| <b>INCIDENT OBJECTIVES</b>  | 1 INCIDENT NAME<br><b>Big Turnaround<br/>Complex - East Zone</b> | 2. DATE PREPARED<br><b>06/04/2007</b>                        | 3. TIME PREPARED<br><b>1800</b> |   |  |  |   |  |   |  |   |  |
| 4. OPERATIONAL PERIOD (DATE/TIME)<br><p style="text-align: center;"><b>June 5, 2007      0700 – 1900      OPERATIONAL PERIOD</b></p>  |  |  |                                 |   |  |  |   |  |   |  |   |  |
| 5. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES) <ol style="list-style-type: none"> <li><b>1. Ensure firefighter and public safety through adherence to all safety standards, maintaining situational awareness and appropriate implementation of evacuations, closures, and temporary flight restrictions.</b></li> <li><b>2. Protect / minimize threats / loss to private investments; key cultural features as listed in the Delegation of Authority; and protect the integrity of the Okefenokee Wilderness.</b></li> <li><b>3. Manage the fires within the swamp under a containment strategy in accordance with suppression actions outlined in the WFSA. In the East Zone, contain the fire west of the Swamp Perimeter Road in Charlton County; South and west of Hwy. 1 and the CSX Railroad line; and within the Swamp Road.</b></li> <li><b>4. Provide accurate and timely information to agencies, stakeholders, and the public through public meetings, news releases, website updates, reports, meetings and personal contacts.</b></li> <li><b>5. Manage the East Zone cost effectively and in an efficient manner to contain the fire within the acres and cost prescribed by the WFSA.</b></li> <li><b>6. Manage any ongoing and future road and fireline rehab work. Begin documenting upland habitats that require restoration work, and provide the Refuge, National Forest, and the State Forest(s) with a working Emergency Stabilization and Rehabilitation Plan as required by each agency as needed.</b></li> </ol> |  |  |                                 |   |  |  |   |  |   |  |   |  |
| 6. WEATHER FORCAST FOR OPERATIONAL PERIOD<br><p style="text-align: center;"><b>See attached Weather and Fire Behavior Forecast for detailed information.</b></p>  |  |  |                                 |   |  |  |   |  |   |  |   |  |
| 7. GENERAL/SAFETY MESSAGE<br><p><b>A. There are 6-35 trains/day on the CSX tracks in Branch I: there are few automatic railroad crossing warning devices:. stop before crossing the tracks and verify it is safe before crossing the tracks.</b></p> <p><b>B. GFC will assume command on any escapes /IA outside Perimeter Road; assist as needed.</b></p> <p><b>C. Include snag awareness in all briefings.</b></p> <p><b>D. SOF's and FOB's to notify DIVS as they enter/leave divisions.</b></p>   |  |  |                                 |   |  |  |   |  |   |  |   |  |

## Fire Weather Forecast

**FORECAST NO:** 32

**NAME OF FIRE:** Big Turnaround Complex

**PREDICTION FOR:** Day Shift

**UNIT:** Okefenokee Wildlife Refuge

**SHIFT DATE:** Tuesday 06/05/07

**SIGNED:** John Quagliariello  
**Incident Meteorologist**

**TIME AND DATE** 1900  
**FORECAST ISSUED:** 06/04/2007

---

### WEATHER DISCUSSION:

Numerous showers and thunderstorms are expected today as a series of upper level disturbances cross the area. High pressure will build over the region from the south on Wednesday, bringing with it warmer and drier weather.

---

### WEATHER FORECAST TUESDAY:

**WEATHER:** Partly to mostly cloudy. Numerous showers and thunderstorms, mainly in the afternoon. Some thunderstorms could produce gusty and erratic winds, small hail and brief heavy rainfall. Chance of rain 60 percent.

**MAX TEMPERATURES:** Around 89. (24 hour trend = little change)

**MIN HUMIDITY:** 40 to 45 percent (24 hour trend = down 2 percent)

**20 FT WINDS:** West-southwest 6 to 10 mph with gusts to 15 mph, increasing to 8 to 12 mph with gusts to 22 mph in the afternoon.

**STABILITY/INVERSION:** Mixing heights around 6500 ft.

Dispersion Index 55. Haines Index 4.

**TRANSPORT WINDS:** West-southwest 18 mph.

---

### WEATHER FORECAST TUESDAY NIGHT:

**WEATHER:** Partly cloudy. Scattered showers and thunderstorms in the evening. Chance of rain 30 percent.

**MIN TEMPERATURES:** Low around 68.

**MAX HUMIDITY:** Recovery around 85 percent near hot spots and near 100 percent elsewhere.

**20 FT WINDS:** Southwest 6 to 10 mph with gusts to 15 mph through 2000, then decreasing to 2 to 5 mph.

**STABILITY/INVERSION:** Inversion to 800 feet. Dispersion Index 7.

---

**OUTLOOK FOR WEDNESDAY:** Partly cloudy with isolated showers and thunderstorms. Chance of rain 20 percent. High around 92. Minimum humidity 36 to 41 percent. West-southwest winds 6 to 10 mph with gusts to 15 mph, becoming south after 1700.

