We are **ALL** accountable for **SAFE** behaviors

INCIDENT: Ocala IA/Bills Branch Wildfire	DATE: March 4, 2026	TIME: 0700-2000
--	---------------------	-----------------

Major Hazards and Risks:

Driving – speed, narrow roads, distractions.

Ticks/Insects – Utilize insect repellent (Deet>20%).

Heavy Equipment – operating within/around burn area.

Snags – fireline and roads through burn area

Fire Order of the Day – Retain control at all times

Narrative:

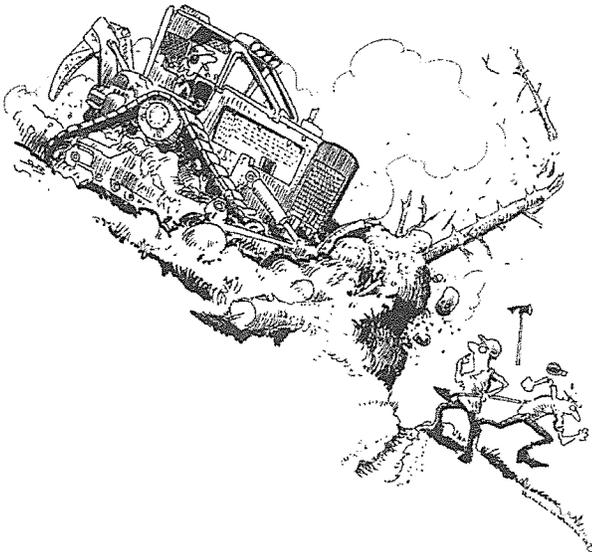

Driving – Adhere to posted speed limits and slow down as conditions dictate. Expect the unexpected around every blind curve. Slow down on washboard surfaces and increase following distance on dusty roads. It takes only a second of inattention or distraction to become involved in an accident.

Ticks/Insects – Check for ticks immediately after being in an area where ticks may be present. Report any ticks that are attached to your skin to an immediate supervisor. Ensure a CA-1 is submitted.

Heavy Equipment – Maintain clearance and ensure you have contacted the operator before approaching. Stay at least 100’ in front and 50’ behind the equipment. IRPG pg. 87

Snags – Always maintain a strong situation awareness. Identify potentially fire weakened trees, flag as hazardous. Be alert especially when the wind increases. Eliminate these hazards with qualified sawyers. Keep nonessential personnel 2 ½ tree lengths away during falling operations. IRPG pg. 20-21

Watch Out Situation of the Day

5. UNINFORMED ON STRATEGY, TACTICS AND HAZARDS

Hazardous Materials Procedures

If you encounter outbuildings, vehicles and/or homes being threatened or destroyed by fire – remember: Hazardous materials may be stored, including agricultural or industrial chemicals, explosive substances, propane and other fuel tanks, plastics, etc.

If you encounter what you may suspect may be hazardous materials, generally:

Stay upwind, uphill and avoid smoke.

Isolate the area.

Warn others in the immediate area.

Notify your supervisor of the potential problem so trained specialists can evaluate and mitigate the situation.

If not properly trained and equipped – **do not** get involved.

Remember – If you don’t know, don’t go, it may blow!!
