

Big Turnaround Complex

Incident Action Plan SUNDAY July 01-02, 2007

Note: Collecting cultural resource artifacts on federal land is illegal and only allowed with permission on private land. Please report all activity and findings to appropriate authorities.

<p style="text-align: center;">INCIDENT OBJECTIVES</p>	<p style="text-align: center;">1 INCIDENT NAME Big Turnaround Complex</p>	<p style="text-align: center;">2. DATE PREPARED 06/30/2007</p>	<p style="text-align: center;">3. TIME PREPARED 1800</p>									
<p>4. OPERATIONAL PERIOD (DATE/TIME) July 01-02, 2007 0700 – 1900 DAY SHIFT</p>												
<p>5. CORE VALUES – ALL INCIDENTS, ALL THE TIME</p> <ul style="list-style-type: none"> A. Firefighter Safety – Everyone goes home. B. Public Safety – We will be proactive in facilitating safety of affected citizens. C. 100% Effort – We will mindfully engage all missions with our collective expertise. D. Land Stewardship – We will cause no unnecessary resource damage. E. Open Communication – Direct, respectful, and 2 way communications is the key to our success. 												
<p>6. INCIDENT OBJECTIVES / MANAGEMENT EXPECTATIONS</p> <p style="text-align: center;"><u>Management Priorities</u></p> <ul style="list-style-type: none"> 1. Provide for fire fighter and public safety. 2. Minimize the loss or damage to structures, private property, recreations sites, watershed, wildlife habitat, timber lands, and other assets. <p style="text-align: center;"><u>Operational Objectives</u></p> <ul style="list-style-type: none"> 1. Keep fire contained within established containment lines. 2. Continue to implement suppression repair. 3. Manage new ignitions within Refuge according to WFSA and FMP. 4. Continue monitoring potential fire movement. 												
<p>7. PLAN OF ACTION, STRATEGY AND PRIORITIES</p> <ul style="list-style-type: none"> 1. First priority is to protect the public assets at risk. All available air and ground resources will support the operation when necessary. 2. Second priority will be to effectively assist with initial attack of new fire starts. 3. Third priority will be to continue implementing fire suppression repair.

Safety Message
Big Turnaround Complex
July 1, 2007

Driving - drive with headlights on at all times, obey speed limits. Log hauling is occurring in various locations within the Complex area.

Risk Management Process- pg. 1 in IRPG. Before committing to any operational actions ensure that you have mentally gone over the checklist. The bottom line is Risk vs. Gain.

Look Up, Down, and Around - review the seven Fire Environment Factors in your I.R.P.G., pages 2 and 3.

Hazard trees are still a concern. I identify and mitigate hazard trees. If mitigation is not possible, DO NOT work in the area.

Hydration - warmer weather, increase your fluid intake. Rule of thumb, two bottles of water for every bottle of sports drink. Continue to keep eating.

Keep safety as the primary focus. Don't become complacent.
Remember, yesterday is not today, every operational shift is
different.

GA-OKR-007021
Okefenokee Wildlife Refuge
U.S. Fish and Wildlife Service

Today's discussion is from the Environmental Factors Category.

THUNDERSTORM SAFETY

Thunderstorms cause significant hazards for wildland firefighters, including downbursts that can cause extreme fire behavior and lightning. When thunderstorm development is likely, lookouts should be posted and aware of signs of a developing storm. A sudden reversal in wind direction, a noticeable rise in wind speed, and a sharp drop in temperature may note the mature stage of a storm. Heavy rain, hail and lightning occur only in the mature stage of a thunderstorm. During a storm, use the following guidelines:

Do not lie down.

- The best position is sitting on the pack or crouching with feet close together.
- Avoid sitting directly on the ground, if possible; but, if necessary, keep feet and butt close together.
- Avoid grouping together. Keep a minimum of 15 feet between people when possible.
- Removing caulk boots will not provide safety if stocking covered or bare feet are then in contact with the ground--don't bother!

"Stay out of dry creek beds" is correct for flash floods, but has nothing to do with lightning.

Handheld radios (with short rubber antennas) or cell phones are safe to use. Communication is vital to crew safety. Do not use land line radios or radios with elevated antennas.

Wide, open spaces are better than trees or clumps of trees in the vicinity. Ridge tops, etc., should be avoided.

If you feel the hair on your arms or head "stand up," there is a high probability of a strike in the vicinity. Crouch or sit on a pack.

Put down all tools.

Take shelter in vehicles if possible.

8. Medical Emergency Procedures	
<p>Medical emergencies will be reported to the Division Supervisor. The Division Supervisor will assume command and call for the line medic, and resources in the division that are EMT qualified. The Division Supervisor will notify communications by radio or cell phone (Big Turnaround ICP 912-496-2111), The report should include type of illness/injury and exact location of the patient(s). Communications will clear the air for emergency traffic only and will request key personnel to report to communications. If an air medical helicopter is used within the fire perimeter, communications should notify the air operations director and helibase.</p> <p>After 2100 hours emergencies in Kingsland and/or Folkston, Waycross and Valdosta: after hour contact is night security Kevin Wyrick 864-490-4193. Before 2100 call communications @ 912-496-4175. DO NOT DELAY TREATMENT CALL 911 WHEN LIFE THREATENING. (Patient Assessment, IRPG, pg. 35)</p>
