	Avian Complex	5/11/2018	1700

4. Operational Period 5/12/2018 0800 - 2000

5. General Control Objectives For The Incident

Objectives for the Incident:

- Ensure protection of human life as a top priority, followed by protecting communities and specifically identified facilities within the preserve.
- Manage the fire under a strategy commensurate with risk and suppression action utilizing MIST, paying particular attention to Red-Cockaded Woodpecker habitat and Florida Panther den sites.
- Provide protection to all private in-holding camps, commercial infrastructure, and limit disruption of landowner access.
- Provide initial attack response for all new starts within the Big Cypress National Preserve and Florida Panther National Wildlife Refuge through coordination with the Preserve's Duty Officer.
- Provide training opportunities for Preserve, state and federal personnel to strengthen organizational capabilities and complete training assignments.

Control Objectives:

- Provide for point source protection of private land and critical infrastructure in areas that are or will be threatened by the predicted movement of the fires within the Avian Complex.
- Limit the Flamingo fire from spreading north of the preserve boundary.
- Limit impacts to I-75, US41, Seminole Tribe of Florida and Miccosukee tribal lands.
- When possible, use fire management practices that replicate natural fire to the greatest extent.
- Coordinate with Everglades National Park on all actions needed with monitoring Curlew Fire.

6. Weather forecast for Period

Expect a pattern change to begin this weekend. Broad low pressure moving into the southeast Gulf of Mexico will increase rain chances significantly by Sunday. Warm today with increasing clouds and humidity lower than normal. Rain chances become likely along with some lightning storms on Sunday. Total weekend rain amounts by Sunday night of around 1 to 2 inches.

7. General Safety Message Look up, look down, look all around for hazards, recognize them and mitigate them. 8. Fire Weather Forecast

FORECAST NO:9NAME OF FIRE:Avian Complex FiresPREDICTION FOR:Saturday Day ShiftUNIT:Big Cypress National PreserveSHIFT DATE:May 12, 2018Incident Meteorologist:John PendergrastFORECAST ISSUED:1900 May 11, 2018240-499-6649

<u>DISCUSSION:</u> Expect a pattern change to begin this weekend. Broad low pressure moving into the southeast Gulf of Mexico will increase rain chances significantly by Sunday. Warm today with increasing clouds and humidity lower than normal. Rain chances become likely along with some lightning storms on Sunday. Total weekend rain amounts by Sunday night of around 1 to 2 inches.

SATURDAY:

WEATHER: Morning smoke then increasing clouds. Scattered showers developing in the late afternoon.
WIND (20 FT): East 6 to 11 mph with gust to 18 mph developing by midday.
MAX TEMPERATURES: 88F
MIN RH: 40%
LAL: 1 Chance measurable rain: 20%, becoming 30% in the late afternoon.
DISPERSION: 52 MAX MIXING HEIGHT: 5300 TRANSPORT WINDS: East 12 to 18 mph

TONIGHT (SATURDAY NIGHT):

WEATHER: Mostly cloudy with a chance of showers. Patchy smoke near fire areas. WIND (20 FT): East 6 to 10 mph in the evening, becoming Southeast 2 to 4 mph late MIN TEMPERATURES: 68 to 71F MAX RH: 98% to 100% LVORI 7 (max) LAL: 1 Chance measurable rain: 40%

SUNDAY:

WEATHER: Mostly cloudy with showers likely and a chance of lightning storms. Locally heavy rain possible.WIND (20 FT): Southeast 5 to 10 mph with gust to 16 mph in afternoon. Stronger gusts near storms.MAX TEMPERATURES: 85FMIN RH: 52%LAL: 3Chance measurable rain: 70%DISPERSION: 42 MAXMIXING HEIGHT: 4200TRANSPORT WINDS: Southeast to South 12 to 18 mph.

<u>GENERAL OUTLOOK MONDAY THROUGH WEDNESDAY</u>: Tropical moisture in place across the area will bring scattered to numerous showers, along with isolated thunderstorms. Shower and isolated storms with wetting rains continue each day into late week. Humidity will remain above 50 percent with daytime high temperatures in the mid 80s. Expect 20 ft wind speeds mainly below 10 mph with directions varying from the south to southeast. Sea breezes possible each day.