---

**SUNRISE/SUNSET:** Monday June 5...0625/2029

---

### EXTENDED...

A typical summertime weather pattern will prevail through the weekend, with isolated or scattered showers and thunderstorms each afternoon and evening, mainly along and ahead of the sea breeze boundary. Temperatures will also continue to gradually warm each day.

| Flame Length (feet)  | 9                      | 5                         |                    |
| Rate of Spread (ch/hr)   | 25                     | 25                        |                    |
| Spotting Distance (miles)  | 0.4                    | 0.4                       |                    |
| Probability of Ignition  | 28%                    | 38%                       |                    |
| <b>SPECIFIC FIRE BEHAVIOR:</b>   |                        |                           |                    |
| <p><b>All Divisions:</b> Yesterday's rain diminished potential fire behavior from predicted, and may do so again today. Without further rain, look for moderate to active behavior from fire with someplace to go... depending on previous rainfall amounts and wind speeds. Keep in mind that rainfall amounts have been variable; assess local conditions before engaging. Escapes into the upland pine should continue to be our greatest concern given the much faster drying potential for those fuels. Water retention in the swamp should limit the likelihood of fire spread in most locations. Fire intensity and probability of ignition show only a moderate resistance to control. ROS for heavy needle cast is modeled at 4 ch/hr with 2 foot flame lengths.</p> <p><b>Structure:</b> Okefenokee administrative site should not be impacted by fire spread during this operational period.</p> <p><b>IA:</b> Expect moderate to active fire behavior once fires become established.</p> |                        |                           |                    |
| <b>AIR OPERATIONS:</b>   |                        |                           |                    |
| Potential for rapid developing T-storms with possible lightning, hail, and strong downdrafts.  |                        |                           |                    |
| <b>SAFETY:</b>   |                        |                           |                    |
| 30/30 Rule: Thunder heard w/in 30 seconds of observed lightning; take counter measures. Do not resume work in expose areas until 30 minutes after storm activity has passed. See "Thunderstorm Safety" in IRPG.  |                        |                           |                    |
| <b>Predicted ERC for today is 37... 90<sup>th</sup> percentile is 35.</b>  |                        |                           |                    |

**HEALTH AND SAFETY MESSAGE**

**Major Hazards and Risks:**

- \*Thunderstorm Safety**
- \*Chainsaw Operations**

**Narrative:**

**\* Thunderstorm Safety:** The weather forecast for the next few days has a chance of thunderstorms each day. A message will be broadcast on the radio as thunderstorms develop in our area with each DIVS to reply that he received the message. Review page 75 of your IRPG for Thunderstorm Safety.

**\* Chainsaw Operations:** Make sure to size up all trees before beginning to fell or buck them up. Use all required PPE for the operation. All operators should be carded for the operations that they will be performing. Make sure you have at least two escape routes identified during felling operations.

**REMEMBER AND FOLLOW:**

- \*The 10 Standard Fire Orders**
- \*The 18 Situations That Shout Watch Out**
- \*LCES**

**Fire Order of the Day: Post lookouts when there is possible danger.**

**YOUR Safety is our NUMBER ONE goal.**

**IMT Safety Officers: John Walker and Tom Krueger**

# HUMAN RESOURCE MESSAGE

## PATIENCE AND TOLERANCE IS OUR GUIDE

Corrective conversations and actions are of course a necessary part of life.

**SITUATIONAL AWARENESS:** When we engage with others, we are generally well served by first sensing where they are with the situation.

Even the best of us, doing the best we can do at the time will on occasion be in need of "course corrections". They work best when dignity, respect, and support is given freely at the same time.

Good Human Relations are seldom built by "nuking" them first and sensing later!!

Mick

Human Resource Specialist  
Mick Michelsen

| 8. Medical Emergency Procedures   |  |
|---|--|
| <p>Medical emergencies will be reported to the Division Supervisor. The Division Supervisor will assume command and call for the closest line medic, and resources in the division that are EMT qualified. The Division Supervisor will notify communications by radio or cell phone (Big Turnaround ICP 912-496-2111). Communications to notify MEDL @ 904-955-0022 / 602-702-2440 / 520-560-2742.</p> <p>The report should include type of illness/injury and exact location of the incident. Communications will clear the air for emergency traffic only and will request key personnel to report to communications. If an air medical helicopter is used within the fire perimeter, communications should notify the air operations director and helibase.</p> <p>After hours emergencies in Kingsland and/or Folkston: Call 911, then call communications @ 912-496-2111. Communications will call MEDL and designated paramedics will be routed to the scene to facilitate transportation needs.</p> |  |

# ***INCIDENT EMERGENCY PLAN (IEP)***

The goal of this Incident Emergency Plan (IEP) is to provide the guidelines necessary to Locate, Triage, Extricate, Treat and Transport accident Patients. The Division/Group Supervisor will initially oversee the emergency. Radio communication will be on the "Command Frequency". Names of injured or deceased individuals should not be given over the radio. Deceased individuals and their equipment are not to be moved, except to accomplish rescue work or to protect the health and safety of others. It is expected this organization will come from resources assigned within the Division or nearest adjoining forces.

