 and then North on Hwy 441 to Deep Creek. This route will avoid the construction area. You can also access Hwy 441 from I-10 and then North to Deep Creek.

7. Control Operations							
Patrol and mop up 300' inside fire edge.							
Watch for plastic culverts that can carry fire from one side of the road to the other.							
8. Special Instructions							
Be aware of special conditions during night operations that increase hazards. Read the Safety Message and know your medical and communication instructions in case of emergencies. See the Communications Plan for radio frequencies.							
* Stage at Deep Creek VFD. Respond to IA, if necessary, also support incident.

8. Medical Emergency Procedures										
<p>Any injuries or illnesses should first be reported to Division Supervisors. Division Supervisors will notify line Safety Officer and Communications Unit with type of illness/injury and exact location. Communications will clear the air for emergency traffic only and notify Nightshift Safety Officer and EMT for advice for further care. If an air medical helicopter is used within the fire perimeter, Communications should notify the air operations director and helibase. When meeting point has been arranged with rescue or ambulance, personnel and patient need to remain at that location.</p> <p>MEDL Shanna Ellis Cell: 318-229-6515 (Day or Night)</p> <p>DIVS: For injury/illness: Please provide mechanism of injury, level of consciousness, if there is blood loss, breaths/minute (respirations) and beats/minute (pulse).</p>

DEMOBILIZATION PROCESS

THE DEMOBILIZATION PROCESS WILL BE ACCELERATED WITH THE FOLLOWING STEPS TAKING PLACE.

- 1. CHECK WITH DEMOB THREE (3) DAYS IN ADVANCE OF ANNOUNCED DATES TO MAKE CERTAIN OF ACCURACY ON DEMOB DATE.**
- 2. MAKE CERTAIN TO HAVE ALL YOUR CTR'S TURNED IN THE DAY BEFORE YOU DEMOB, THEN THE TIME UNIT WILL HAVE ONLY THE LAST SHIFT TO ENTER INTO THE SYSTEM MAKING CHECKING OUT MORE EFFICIENT AND FASTER.**
- 3. IF YOU REQUIRE A FLIGHT FOR TRAVEL TO YOUR HOME UNIT, TRAVEL ARRANGEMENTS WILL HAVE TO BE MADE AT LEAST 48 HOURS IN ADVANCE OF ACTUALLY BEING DEMOBED.**
- 4. AFTER YOUR LAST SHIFT OBTAIN AN EVALUATION FROM YOUR SUPERVISOR.**
- 5. NO PERSON SHALL BE RELEASED PRIOR TO OBTAINING ADEQUATE REST AS PROVIDED FOR BY AGENCY RULES AND POLICY. RESOURCES THAT ARE REASSIGNED WILL BE RELEASED THE MORNING AFTER THEIR LAST SHIFT. LOCAL RESOURCES RETURNING HOME WILL BE RELEASED AFTER SHIFT IF THEY CAN ARRIVE HOME BEFORE 2200.**
- 6. ON THE DAY FOR YOUR DESIGNATED DEMOB, PLEASE REPORT TO THE DEMOB UNIT IN THE ICP AND PICK UP DEMOB FORM.**
- 7. REPORT TO THE DESIGNATED UNITS AS LISTED ON THE DEMOB FORM.**
- 8. RETURN TO DEMOB WHEN YOU HAVE COMPLETED CHECKOUT AT ALL UNITS.**
- 9. IF YOU HAVE BEEN SUCCESSFUL IN BEING DEMOBED, THE INCIDENT COMMANDER AND STAFF WISH YOU A GOODBY AND TO HAVE A SAFE TRIP HOME.**

WEATHER FORECAST

Tony Edwards – Incident Meteorologist

Bugaboo Incident NF in Florida/Florida Div. of Forestry Forecast #21 5/20/2007 Night

WEATHER DISCUSSION: - High pressure to our north will bring another clear night to the fire area tonight. Temperatures will once again fall to near record cool levels with the dry airmass in place and light winds. Unseasonably dry weather will continue through Tuesday before humidity levels start to creep upward through the rest of the week.

WEATHER FORECAST:

GENERAL: Clear and Cool. Pockets of smoke over Divisions BB and CC after midnight.

TEMPERATURES: Lows 46-50 **HUMIDITY:** Recovering to around 100%
 24 HOUR TREND: 1 degree warmer. 24 HOUR TREND: Unchanged

20 FT WINDS: Southeast winds 2 to 6 mph until 2100, then becoming calm

STABILITY/INVERSION: Inversion setting up around 300 feet setting up after 2200. Transport winds from the East around 8 mph through 2100, then from the southeast less than 5 mph. Dispersion index 4.