Current Incident area RAWS conditions Sunrise Saturday: 6:41 am EDT Sunset Saturday: 20:04 pm EDT

	FIRE BEHAVIOR FORECAST
FORECAST NUMBER: #9	TYPE OF FIRE: Wildland
FIRE NAME: Avian Complex	OPERATIONAL PERIOD: Sat 05-12-18
DATE ISSUED: Fri 05-11-18	TIME ISSUED: 1930
UNIT: Big Cypress Preserve	WRITTEN: Kelly Cagle, Fire Behavior Analyst Signed: Kelly Cagle
FUEL ASSUMPTIONS:	
	odel 7 (Southern Rough), GR6 (grass model) TU3 (pine w/grass and shrub)
	FM7 is currently the most intense. GR6 can be extremely active when influenced
	rning readily. Consider all Fuels (even green ones) to be available fuel!
Cypress Stringers and recent bur	n scars are also not retarding fire spread as well as they typically do.
Enormy Dologge Component rea	mains right at the 97 th percentile. This is a measure of how hot a fire will
	rough (timber with shrub and palmetto understory) was burning extremely
hot.	rough (innor whitshi us and painetto anderstory) was burning extremely
Todays Weather:	
Morning smoke then increasin	g clouds. Scattered showers possible in the late afternoon.
	gusts to 18 by midday. Max temp 88 Min RH 40%
	rain 20% increasing to 30% in late afternoon
	nt 5300 feet Transport Winds East 12 to 18
	Critical burning conditions again today! All factors are in place to support
0 0	y. With the exception of heavy cypress fuels, expect high intensity fire in any
pine, shrub or grass fuels. Cypres	ss prairies may not inhibit fire spread at all. Pine or shrub palmetto will be
extremely intense - even back/fl	anking fire will surprise. Spread direction will be towards the west and could be
especially aggressive in timber s	ringers.
Specific:	
	liet/Echo/Charlie will once again be active divisions. Expect continued
	ss cypress fuel prevents. Runs in timber stringers likely. Parliament fire scar
	fire spread. Cypress strands east of Turner River Road holds promise as a t a reduction in intensity. Alpha and Zulu will see some active fire as well.
•	
	pect fire to be active and continue to move west towards Turner River road, and
	perimeter of the Feb 2018 RX burn. Significant intensity possible in timber
	this fire is encompassed by a heavy cypress strand that will impede significant eping or low intensity fire is possible here.
inovement to wards the west. Cre	oping of low intensity file is possible here.
	quiet for the past 2 days. Fuels to the west are not as continuous or conducive to
	ing movement. Some activity possible with movement to the west in any timber
or available grass fuels, but majo	activity is not expected.
Initial Attack: Fuels remain ver	y dry and conducive to rapid buildup. No lightning expected, but if start did
	allenge control efforts, especially in timber or shrub palmetto fuels.
· •	
PREDICTIONS FOR MOST	ACTIVE TIME OF PEAK BURNING PERIOD
Fuel Model	Fire Behavior
Grass	ROS 25 to 45 ch/hr and 8 to 11' Flame lengths
Shrub (palmettto/southern rou	· · · · · · · · · · · · · · · · · · ·
Timber Litter w/grass	ROS 35 to 49 ch/hr and 9 to 15' Flame lengths
Spotting Distance	1/2 mile in headfire run (fire produced this yesterday)
Probability of Ignition	57 % all models
	vill likely be an issue early, but should burn off prior to mid-morning. Otherwise
-	eption of a potential rain shower late afternoon.
	Spotting distances are on the increase. In these fuels types, spots may be
	bints are hard to find. Potential exists for fire to spot over and behind
esources. Air attack can be a	<u>useful lookout.</u>

6 Contro	I Operations/Wor	k Assignments									

6. Control Operations/Work Assignments:

Task:

- Patrol and monitor fire with aviation and ground assets.
- Continue fuels reduction project on Bundschu Grade in coordination with Resource Advisor.
- Use minimal impact suppression tactics when possible and appropriate.

Purpose:

- Limit fire spread east of Bundschu Grade and north of Interstate 75.
- Minimize negative impacts to highway safety, private property and natural resources.

End State:

- Fire contained west of Bunschu Grade and south of HWY 75 with minimal impacts to natural systems.
- Timely notifications to appropriate authorities of potential visibility issues on I-75.

- Establish and maintain LCES during operational period and follow tracked vehicle requirement restrictions.
- Document work done to protect cabins by taking before and after pictures of the camp structures. Document lat/long and brief description of the actions taken on a ICS-213. Send all information to: avianfinancecomplex@gmail.com.
- Document damages to cabins or infrastructure by with photos and details on a ICS 213. Send all information to: avianfinancecomplex@gmail.com.
- If medical hoist ship is needed , request through "784" (law dispatch) on BICY CMD channel

6. Control Operations/Wo	rk Assignments:									

Task:

- Assess and prep critical infrastructure. Use strategic firing operations to secure values at risk in coordination with Branch and adjacent recourses.
- Scout and communicate potential containment opportunities.
- Provide timely communications to OPBD of potential smoke impacts to I-75.

