

Big Turnaround

Incident Action Plan THURSDAY

June 7, 2007

Southern Area IMT Ruggiero

INCIDENT OBJECTIVES	1 INCIDENT NAME Big Turnaround Complex	2. DATE PREPARED 06/06/2007	3. TIME PREPARED 1800									
4. OPERATIONAL PERIOD (DATE/TIME) June 7, 2007 0700 – 2400 OPERATIONAL PERIOD												
5. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES) <ol style="list-style-type: none"> 1. Ensure firefighter and public safety through adherence to all safety standards, maintaining situational awareness and appropriate implementation of evacuations, closures, and temporary flight restrictions. 2. Protect / minimize threats / loss to private investments; key cultural features as listed in the Delegation of Authority; and protect the integrity of the Okefenokee Wilderness. 3. Manage the fires within the swamp under a containment strategy in accordance with suppression actions outlined in the WFSA. Contain the fire within the Swamp Perimeter Road; South and west of Hwy. 1 and the CSX Railroad line; and east of the Swamp Road. 4. Provide accurate and timely information to agencies, stakeholders, and the public through public meetings, news releases, website updates, reports, meetings and personal contacts. 5. Manage the incident cost effectively and in an efficient manner to contain the fire within the acres and cost prescribed by the WFSA. 6. Manage any ongoing and future road and fireline rehab work. Document upland habitats that require restoration work, and provide that documentation to the ESR-BAER Group Team Leader promptly. 												
6. WEATHER FORCAST FOR OPERATIONAL PERIOD See attached Weather and Fire Behavior Forecast for detailed information.												
7. GENERAL/SAFETY MESSAGE A. There are 6-35 trains/day on the CSX tracks in Branch I: there are few automatic railroad crossing warning devices:. stop before crossing the tracks and verify it is safe before crossing the tracks. B. GFC will assume command on any escapes /IA outside Perimeter Road; assist as needed. C. Include snag awareness in all briefings. D. SOF's and FOB's to notify DIVS as they enter/leave divisions.

ORGANIZATION ASSIGNMENT LIST		
1. Incident Name BIG TURNAROUND COMPLEX		
2. Date 06/06/2007	3. Time 2200	
4. Operational Period June 7, 2007 0700 - 2400		
Position	Name	
5. Incident Commander and Staff		
Incident Commander	Mark Ruggiero	
Deputy		
Safety Officer	John Walker/Tom Krueger	
Information Officer	Mary Bell Lundsford/Michelle Fidler	
Liaison Officer	Bobby Kitchens	
6. Agency Representative		
Agency	Name	
FWS	Howard McCullough	
FWS	Russ Langford	
FWS	Pat Pearson	
GFC	Eric Harris	
Charlton Co. EM	Sgt. Joey Chancy	
GEMA/Charlton Co.	Gary Rice	
GEMA/Ware Co.	Vicki Thompson	
7. Planning Section		
Chief	David Brownlie	
Resources Unit	Kennedy/Fitzgerald/Noack	
Situation Unit	Roger Fryar	
FOBS	L. Wadley/S. Nagle	
Documentation Unit		
Demobilization Unit	Paul Kaiser	
GIS	Schmeckpeper/Stuart/Adams	
Human Resources	Mick Michelson	
Training	Mike Steele	
FBAN	Bruce Davenport	
IMET	John Quagliariello	
CTSP	Doug Logan	
Rehabilitation	Sue Wilder	
8. Logistics Section		
Chief	Steve Comeaux/John Bellemore	
Supply Unit	Teddy Messenger	
Facilities Unit	Scott Matheny (T)	
Ground Support Unit	Stan Jones/Randy Harwood	
Communications Unit	Mike Shipley	
Medical Unit	Jesus Hernandez	
Security Unit	Jeff Jauschneg	
Food Unit		

9. Operations Section		
Chief	Mike Dueitt/Mark Jamieson	
Deputy		
a. Branch I/II - Division/Groups		
Branch Director	Dennis Hackett	
Deputy		
Division/Group	A-F	B. Hinton
Division/Group	G-M	Michael Carlson Jeff Dion (T)
Division/Group		
Division/Group		
Division/Group		
Division/Group		
b. Branch III - Division/Groups		
Branch Director	Jim Durrwachter	
Deputy		
Division/Group	WI-WJ	Ricky Adams (GFC)
Division/Group	WK-WM	Larry Sear (GFC)
Division/Group		
Division/Group		
c. Branch IV/V - Division/Groups		
Branch Director	Jim Durrwachter	
Deputy		
Division/Group	Z-WE	Kyle Smith

