Upper level high pressure will dominate once again today but will begin to break down as a cold front approaches from the west tonight. Expect another very warm day with highs continuing to run well above normal. Temperatures Thursday will not be quite as warm as the front moves through during the afternoon hours. The front will be weakening as it crosses the peninsula but showers and storms, some possibly strong, and a chance of wetting rain are all still expected. Cooler and drier air will return behind the boundary before temperatures and humidity rebound briefly on Sunday in advance of yet another front.

Weather: Morning fog. Otherwise partly cloudy. Continued very warm and humid with well above average temperatures.

High Temperatures: 86 to 91 (↓ 1 to 2°) **Minimum RH:** 36 to 41% (No change)
20 foot winds: Southwest 4 to 8 mph

Finance Section – Local Employee Hours & Crew Classification Guidance

Purpose

To clarify the financial distinction between **resource-ordered crews** and **local crews**, and to ensure accurate timekeeping, payment, and cost attribution for this incident.

Resource-Ordered Crews

Definition:

Crews mobilized through the **Interagency Resource Ordering Capability (IROC)** system, typically arriving from outside the local area. These include national contract crews, Interagency Hotshot Crews, and Initial Attack crews.

Payment & Shift Expectations:

- Operate under national/regional contracts or agreements.
- **Guaranteed compensation** for contract-specified hours, even when no work is available (e.g., weather delays, standby periods).
- Payment is maintained as long as the crew remains in **active incident status** and available for assignment.

Required Documentation:

- Crew manifest
- Crew Time Reports (CTR)
- All time is processed through the Finance Section for incident cost accounting.

Local Crews (Home-Unit Employees)

Definition:

Employees or suppression modules belonging to the **local unit** (District) who are assigned to the incident.

Payment & Shift Expectations:

- Generally work **normal agency shifts** unless incident needs dictate otherwise.
- When no work is available:
 - Crews may be **released to home-unit duties**, and
 - Paid according to **standard agency pay rules**, not guaranteed hours.

Required Documentation:

- Time may be coded through home-unit systems using agency-specific codes.
- Not always processed as a distinct “ordered resource” within the incident cost structure.
- A 288 or overtime authorization is required for all overtime hours

Key Differences at a Glance

Resource-Ordered Crews:

- Paid guaranteed hours when in active status, even without work.
- Must remain available to the incident.
- Finance Section tracks all time.

Local Crews:

- No guaranteed hours; paid under normal agency rules.
- May return to regular duties when not needed on the incident.
- Time often processed through home-unit systems.