Purpose:

• Minimize negative impacts to highway safety, infrastructure and private property and identify containment opportunities that are both efficient and have a high probability of success.

End State:

- Fire contained on defensible lines with minimal to no impact on local communities.
- Timely notifications to appropriate authorities of potential visibility issues on I-75.

- Follow tracked vehicle requirement restrictions.
- Establish and maintain LCES during operational period.
- Document work done to protect cabins by taking before and after pictures of the camp structures. Document lat/long and brief description of the actions taken on a ICS-213. Send all information to: avianfinancecomplex@gmail.com
- Document damages to cabins or infrastructure by with photos and details on a ICS 213. Send all information to: avianfinancecomplex@gmail.com
- If medical hoist ship is needed , request through "784" (law dispatch) on BICY CMD channel

6. Control Operations/Work Assignments:

Control Operations:

Task:

- Take suppression actions to keep fire south of Loop Rd, west of Redbird Lane, west Buckhalt Camp and Kirby Sorter Roadside Park
- Assess and prep critical infrastructure. Use strategic firing operations to secure values at risk in coordination with Branch and adjacent recourses.
- Coordinate suppression operation with Everglades NP to ensure protection of cultural and natural resources.
- Use minimum impacts suppression tactics during mop-up.

Purpose:

- Protect human life and minimize damage to private and public property
- Manage undesirable impacts to federal lands through the appropriate strategy and minimal impact suppression tactics.

End State:

- Protect private property and critical infrastructure within the fire perimeter.
- Minimize undesirable impacts to natural/cultural resources.

7. Special Instructions:

• If medical hoist ship is needed , request through "784" (law dispatch) on BICY CMD channel

6. Control Operations/Wor Task:	rk Assignments:						

• Provide resources for initial attack within the Big Cypress National Preserve, and the Florida Panther National Wildlife Refuge, and predesignated 1 mile mutual aid initial attack response area.

Purpose:

- Contain all new fires to the smallest extent possible while emphasizing for fire fighter safety.
- Use appropriate strategies and tactics that have the highest probability of success.

End State:

• Contain new fires within constraints directed by the BICY duty officer.

- Follow tracked vehicle requirement restrictions.
- Establish and maintain LCES during operational period.
- Normal shift 0800 2000 unless initial attack or extended staffing is required. Mitigate 2:1 as soon as possible.
- If medical hoist ship is needed , request through "784" (law dispatch) on BICY CMD channel

6. Control Operations/Work Assignments:

Task:

- Use strategic firing operations around inholdings, carefully considering the tradeoffs with letting the fire burn in a natural mosaic. **Purpose:**
- Protect all private in –holding camps, commercial infrastructure and keep disruption of landowner access to a minimum End State:
 - The fire will be managed under strategy commensurate with risk and suppression action taken with as little environmental impact as possible.

- Follow tracked vehicle requirement restrictions.
- Establish and maintain LCES during operational period.
- If medical hoist ship is needed , request through "784" (law dispatch) on BICY CMD channel
- Satellite phone: 808-851-6121