## **DIVISION/GROUP SUPERVISOR**

- Conduct Size-up of the Incident (Nature of Accident, Number/Type of Resources, Location)
- Coordinate "Line EMT" response to the accident (Utilize Closest EMT's).
- Begin "TRIAGE"
- Determine and initiate treatment and transportation needs
- Evaluate special needs (Law Enforcement, Heavy Rescue, Haz Mat)
- Coordinate with Air Attack for Air-Medical transportation needs
- Preserve the scene for accident investigation

## **MEDICAL GROUP SUPERVISOR (This position will be filled, only if needed)**

- Supervise TRIAGE, Treatment and Transportation Unit Leaders.
- Place orders through Communications for ground ambulance, medical personnel, as needed
- Ensure proper security and traffic control.

## **TRIAGE UNIT LEADER (This position will be filled, only if needed)**

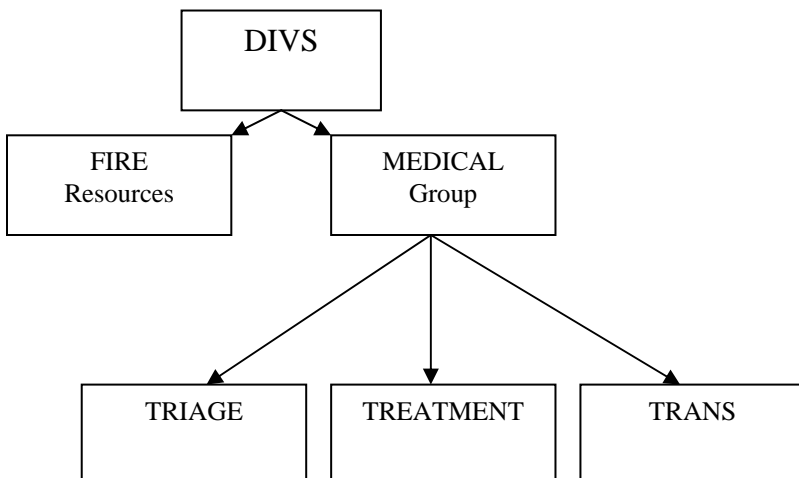

- Locate and TRIAGE all patients and relays information to Medical Group Supervisor.
- Ensure that Airway, Breathing and Circulation stabilization of patients is addressed during TRIAGE.
- Coordinate with Treatment Unit Leader for patient stabilization, extrication, and movement to treatment area.
- Utilize the "START" TRIAGE system.

## **TREATMENT UNIT LEADER (This position will be filled, only if needed)**

- Establishes Immediate, Delayed and Minor treatment areas.
- Direct treatment and stabilization of Patients.
- Prioritize Patients for transport.
- Request medical personnel and supplies, as needed.
- Ensure continual TRIAGE of patients in treatment area.
- Coordinate with TRIAGE Unit leader for delivery of patients to the treatment area.
- Coordinate with the Transportation Unit Leader for delivery of patients to ambulances.
- Ensure documentation of patient conditions and treatments on TRIAGE tags.

## **TRANSPORTATION UNIT LEADER (This position will be filled, only if needed)**

- Coordinate all patient transportation to medical facilities, air and ground.
- Establish communication with hospitals receiving patients.
- Coordinate with Treatment Unit Leader to determine number and category of patients.
- Designate ambulance/helicopter loading areas.
- Determine mode (air/ground) of patient transportation.
- Ensure patients information and destination is recorded.

- MINOR: Walking Wounded
- DELAYED: CAN Follow Simple Commands
- IMMEDIATE: Respirations have been restored  
Respirations above 30  
Radial Pulse Absent  
Capillary Refill > 2 seconds  
CAN NOT Follow Simple Command
- FATALITY: No Respirations after head tilt

## **FINANCE NOTES**

**If you can not and do not take a lunch or dinner break, you must document the reason in the remarks section of the crew time report.**

**\*\* Examples: No dinner meal break taken because; no meal available; unable to leave post; break taken at end of shift.**

**WE NEED TO SEE THE FOLLOWING PERSONNEL  
AS SOON AS POSSIBLE OR CALL 912-496-4102**

**C- 13 and C- 14**

**E-211**

**E-264**

**E-265**

**E-321**

### SIGN IN PROCEDURE

Meals may not exceed per diem rates of B-\$7, L-\$11, D-\$18.

Ticket or sign-in sheet – name, resource #(C, E, or O), fire name. Crew boss may provide manifest for names. All names of crew must be recorded for meals consumed. If recording on ticket, use front where possible.

Use govt. travel card if you have one.

Govt. will not pay for alcohol, movies or phones.

If you are on per diem, deduct any meals you sign for, or which are provided by the govt., from your travel.

The McDonalds in Folkston is offering a firefighter discount.
