

Incident Status Summary (ICS-209)

1: Date 06/30/2011	2: Time 1700	3: Initial Update Final XX	4: Incident Number GA-GAS-201103	5: Incident Name RACEPOND		
6: Incident Kind Wildfire (Full Suppression/Perimeter Control)		7: Start Date Time 05/25/2011 1500	8: Cause Lightning	9: Incident Commander Schenk/Harvey	10: Incident Command Organization Type 2 Team	11: State-Unit GA-GAS
12: County CHARLTON	13: Latitude and Longitude Lat: 30° 59' 27" Long: 82° 6' 38" Ownership: GA-GAS		14: Short Location Description (in reference to nearest town): 12 MILES S OF HOBOKEN GA			
15: Size/Area Involved 20,934 ACRES	16: % Contained or MMA 75 Percent	17: Expected Containment Date:	18: Line to Build 5 Miles	19: Estimated Costs to Date \$3,781,380	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: 0	22: Injuries to Date: 1	23: Fatalities 0	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- Potential future threat ----- XX No likely threat -----			Residence	300	0	0
			Commercial Property			
			Outbuilding/Other	400		
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: Reburn potential increasing as conditions become hotter and drier. Burning will be interior of firebreaks but have the potential to cause spotting across containment lines. 24 hours: Reburn potential increasing as conditions become hotter and drier. Burning will be interior of firebreaks but have the potential to cause spotting across containment lines. 48 hours: Reburn potential increasing as conditions become hotter and drier. Burning will be interior of firebreaks but have the potential to cause spotting across containment lines. 72 hours: Reburn potential increasing as conditions become hotter and drier. Burning will be interior of firebreaks but have the potential to cause spotting across containment lines.						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened. 24 hours: The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened. 48 hours: The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the						

Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened.
 72 hours: **The communities of Hickox, Racepond, Hoboken and Nahunta. State, private and commercial timberlands. The Okefenokee Wildlife Refuge. Hwy 94, 301, and 1 are threatened to closure with increased fire activity. The Okefenokee Swamp Park. The Georgia Forestry Commission district office which includes the Racepond Fire ICP. If the Racepond and Honey Prarie Fires meet, the community of Astoria could be threatened.**

28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames):

12 hours: **2 DIVS**

24 hours: **2 DIVS**

48 hours: **2 DIVS**

72 hours: **2 DIVS**

29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan.

Extremely dry conditions make control difficult, Firefighter fatigue. Reburning due to needle fall in areas that were previously burned. Structures on along east line near Randall Crews Road are still threatened until mopup and line improvement is completed. Logging operations within the burned area is a concern for firefighter safety if they are in one of the logging areas. Logging operations have a potential to stir up hot spots and cause reburning and spread of fire. Reburning. Structure protection within the Okefenokee Swamp Park.

30: Observed Weather for Current Operational Period

Peak Gusts (mph): **16** Max.

Temperature: **94**

Wind Direction: **E** Min.

Relative Humidity: **44**

31: Fuels/Materials Involved: **7 Southern Rough Palmetto, Gallberry, Titi, pine straw, hardwood understory**

32: Today's observed fire behavior (leave blank for non-fire events):

Fire behavior decreased today due to rainfall in the area on the night of 6/29/11. Smoldering in heavy fuels continues in heavy fuels.

33: Significant events today (closures, evacuations, significant progress made, etc.):

The NE Compact IMT (Schenk/Harvey) was transitioning with the GFC IMT (Floyd) today and will take control of the incident on 7/1/11 @ 0800

34: Forecasted Weather for next Operational Period

Wind Speed (mph): **12** Temperature: **92**

Wind Direction: **E** Relative Humidity: **38**

35: Estimated Control Date and Time:

36: Projected Final Size:
29,934

37: Estimated Final Cost:

38: Actions planned for next operational period:

Continue to complete control line and improve existing ones on the east and south flanks. Continue structure protection at the Okefenokee Swamp Park.

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **High**

2. Difficulty of Terrain - **Medium**

40: Given the current constraints, when will the chosen management strategy succeed?

Sustained rain is needed to meet the incident objectives.

41: Projected demobilization start date:

42: Remarks:
