☐ SAFETY MESSAGE

Incident: Sweat Farm/Bugaboo/Kneeknocker Roundabout Fires

Date: June 7, 2007

Time: Day

Major Hazards and Risks:

- Transition
- Lightning
- Fatigue/Hydration
- Mop Up
- Driving

Hot conditions will occur with the possibility of isolated showers and thunder storms. Refer to page 75 in your Incident Response Pocket Guide for lightning mitigation. Plan and act accordingly. Maintain LCES at all times!

Due to long term drought, heavy fuel loads, needle cast and unburned fuel between control lines and fire line the reburns are burning intensely. Post Lookouts as needed, Communicate changes, establish Escape routes and identify Safety Zones prior to engaging any activities.

Take frequent rest breaks and alternate between heavy and light task when possible. **Drink more water!** Once you feel thirsty, you have already used enough fluids to start a dehydration process. Remember that four waters to every gatoraide is recommended.

Many trees are hung up in other trees near the fireline. **Remove hazards or post lookouts** when hazards cannot be removed. Don't forget that more injuries are reported during the mop up stage than any other, so **take time to Stop & Think.**

Use a spotter when backing. Do not crowd staging areas by parking pickups in the middle of the area. Use headlights when driving, but be sure to cut lights and radios off when leaving vehicle parked. **Do Not park in the road or dangerously near the road.**

HUMAN RESOURCE MESSAGE

PATIENCE AND TOLERANCE ARE OUR GUIDE

Dealing with the unknowns affecting us... being placed into a holding pattern... being told to hurry up and wait...

Will it rain more or dry more... will the winds come or not... are we taking on additional parts of the fire or demobing folks... will Facilities have me a room for the night?

We HATE dealing with ambiguity... so we

----move to conclusions without enough or bogus data

----fill in the gap by adding things that aren't there

----frustrate others because we aren't specific

----try risky and unproven solutions

----overcomplicate things

PATIENCE AND TOLERANCE—HOW MANY OPPORTUNITIES IS THIS INCIDENT going to give me to learn it!?!?!?!?!?!?
