# HEALTH AND SAFETY MESSAGE

*SAFETY* starts with *YOU*

INCIDENT: **Bills Branch Wildfire/IA**

DATE: **February 21, 2026**

TIME: **0700-2000**

## **Human Factors**

**External Distractions** – We are faced with distractions constantly just while driving during the course of a day on wildland fires. From texting, talking on cell phones, Avenza, radios, looking at maps, tablets, eating, drinking; it is amazing we don't have more accidents than we do. Discipline yourself to be stopped during these distractions. How many times have you been distracted and caught yourself heading off the road?

**Stress** – Can come in many forms and from many sources. Stresses from home, the home unit, the fire etc. This can take up a lot of brain power and drastically reduce our concentration on the job making Std, Order #6 difficult. It can keep us from being on our game. Try to reduce stress by resolving stress provoking issues before you come on assignment.

**Lack of Teamwork** – Personnel issues, feelings, and preconceived ideas about each other can kill teamwork. It is everyone's responsibility to work things out amongst each other, making the Team function properly. Working things out early can greatly affect production, safety of our resources, and the outcome of the incident.

**Fatigue** – When you are fatigued you struggle to be alert and are at risk of injury to yourself and others. A good night's sleep, drinking plenty of water and eating properly and good hygiene goes a long way to reduce fatigue and get your mind back in the game.

The **thing to remember** when looking at human factors is the fact that everyone in the workplace is indeed "only human." Thus, they are fallible. Accidents can generally be attributed to one of three actions:

- Errors and unintentional mistakes.
- Poor judgment and bad decision making.
- Disregard for procedures.

## **MY SAFETY**

An important aspect of risk management is an individual's responsibility for one's own health & safety. Even with the best supervision, each individual firefighter will occasionally be required to make personal decisions concerning their safety.

- Remain fit for duty.
- Utilize personal protective equipment.
- Follow safe work practices.
- Ensure instructions are clearly understood.
- Maintain situational awareness at all times.