Division/Group	Swing Z-WE	Steve Guckian
Division/Group	Swing WF-WH	Matt Hoehna RE Vann(T)
Division/Group		
d. Air Operations Branch		
Air Operations Branch Director	Doug Grimmett	
Air Tactical Supervisor	Kevin Walsh	
Air Support Supervisor	John Vinson	
Helicopter Manager	Mike O'Leary	
Air Tanker Coordinator		
10. Finance Section		
Chief	Shardul Raval	
Deputy		
Time Unit	Sandra Smith/Mike Perez(T)	
Procurement Unit	Christy Smith	
Compensation/Claims Unit	Ed Harris	
Cost Unit	Carolyn Detwiler/Bonita Truett(T)	
Prepared by (Resource Unit Leader) Kathleen Kennedy/Susan Fitzgerald/Fred Noack		

Fire Weather Forecast

FORECAST NO: 34

NAME OF FIRE: Big Turnaround Complex

PREDICTION FOR: Day and Swing Shift

UNIT: Okefenokee Wildlife Refuge

SHIFT DATE: Thursday 06/07/07

SIGNED: John Quagliariello
Incident Meteorologist

TIME AND DATE 1900
FORECAST ISSUED: 06/06/2007

WEATHER DISCUSSION:

High pressure in place over the western Atlantic will result in generally light winds through Friday. This will allow sea breezes to affect the complex daily, with scattered showers and thunderstorms possible each afternoon and early evening.

WEATHER FORECAST THURSDAY:

WEATHER: Partly cloudy. Scattered showers and thunderstorms in the afternoon. Chance of rain 40 percent.

MAX TEMPERATURES: Around 93. (24 hour trend = little change)

MIN HUMIDITY: 41 to 46 percent (24 hour trend = little change)

20 FT WINDS: Light southwest, becoming south 4 to 8 mph by late morning, then becoming southeast after 1700.

STABILITY/INVERSION: Mixing heights around 6500 ft.

Dispersion Index 58. Haines Index 4.

TRANSPORT WINDS: South 8 mph.

WEATHER FORECAST THURSDAY NIGHT:

WEATHER: Partly cloudy with isolated showers and thunderstorms through 2000, then becoming mostly clear. Patchy fog late. Chance of rain 20 percent.

MIN TEMPERATURES: Low around 70.

MAX HUMIDITY: Recovery near 100 percent.

20 FT WINDS: South-southeast 2 to 6 mph through 2000, then becoming light and variable.

STABILITY/INVERSION: Inversion to 400 feet. Dispersion Index 4.

OUTLOOK FOR FRIDAY: Partly cloudy. Scattered showers and thunderstorms in the afternoon. Chance of rain 30 percent. High around 93. Minimum humidity 41 to 46 percent. Light and variable winds, becoming predominately south 2 to 6 mph by late morning, then shifting south-southeast after 1700. Winds could be variable at times throughout the day.

SUNRISE/SUNSET: Thursday June 7...0624/2030

EXTENDED...

The ridge of high pressure will begin to drop south on Saturday, allowing a weak frontal boundary to approach from the north. The front should dissipate as it crosses the area on Sunday. High pressure will then build back over the area from the north early next week.

	Saturday	Sunday	Monday	Tuesday
Low	72°	72°	72°	70°
High	93°	92°	89°	88°
Min RH	42-47%	47-52%	50-55%	50-55%
20 ft. Winds	W 5-10 mph	NW 5-10 mph	E 8-12 mph	E 8-12 mph
Sky	Partly Cloudy	Mostly Cloudy	Partly Cloudy	Partly Cloudy
Weather	Showers/Tstms	Showers/Tstms	Showers/Tstms	Showers/Tstms
PoP	20%	40%	30%	30%