INCIDENT SAFETY ANALYSIS 215a

Avian Complex - Saturday, May 12, 2018

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All DIVS	Air Operations	 Follow " Aviation Watch-Out Situations" on page 44, IRPG. Don't plan on air resources for medical transport or resupply. Refer to page 57, IRPG for directing bucket drops. Ensure positive communication with all air resources.
All DIVS	Hazard Trees	 Follow "Hazard Tree Safety" guidelines, IRPG page 22. Post lookouts, or use a spotter in mop-up areas with personnel. Don't park vehicles or take breaks in high concentrations of hazard trees. Establish trigger points for disengagement during high wind events. Remember that the hazard zone extends a minimum of 2 1/2 tree heights. Cut within your skill/ability level
IA	Roadside Response	 Do not engage in supression activities along I-75 unless Law Enforcement establishes traffic control. Conduct all operations as far as possible from traffic lanes. Park all vehicles on the same side of road. Use only vehicles equipped emergency lights along highways. Operate pumps from the non-traffic or from the cab. Anytime traffic is affected by the incident, contact the local law enforcement agency that has juridiction for assistance.
All DIVS	Extreme Fire Behavior	 Share weather observations with all personnel assigned to division. Establish "Trigger Points" to withdraw. Use "Risk Management" process prior to engaging in suppression actions, refer to page 1, IRPG.
All DIVS	Injury & Medical Emergency	 Assist injured employee appropriate medical care. Use EMT's on Division for initial care. Follow medical protocol as outlined in ICS-206 & IRPG Pgs 99-108
All DIVS	Swamp Buggy	 Ensure equipment is inspected and safe to use. Restrict swamp buggy use to approved trails. Ensure operator is trained and certified to operate. Passengers maintain 3 points of contact when loading and unloading. Ensure operator and passengers has proper PPE according to the BICY Operations Policy.
All DIVS	Driving & Traffic	 Practice "Defensive Driving" techniques traveling on all roads and city streets. Use spotters when backing. Honk horn to alert personnel when backing. Always use headlights. Yield to pedestrians and bicycles. Observe posted speed limits. Be aware of lower speed limits at night. Use the 3 second rule for following distance when driving. Avoid distractions (eating, cell phones, radio). Ensure that windshields are kept clean of dust and bugs.
All DIVS	Structure Protection & HAZMAT	 Review "Wildland Urban Interface" Watch outs, IRPG page 12. Use "Structure Assessment" checklist, IRPG pages 12-16. Follow "HAZMAT Incident Operations" on pages 34-36 in IRPG.
All DIVS	Unburned Area/Reburn Potential	 Monitor weather. Base actions upon observed and predicted fire behavior. LCES Checklist (IRPG pg. 6). Look Up, Down and Around (IRPG pg. 2-3).

INCIDENT SAFETY ANALYSIS 215a

All DIVS	ATV/UTV use	 Ensure equipment is inspected and safe to use. Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions. Ensure operator is trained and certified to operate. Ensure operator has proper PPE according to BICY policy, hardhats are acceptable only when speeds are less than 15 mph. Question if it is mission critical.
All DIVS	Heat Related Illness (HRI)& Dehydration	 Drink Fluids throughout operational period (6-8 qts/shift). Maintain water/electrolyte ratio of 3 to 1. Carry extra water on line and cache water at drop points. Take Frequent breaks, minimum of 10 minutes every hour. Allow out of area resources time to acclimatize before expecting peak performance. Recognize symptoms of HEAT RELATED ILLNESS which include. Lack of energy Headaches, dizziness Lack of rest No hunger, poor eating habits Hot skin, and lack of sweating
All DIVS	Heavy Equipment Operations	 Ensure communications are established with operators. Use hand signals if other communications are unavailable. Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. Use a spotter when backing. Avoid working below heavy equipment.
All DIVS	Communications	 Maintain communication with aviation resources, and suppression organization. Ensure all know frequency and protocol for contacting resources. Utilize the ICS 205. Utilize human repeaters when working in dead spots.
All DIVS	Wildlife & Livestock	 Watch out for wildlife & livestock inside fire area and along roadways. Clean up all debris and trash during each operational period. Be aware of your surrounding, watch footing and dont harass the wildlife. Be on the lookout for poisonous snakes. Watch were you step and place your hands . Lookout/avoid for exoctic snakes that can be extremely large.
All DIVS	Chain Saw Operations	 Follow "Hazard Tree Safety" guidelines, IRPG page 22 Look up, Look down, Look around for hazard tree indicators. Only fell and buck trees within your expertise, and training. Follow "Procedural Felling Operations" on page 79 in IRPG. Do not fall trees during high wind events. Ensure proper use of all required PPE.
All DIVS	Firefighter & Public Smoke Exposure	 Identify homes and structures with private parties remaining behind the evacuation. Identify personnel responsible for contacting private parties. Use warning lights and provide traffic control on roadways during smoky and night operations. Rotate crews out of smoky areas during firing and mop-up operations. Contact Communications when firing operations are initiated.
All DIVS	Poisonous Plants	 Identify and Avoid hazard areas. Launder clothing. Shower frequently.
All DIVS	Unplanned Public Interaction	 Be alert to non-fire personnel in areas with suppression personnel. All non-fire personnel will be escorted while on fireline. Post lookouts to in areas with public to avoid conflicts with mission tasks. Ensure sufficient security to restrict access to exclusion area.

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Logistic Information

Fueling - Location and Hours

ICP (Dona Drive) Monument Staging Area 0700 – 0930, 1130-2030 0930 – 1130

Fueling for resources without agency or self-sufficient fueling capabilities

<u>Meals</u>

Lunch:

Sack lunches available for line personnel at ICP every morning. Pick up with ice, water and Gatorade

*Order sack lunches daily through divisions by 0830 for the next day

Dinner Information:

If any evening meals are needed they must be ordered by Division before 12:00 in order to have them available for delivery for that evening.

