48 hours: Little movement to the NNE on Honey Prairie fire.  72 hours: Little movement to the NNE on Honey Prairie fire.  27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames:  12 hours: High value commercial timberlands, the Okefenokee National Wildlife Refuge and cultural resources. CSX railroad, Suwanee Chapel Community.  24 hours: Same as above  48 hours: Same as above  72 hours: Same as above  28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames):  12 hours: None  24 hours: None													
48 hours: None 72 hours: None 29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan.  Moderate to heavy fuel loads in the swamp and uplands; limited accessibility for ground equipment; mulitiple jurisdictions involved; wilderness area; and reburn potential over the entire fire area. Needle cast and re-sprouted palmetto reburn concerns.													
30: Observed Weather for Current Operational Period Peak Gusts (mph): 10 Max. 31: Fuels/Materials Involved: 7 Southern Rough													

ICS-209 Form Page 2 of 3

Temperature: **95**Wind Direction: **SE**Relative Humidity: **45** 

Heavy swamp fuel loads, heavy to moderate palmetto/gallberry, 3+ year rough

32: Today's observed fire behavior (leave blank for non-fire events):

Honey Prairie continues to creep and smolder with occasional flare ups on the west side of the refuge.

33: Significant events today (closures, evacuations, significant progress made, etc.):

Crews continued to patrol and monitor the Honey Prairie fire. A type 1 helicopter performed on fuel cycle of water drops on hot spots in Division Y. Rehab work is also continuing in Division Y.

34: Forecasted Weather for next Operational Period
Wind Speed (mph): 7 Temperature: 96

Temperature: **96**Relative Humidity: **45**35: Estimated Control Date and Time:

36: Projected Final Size:

37: Estimated Final Cost:

38: Actions planned for next operational period:

Crews will continue to patrol and monitor the Honey Prairie. Rehab work will also continue on the western refuge boundary.

- 39: For fire incidents, describe resistance to control in terms of:
- 1. Growth Potential **Medium**

Wind Direction: W

- 2. Difficulty of Terrain High
- 40: Given the current constraints, when will the chosen management strategy succeed?
- 41: Projected demobilization start date:
- 42: Remarks:

Agency Administrator objectives are to contain all fires within the Okefenokee NWR using indirect tactics at the swamp's edge because of inaccessible terrain and to maintain wilderness values and reduce negative impacts to the ecosystems.

that help talues and reduce negative impacts to the coopystems.									
Incident Name	Suppression Strategy	Size	MMA	Cost To Date					
Honey Prairie	Point or Zone Protection/Limited Perimeter Control	303,594	70%	\$48,371,088					
Moniac	Full Suppression/Perimeter Control	43	100%						
Road 22	Full Suppression/Perimeter Control	8	100%						
Murry Road	Full Suppression/Perimeter Control	2	100%						
Boone	Full Suppression/Perimeter Control	3	100%						
Whites Flat	Full Suppression/Perimeter Control	3	100%						
Secret	Full Suppression/Perimeter Control	2	100%						
Moccasin	Full Suppression/Perimeter Control	14	100%	_					
260 Fire	Full Suppression/Perimeter Control	19	100%
