## **INCIDENT ACTION PLAN**

# Florida Bugaboo Fire

# Sunday June 10, 2007 Day Shift

**Type III Incident Management Team Steve Ripley – Incident Commander** 

1. Incident Name

Sunday

4. Operational Period – 06/10/2007

#### 5. Incident End State

Provide contaninment and control resources adequate for a nominal threat of escape. Rehab of control lines and mitigate impacts to natural and cultural resources adequate for returning management of the incident to the district. Excess supplies as well as trash will be removed from the line.

0700-1900

#### 5. Incident Objectives

- 1. Provide for safety of fire suppression forces assigned to the Florida Bugaboo Wildfire, and the general public, by adhering to LCES, work/rest guidelines, and maintaining public awareness of risks to the community.
- Maintain and improve relationships with all cooperator, adjacent landowners including GOAL organization and the affected communities, local government and emergency management officials. Involve them in the planning process, and keep them informed on all fire activities.
- 3. Provide training opportunities for State, Federal, and Local governments and cooperators in the areas of Incident Command and Fire Management.
- 4. Manage the assigned fire and any new starts delegated to the team using unified command in a manner consistent with the Florida Division of Forestry and the U. S. Forest Service fire management policies.
- 5. Provide a strong commitment to cost containment.

#### 6. Strategy

Maintain suppression resources to a level manageable by a Type III organazation that will provide continued patrol, mop up and rehab on the Florida Bugaboo Fire and support local agency needs.

#### 7. Human Resource Policy

This Type 3 Organization is committed to a "zero tolerance" policy against inappropriate behavior during incident operations. We expect an attitude of mutual respect for all Incident personnel and the public we serve. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated and will be dealt with appropriately. Illegal drug use or other illegal activities will not be tolerated and will be turned over to local law enforcement authorities. Alcohol is strictly prohibited from the fire camp and all other incident locations. Violation of these standards of conduct can result in prompt dismissal from the incident.

Individuals who are aware of any inappropriate behavior of incident personnel should tell their supervisor.

### HUMAN RESOURCE MESSAGE

"Inappropriate behavior is harassment including sexual and racial harassment and shall not be tolerated".

We expect everyone assigned to the incident to conduct themselves in a professional manner. Inappropriate actions, behaviors or comments will not be tolerated. You have the responsibility to stop inappropriate actions, behaviors or comments immediately upon becoming aware of them.

SEXUAL HARASSMENT at work, including emergency incidents, occurs whenever unwelcome conduct on the basis of gender, adversely affects a person's ability to do their job, and contributes to a hostile work environment. Sexual harassment includes, but is not limited to, the following types of conduct:

- + Unwelcome sexual advances
- **4** Requests for sexual favors
- + Discussing sexual activities
- 4 Telling off-color jokes
- Unnecessary touching
- Displaying sexually suggestive pictures
- **4** Using demeaning or inappropriate terms
- **4** Using indecent gestures
- Using crude and offensive language
- **4** Commenting on physical attributes

We must treat each other and the public with respect and professionalism. This is how we want to be treated and it is the foundation for good customer service.

"Anything less is simply unacceptable"

#### SAFETY MESSAGE June 10, 2007 0700-1900

Major I	Hazard and Risks:
	> Logging & Heavy Equipment Operations and Road Conditions
	> Rehab Safety
	> Complacency
٨	Logging salvage operations and road maintenance continues. Slow down and give these machines a wide berth when passing. Watch the road surfaces. Avoid standing water and soft shoulders. By reducing your speed—you'll be safer and not rip up the forest roads too.
~	Rehab is an important function of any fire assignment. Fire weakened trees, backing of equipment and transports, and traffic congestion, are but a few areas of concern. During your shift, identify at least one other safety concern and share it with the group during de-briefing. Lets all be safe out there.
>	Even though this fire is winding down, this is not a time for complacency. Please remain focused on your assignment and maintain your situational awareness. Everyone has done an excellent job with safety on this incident. Don't Stop Now!!

### STANDARD FIREFIGHTING ORDERS

- 1. Keep informed on fire weather conditions & forecasts
- 2. Know what your fire is doing at all times
- 3. Base all actions on current & expected behavior of the fire
- 4. Identify escape routes & safety zones, and make then known
- 5. Post lookouts when there is possible danger
- 6. Be alert. Keep calm. Think clearly. Act decisively.
- 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
- 8. Give clear instructions and insure they are understood.
- 9. Maintain control of your forces at all times.
- 10. Fight fire aggressively, having provided for safety first.

Dave Hildebrand INCIDENT SAFETY OFFICER