Fire Behavior Forecast

INCIDENT	<i>Big Turnaround Complex</i>	OPERATIONAL PERIOD	06/07/07 Day Shift/Swing
ADMINISTRATION UNIT	<i>Okefenokee NWR</i>	FORECAST #	49
WEATHER SUMMARY:			
<p>Much as yesterday... hot and muggy. Scattered showers and thunderstorms in the afternoon. Chance of rain 40%. Minimum humidity 41-46%. Winds swinging from SW, through South, to SE (after 1700)... 4-8 mph by late morning. See attached Fire Weather Forecast.</p>			
GENERAL FIRE BEHAVIOR: Day Shift / Swing (near midnite)			
	Swamp Fuels	Upland Pine	
Flame Length (feet)	6 / 3	4 / 3	
Rate of Spread (ch/hr)	10 / 3	10 / 4	
Spotting Distance (miles)	0.1 / 0.1	0.2 / 0.1	
Probability of Ignition (%)	33 / 12	44 / 12	
SPECIFIC FIRE BEHAVIOR:			
<p>All Divisions: Similar fuel moistures to yesterday, along with even lighter winds, will reduce expected fire behavior again. Expect moderate behavior from heading fires in upland pine fuels by early afternoon. Swing shift will see fire behavior diminishing to the levels listed above near midnight. Fire spread in swamp fuels depends strongly on movement through the shrub layer, and the surface litter remains too damp to support that transition. Additionally, the swamp fuels that remain are gum/bay without heavy shrub coverage except along the swamp's edge. Ground fire established in those fuels, however, will continue to smolder. If continuing long enough, under dry conditions, the potential for reburn in 'tumped over' trees could eventually develop. Chances for reburn also continue in pine needle cast, but are lessened with little wind to fan ignition sources. Needle-cast rate of spread is modeled at 2-ch/hr with 1-foot flame lengths during the day.</p> <p>Structure: Okefenokee administrative site should not be impacted by fire spread during this operational period.</p> <p>IA: Expect moderate fire behavior once fires become established.</p>			
AIR OPERATIONS:			
No restrictions after 0900.			
SAFETY:			
Be alert for undermined green trees coming down, particularly in the gum/bay fuels. Consider posting lookouts (immediate area) for crews working in these fuels			
Predicted ERC for today is 38... 90th percentile is 35.

7. Control Operations Patrol and mop-up 300 feet. Continue to suppress re-burn pockets. Clean up the public canal area of Swamp Park and fall hazard trees. Use available heavy equipment to maintain and improve roads.							
8. Special Instructions Be prepared to assist GFC with I/A as requested. Logging operations support will be coordinated through Incident Communications to provide IA support for Divisions A-F. Division A- stop at all railroad crossings. Inform Communications of any problems with the Command Repeater such as dead spots, broken transmissions, etc. Identify and begin felling snags that potentially endanger firefighters or members of the public.

Rehab Specifications

Dozer Lines

General Description: Rehabilitation of suppression constructed “Dozer Lines” and “Berms” is necessary to avoid excessive soil erosion and restore natural landscape surface water flow.

Location (Suitable) Sites: See incident map for location of known dozer lines and berms. Berms with merchantable timber have been identified on incident maps. Additional lines should be rehabilitated as they are discovered in the field. All discoveries will be turned into situation unit and subsequently mapped.

Berm Definition: Berms with merchantable timber embedded within that is mixed with soil and smaller debris.

Merchantable Timber Definition: Minimum 2” top and 20 foot length.

Design/Construction Specifications

For areas with Merchantable Timber: Use excavator with thumb to remove the merchantable timber from the berm. Scatter the debris and soil into the fireline area. Lay out logs with the butt end towards the road. Leave the road open and in good shape. Merchantable timber will be removed at a later date. Ditches should be pulled and the road graded after the timber has been salvaged.

For areas with Non-merchantable Timber: Use heavy equipment to scatter debris and soil into the fireline area. Leave the road open and in good shape. Ditches should be pulled and the road graded after the timber has been salvaged.

HEALTH AND SAFETY MESSAGE

Major Hazards and Risks:

***Situational Awareness**

***PPE Use**

Narrative:

*** Situational Awareness:** We will be taking over the west side of the fire today. Some of you will be moving into new territory, others will be moving back to territory they haven't seen for a couple of weeks. Either way, you need to pay attention to everything around you. Make sure you can get back out, make sure you know your escape routes and that they are designated, and make sure you know your supervisor.