Training Information

Are you a Trainee assigned to this incident? Do you have an initiated Position Task Book?

If so, please come see the Incident Training Specialist (TNSP). Remember to bring your initiated Task Book and Incident Qualification Card (Red Card).

The QR Code will bring you to an on-line version of the Incident Trainee/Training Data Fore (TNSP-1) to be completed before seeing the TNSP.

Human Resource Message

The mission of the Gold Team is to safely, effectively and efficiently manage the Avian Complex by maintaining a team of skilled and productive personnel.

During this incident we will strive to successfully complete our mission and achieve our objectives while creating a positive, drug and alcohol free work environment for all assigned incident personnel.

The Gold Team fully supports EEO and will not tolerate sexual harassment or any form of discrimination!

All inappropriate behavior will be dealt with promptly. Disciplinary action and reporting back to an individual's home unit will be initiated as necessary.

Please report any incidents of inappropriate behavior to your supervisor, or myself immediately.

Steve Parrish, Incident Commander

Finance Message

- Only 1 CTR per single resource.
- CTRs with over 16 hours will need to have justification and mitigation plans provided in the remarks section. These CTRs must be signed by Section Chief.
- Meals breaks (per 8hrs) need to be shown on CTRs. Provide Justification in the remark section if no break was taken.
- Notify Finance 2 days prior to Demob day.
- Please indicate your Division and fire name in the remarks section.

email: avianfinancecomplex@gmail.com

Fire/Smoke Discussion

Saturday: Smoke will once again be present throughout the area today and this evening. Areas near wildfires may experience periods of heavier smoke impacts moving air quality into the Unhealthy for Sensitive Groups and/or unhealthy conditions. Roadways may experience smoky conditions at various times of the day depending on fire behavior. Rain showers in the area may knock down smoke levels in some locations, but smoke will remain present throughout the day. **Limit strenuous activities in smoky conditions**.

Sunday: Expected rain showers will help ease some of the smoke impacts, however it will not be enough to totally eliminate it. Smoke will be reduced, but may be closer to ground level as temperatures cool and moisture pulls it down.

Communit	Communities Sat 5/12		Sun 5/13	Mon 5/14	Comments		
Everglades City/ Chokoloskee		USG	Moderate	Good	Smoke will be heaviest early morning and before the rain showers move in. Winds may blow smoke continuously in this direction all day.		
Immokalee		Good	Good	Moderate	Smoke should be light with occasional periods of light impacts today. Shift in wind direction next week may move smoke into the area.		
Naples		Moderate	Good	Moderate	More smoke in the area could be expected today with an easterly wind component pushing smoke west.		
Marco Island		Moderate	Good	Moderate	More smoke in the area could be expected today with an easterly wind component pushing smoke west.		
Everglades NP Visitor Moderat Center (Shark Valley)		Moderate	Good	Good	Smoke will be noticeable in the area all day. An east wind may help reduce some of the impacts seen the past few days.		
Interstate 75 Moder		Moderate	Fire burns closer. Smoke should parallel		Smoke will be visible from the interstate as the Flamingo Fire burns closer. Smoke should parallel the interstate, but could stay below the cloud deck causing minor		
Highway 41 Moderate		Moderate	Good	Smoke may be heavy at times with the wind pushing towards the highway throughout the day.			
Highway 29 Moderate		Moderate	erate Moderate Smoke may be heavy at times depending on f Smoke could be impactful depending on fire weather conditions.				
Di	isclaimer: I	Forecasts may be wro	ng - use at your ow	vn risk as weather an	d fire activity can change quickly. Children, older-adults and those with		
ca		ar or respiratory dise ality Index			professional as needed.		
	-		What the Index means for your health with regards to particulates from smoke				
Good Moderate		None Air quality is acceptable; however, for some pollutants there may be a moderate health concern for a very small number of people.					
Unhealthy for Sensitive Groups		Although general public is not likely to be affected at this AQI range, older adults and children are at greater risk from the presence of particles in the air.					
Unhealthy		Everyone may begin to experience some adverse health effects, and members of the sensitive groups may experience more serious effects.					
Very Unhealthy		Health warning	Health warnings of emergency conditions. The entire population is more likely to be affected.				
Hazardous				Health alert: everyone may experience more serious health effects.