EXTENDED FORECAST:

Monday: Sunny, warm and dry, Highs 86-89. Minimum RH 20-25%. 20ft winds variable 2 to 4 mph through noon, then becoming east to southeast 5-9 mph.

Tuesday: Partly cloudy. Lows 51-54. Highs 86-89. Minimum RH 28-33%. East winds 6 to 12 mph.

Wednesday: Partly cloudy with a 20% chance for an afternoon shower or thunderstorm. Lows 58-61. Highs 84-87. Minimum RH 34-39%. East winds 6 to 12 mph.

SUNSET TONIGHT: 2019 **SUNRISE TOMORROW:** 0633

FIRE BEHAVIOR

Rick Reitz- FBAN

Bugaboo Incident NF in Florida/Florida Div. of Forestry Forecast #21 5/20/2007 Night

GENERAL FIRE BEHAVIOR (outside fire perimeter):

Type of fire: <i>Wind-dominated surface</i>	FL – 9 ft (<2200) diminishing to 2 feet (>2100)
ROS – 62 ch/ hr (<2100) diminishing to 3 ch/hr (>2100)	SPOTTING – 0.4 (<2100) diminishing to surface fire only (>2100)
POI – 60 (<2100) diminishing to 10% (>2100)	ERC - 40 – Extreme (Consult pocket card for local fire behavior thresholds)

CROWN – *Passive when distance between surface and aerial fuel is less than 19 ft (<2100), then diminishing to a surface fire (>2100), respectively.*

SPECIFIC FIRE BEHAVIOR:

All Divisions: Interior fine fuels (1-hr) within a chain of the fire’s perimeter are becoming scarce and this scarcity reduces the probability, but not the possibility, that embers may cross the control line and find available fuel that supports fire. This probability increases as desiccated pine needles fall to surface, accumulate, and increase reburn potential. Links between surface and latter fuels are almost severed. There is the possibility that pockets of heat near available fuel may still respond to wind and low relative humidity, become active, and throw embers into wind stream. However, the probability is low that some embers may cross control line, but a possibility exists. Thick root mats, with duff, give ground fire an opportunity to retain heat over an extended time period, or interact with recently deposited pine needles, unless dug out.

Berms containing burning vegetation will need to be spread out and mopped up accordingly.

Bay laurels and cypress may support surface fire intense enough to scorch overstory, but generally will not support passive crowning (torching) of overstory trees.

AIR OPERATIONS: *Until dark, there should be no interference by fire or smoke if aircraft are needed.*

TAILGATE BRIEFING SHEET 2 OF 2

SAFETY MESSAGE

SAFETY starts with *YOU*

We are **ALL** accountable for **SAFE** behaviors

Fire Order – *Give clear instructions and insure they are understood*

Watch Out Situation – *In country not seen in daylight*

Major Hazards and Risks:

- **Driving** – Drive defensively, and watch for wildlife crossing roads at night. Obey all traffic regulations and speed limits. Maintain safe distance between vehicles and anticipate oncoming traffic. Use spotters when backing up. Evacuations have been lifted so be alert for local residents.
- **Animal Hazards** – snakes are being seen in greater numbers and are especially active at night. With the cool nighttime temperatures beware of snakes coming out onto the roadways – be alert when you step out of your vehicle and when working at night. Don't leave garbage and food scraps on the line so that animals will not be attracted and become a nuisance or a danger to personnel.
- **Fatigue/personal welfare** – Take care of yourself by getting adequate rest and eating properly. Remember to account for long term, cumulative fatigue when planning operations.
- **Complacency** – Stay vigilant and expect the unexpected. It is at this stage of the fire that people will become complacent and let their guard down. Maintain your situational awareness regardless of your assignment.

Remember that night time operations are a tactical watch out situation – maintain crew and personnel accountability!

Fatigue – monitor personnel for signs of cumulative fatigue. Research has shown that after 2300 the probability that people will lapse into sleep increases dramatically. Otherwise normally-functioning employees may suffer from short, intermittent episodes of fatigue, especially when sleep deprived. These episodes are characterized by very brief lapses in the performance of tasks during which details are missed, accuracy is impaired, and/or performance is slowed.

SAFETY IS EVERYONE'S JOB, MAKE IT YOUR PRIORITY!

HUMAN RESOURCES

Positive or negative, **YOU** make a difference!

Practice the Golden Rule:

Treat others the way you want to be treated: with **RESPECT!**

NOTE: Any form of harassment, discrimination, inappropriate or unsafe behavior, including drug or alcohol abuse, is unacceptable and will be dealt with swiftly.

On this incident, be part of the **solution**, not the problem.

Please share this message with your crews. Contact us for assistance with any human resource-related issue or concern.
