7. 0	.4!											
7. Control Operations Mop-Up within 200 feet of line. Monitor condition of Road 274 for access. Snag Safety/Look-up-Look Around.												
8. Special Instructions Utilize backers when backing up. Soft spots in the sand surface roads can cause your vehicle to shift abruptly. Stay alert to changing conditions. Fuels are dry and fire danger is predicted to be extreme. Don't be suprised by the fire behavior and plan your activities based on current and predicted weather.												
9. Division/Group Communications Summary