*** PPE Use:** This incident has not been declared controlled and is therefore still considered an active fire. Just because the last couple of days has been slow, don't be lulled into thinking the fire is out. **All** the appropriate PPE should be utilized whenever you leave your rigs.

REMEMBER AND FOLLOW:

***The 10 Standard Fire Orders**

***The 18 Situations That Shout Watch Out**

***LCES**

Fire Order of the Day: Give clear instructions and insure they are understood.

YOUR Safety is our NUMBER ONE goal.

IMT Safety Officers: John Walker and Tom Krueger

HUMAN RESOURCE MESSAGE

PATIENCE AND TOLERANCE IS OUR GUIDE

Isn't it interesting how things change when we get a decision and get direction?

Isn't it interesting that we so hate the unknowns and ambiguity that we would rather have a decision we don't like than none at all?

Isn't it interesting how we stop grouching, complaining, and carping about things?

The Big Turnaround Complex is appropriately named.... It has been fraught with turnarounds, is the biggest fire in modern times, and set new standards for complexity.

Thanks, Professional Fire Fighters, for the Patience and Tolerance you showed until a decision could be made.

Mick

8. Medical Emergency Procedures	
<p>Medical emergencies will be reported to the Division Supervisor. The Division Supervisor will assume command and call for the closest line medic, and resources in the division that are EMT qualified. The Division Supervisor will notify communications by radio or cell phone (Big Turnaround ICP 912-496-2111). Communications to notify MEDL @ 904-955-0022 / 520-560-2742.</p> <p>The report should include type of illness/injury and exact location of the incident. Communications will clear the air for emergency traffic only and will request key personnel to report to communications. If an air medical helicopter is used within the fire perimeter, communications should notify the air operations director and helibase.</p> <p>After hours emergencies in Kingsland and/or Folkston: Call 911, then call communications @ 912-496-2111. Communications will call MEDL and designated paramedics will be routed to the scene to facilitate transportation needs.</p>

INCIDENT EMERGENCY PLAN (IEP)

The goal of this Incident Emergency Plan (IEP) is to provide the guidelines necessary to Locate, Triage, Extricate, Treat and Transport accident Patients. The Division/Group Supervisor will initially oversee the emergency. Radio communication will be on the "Command Frequency". Names of injured or deceased individuals should not be given over the radio. Deceased individuals and their equipment are not to be moved, except to accomplish rescue work or to protect the health and safety of others. It is expected this organization will come from resources assigned within the Division or nearest adjoining forces.

DIVISION/GROUP SUPERVISOR

- Conduct Size-up of the Incident (Nature of Accident, Number/Type of Resources, Location)
- Coordinate "Line EMT" response to the accident (Utilize Closest EMT's).
- Begin "TRIAGE"
- Determine and initiate treatment and transportation needs
- Evaluate special needs (Law Enforcement, Heavy Rescue, Haz Mat)
- Coordinate with Air Attack for Air-Medical transportation needs
- Preserve the scene for accident investigation

MEDICAL GROUP SUPERVISOR (This position will be filled, only if needed)

- Supervise TRIAGE, Treatment and Transportation Unit Leaders.
- Place orders through Communications for ground ambulance, medical personnel, as needed
- Ensure proper security and traffic control.

TRIAGE UNIT LEADER (This position will be filled, only if needed)

