

Incident Status Summary (ICS-209)

1: Date 09/06/2011	2: Time 1745	3: Initial Update Final XX	4: Incident Number GA-OKR-000001	5: Incident Name Honey Prairie		
6: Incident Kind Wildfire (Full Suppression/Perimeter Control)		7: Start Date Time 04/30/2011 0900	8: Cause Lightning	9: Incident Commander Trent Ingram/Kris Butler(T)	10: Incident Command Organization Type 3 Team	11: State- Unit GA- OKR
12: County Charlton	13: Latitude and Longitude Lat: 30° 43' 47" Long: 82° 22' 7" Ownership: GA-OKR		14: Short Location Description (in reference to nearest town): Okefenokee NWR, 5 miles NE of Fargo, GA			
15: Size/Area Involved 306,276 ACRES	16: % Contained or MMA 76 Percent	17: Expected Containment Date:	18: Line to Build	19: Estimated Costs to Date \$49,455,801	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: 0	22: Injuries to Date: 1	23: Fatalities 0	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- Potential future threat ----- No likely threat -----			Residence	90		
			Commercial Property	25		
			Outbuilding/Other	196		1
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: Honey Prairie will continue to smolder with occasional flare ups. Predicted gusty winds could threaten containment lines. 24 hours: Same as above 48 hours: Same as above 72 hours: Same as above						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: High value commercial timberlands, the Okefenokee National Wildlife Refuge and cultural resources, CSX railroad, Suwanee Chapel Community. 24 hours: Same as above 48 hours: Same as above 72 hours: Same as above						
28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames): 12 hours: ICT3 24 hours: 1-TFLD 48 hours: none 72 hours: none						
29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. Moderate to heavy fuel loads in the swamp and uplands; limited accessibility for ground equipment; multiple jurisdictions involved; wilderness area; and reburn potential over the entire fire area. Needle cast and re-sprouted palmetto reburn concerns. Extended drought exist, combined with low RHs and high wind gust, makes breakouts likely along the						

extensive fire line. Thunderstorms with gusty winds were passing through the fire area throughout the night and early morning.

30: Observed Weather for Current Operational Period
Peak Gusts (mph): **20** Max.
Temperature: **83**
Wind Direction: **SW** Min.
Relative Humidity: **45**

31: Fuels/Materials Involved: **7 Southern Rough Heavy swamp fuel loads, heavy to moderate palmetto/gallberry, 3+ year rough**

32: Today's observed fire behavior (leave blank for non-fire events):

Honey Prairie Fire continues to smolder with occasional flare ups on the west side of the Refuge. Scattered rainfall amounts and droughty weather continue.

33: Significant events today (closures, evacuations, significant progress made, etc.):

Continued patrolling for new starts and mop-up throughout the operational period.

34: Forecasted Weather for next Operational Period

Wind Speed (mph): **15** Temperature: **88**
Wind Direction: **W** Relative Humidity: **35**

35: Estimated Control Date and Time:

36: Projected Final Size:

37: Estimated Final Cost:

38: Actions planned for next operational period:

Continue to patrol for new starts, from recent lightning activity, mop-up, and monitor the west side of the refuge for significant heat.

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **Medium**

2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?

41: Projected demobilization start date:

42: Remarks:

Agency Administrator's objectives remain contain all fires within the Okefenokee NWR at the swamp's edge, using indirect tactics, to maintain wilderness values, reduce negative impacts to the ecosystem, and for safety reasons due to inaccessible terrain.

Incident Name	Suppression Strategy	Size	MMA	Cost To Date
Honey Prairie	Point or Zone Protection/Limited Perimeter Control	306,182	76%	\$49,455,801
Moniac	Full Suppression/Perimeter Control	43	100%	
Road 22	Full Suppression/Perimeter Control	8	100%	
Murry Road	Full Suppression/Perimeter Control	2	100%	
Boone	Full Suppression/Perimeter Control	3	100%	
Whites Flat	Full Suppression/Perimeter Control	3	100%	
Secret	Full Suppression/Perimeter Control	2	100%	
Moccasin	Full Suppression/Perimeter Control	14	100%	
260 Fire	Full Suppression/Perimeter Control	19	100%	

43: Committed Resources (Supplemental Committed Resources follow the first block)

Agency	CRW1		CRW2		HEL1	HEL2	HEL3	ENGS		DOZR		WTDR	OVHD	Camp Crews	Total Personnel

44: Cooperating and Assisting Agencies Not Listed Above:

GEMA, GDOT, FLDOT, County EMA's, GOAL, FFS, GFC, Rayonier, Superior Pine and Langdale. Rayonier, Superior Pine and Langdale resources are not reflected in the Honey Prairie Complex resource numbers, since they will respond to protect their own lands as needed.
