

Incident Status Summary (ICS-209)

1: Date 10/16/2011	2: Time 1800	3: Initial Update Final XX	4: Incident Number GA-OKR-000001	5: Incident Name Honey Prairie		
6: Incident Kind Wildfire (Full Suppression/Perimeter Control)		7: Start Date Time 04/30/2011 0900	8: Cause Lightning	9: Incident Commander Steve Gray	10: Incident Command Organization Type 3 Team	11: State- Unit GA- OKR
12: County Charlton	13: Latitude and Longitude Lat: 30° 43' 47" Long: 82° 22' 7" Ownership: GA-OKR		14: Short Location Description (in reference to nearest town): Okefenokee NWR, 5 miles NE of Fargo, GA			
15: Size/Area Involved 309,175 ACRES	16: % Contained or MMA 76 Percent	17: Expected Containment Date:	18: Line to Build	19: Estimated Costs to Date \$52,889,793	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: 0	22: Injuries to Date: 3	23: Fatalities 0	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- Potential future threat ----- XX No likely threat -----			Residence	90		
			Commercial Property	25		
			Outbuilding/Other	196		1
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: Fire will continue to creep and smolder in the heavier fuels on the west side of the refuge. 24 hours: Same as above. 48 hours: Same as above. 72 hours: Same as above.						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: High value commercial timberlands, the Okefenokee National Wildlife Refuge (OKR) and cultural resources, CSX railroads, the Suwannee Chapel Community. 24 hours: Same as above. 48 hours: Same as above. 72 hours: Same as above.						
28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames): 12 hours: None. 24 hours: None. 48 hours: None. 72 hours: None.						
29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. Moderate to heavy fuel loads in the swamp and uplands; limited accessibility for ground equipment; multiple jurisdictions involved; wilderness area; and reburn potential over the entire fire area. Needle cast and re-sprouted palmetto reburn are concerns. Timber logging activity within the burned area. Bear season, archery season and muzzleloader hunting is open increasing hunter activity in the area. Extended drought makes breakouts possible in						

the western portion of the fire.

30: Observed Weather for Current Operational Period
 Peak Gusts (mph): **12** Max.
 Temperature: **85**
 Wind Direction: **E** Min.
 Relative Humidity: **29**

31: Fuels/Materials Involved: **7 Southern Rough Heavy swamp fuel loads, heavy to moderate palmetto/gallberry, 3+ year rough**

32: Today's observed fire behavior (leave blank for non-fire events):

Fire activity increased slightly as fuels continue to dry out. Creeping and smoldering with some open flames, and reburn.

33: Significant events today (closures, evacuations, significant progress made, etc.):

Crews continued to patrol, monitor, and mop up the fire.

34: Forecasted Weather for next Operational Period

Wind Speed (mph): **13** Temperature: **86**
 Wind Direction: **SE** Relative Humidity: **40**

35: Estimated Control Date and Time:

36: Projected Final Size:

37: Estimated Final Cost:

38: Actions planned for next operational period:

Crews will continue to patrol and monitor the fire. Mop up of containment lines will continue, and crews will maintain readiness for any breakouts.

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **Medium**

2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?

41: Projected demobilization start date:

42: Remarks:

Agency Administrator's objectives remain to contain all fires within the Okefenokee NWR, using indirect tactics at the swamp's edge because of inaccessible terrain, and to maintain wilderness values and reduce negative impacts to the ecosystem. As drying out continues, increase in fire behavior is likely. Cost decreased today due to database cleanup.

Incident Name	Suppression Strategy	Size	MMA	Cost To Date
Honey Prairie	Point or Zone Protection/Limited Perimeter Control	309,175	76%	\$52,889,793
Moniac	Full Suppression/Perimeter Control		100%	
Road 22	Full Suppression/Perimeter Control		100%	
Murry Road	Full Suppression/Perimeter Control		100%	
Boone	Full Suppression/Perimeter Control		100%	
Whites Flat	Full Suppression/Perimeter Control		100%	
Secret	Full Suppression/Perimeter Control		100%	
Moccasin	Full Suppression/Perimeter Control		100%	
260 Fire	Full Suppression/Perimeter Control		100%