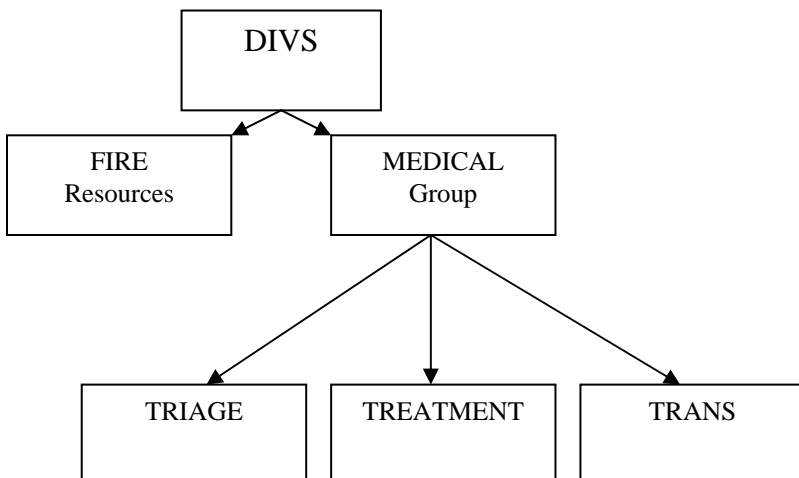

- Locate and TRIAGE all patients and relays information to Medical Group Supervisor.
- Ensure that Airway, Breathing and Circulation stabilization of patients is addressed during TRIAGE.
- Coordinate with Treatment Unit Leader for patient stabilization, extrication, and movement to treatment area.
- Utilize the "START" TRIAGE system.

TREATMENT UNIT LEADER (This position will be filled, only if needed)

- Establishes Immediate, Delayed and Minor treatment areas.
- Direct treatment and stabilization of Patients.
- Prioritize Patients for transport.
- Request medical personnel and supplies, as needed.
- Ensure continual TRIAGE of patients in treatment area.
- Coordinate with TRIAGE Unit leader for delivery of patients to the treatment area.
- Coordinate with the Transportation Unit Leader for delivery of patients to ambulances.
- Ensure documentation of patient conditions and treatments on TRIAGE tags.

TRANSPORTATION UNIT LEADER (This position will be filled, only if needed)

- Coordinate all patient transportation to medical facilities, air and ground.
- Establish communication with hospitals receiving patients.
- Coordinate with Treatment Unit Leader to determine number and category of patients.
- Designate ambulance/helicopter loading areas.
- Determine mode (air/ground) of patient transportation.
- Ensure patients information and destination is recorded.

- MINOR: Walking Wounded
- DELAYED: **CAN** Follow Simple Commands
- IMMEDIATE: Respirations have been restored
Respirations above 30
Radial Pulse Absent
Capillary Refill > 2 seconds
CAN NOT Follow Simple Command
- FATALITY: No Respirations after head tilt

FINANCE NOTES

If you can not and do not take a lunch or dinner break, you **must** document the reason in the remarks section of the crew time report.

**** Examples: No dinner meal break taken because; no meal available; unable to leave post; break taken at end of shift.**

THANKS AND HAVE A GREAT DAY!!!

Hotel Instructions

Agency Employee:

- Check into your **assigned** room on the day you arrive.
- Present your agency travel card to the hotel clerk at check-in.
- Please inform the Logistics Hotel manager (**Scott Matheny**) if you change rooms (we need to know where you are located in case of an emergency).
- If for any reason you leave your **assigned** room please check out and pay for your room with your travel card.
- Make sure that your card is only charged for those days that you stayed. The Buying Team will pay for any days that the room was on hold prior to your check-in.

Contractors:

- You will receive a room assignment **after** checking in at the ICP.
- Check into your **assigned** room on the day you arrive.
- Inform the hotel clerk that your room will be paid for with the Buying Team card.
- Please inform the Logistics Hotel manager (**Scott Matheny**) if you are re-staffing your equipment (we need to know the new names in case we have an emergency).
- New staff also needs to check-in at the ICP.
- When your **equipment** is demobed, **please check out** of your rooms and let the Logistics Hotel manager know you are leaving. Payment for your room will be made by the fire.
- **You are not authorized to make phone, food, or movie rental charges to your room.**

AD's:

- You will receive a room assignment **after** checking in at the ICP.
- Check into your **assigned** room on the day you arrive.
- Inform the hotel clerk that your room will be paid for with the Buying Team card.
- When you are demobed, **please check out** of your rooms and let the Logistics Hotel manager (**Scott Matheny**) know you are leaving. Payment for your room will be made by the fire.
- **You are not authorized to make phone, food, or movie rental charges to your room.**

SIGN IN PROCEDURE

Meals may not exceed per diem rates of B-\$7, L-\$11, D-\$18.

Ticket or sign-in sheet – name, resource #(C, E, or O), fire name. Crew boss may provide manifest for names. All names of crew must be recorded for meals consumed. If recording on ticket, use front where possible.

Use govt. travel card if you have one.

Govt. will not pay for alcohol, movies or phones.

If you are on per diem, deduct any meals you sign for, or which are provided by the govt., from your travel.

The McDonalds in Folkston is offering a firefighter discount.
