

INCIDENT ACTION PLAN

HURRICANE HELENE INCIDENT

GA-GAS-420891040

THURSDAY

OCTOBER 3, 2024

OPERATIONAL PERIOD 0700 – 2100

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period:	
HURRICANE HELENE	Date/Time From: 10/03/2024 0700 THU	Date/Time To: 10/03/2024 2100 THU
3. Objective(s):		
<u>Hurricane Helene Response Objectives</u>		
<ol style="list-style-type: none"> 1. Provide for the safety of all employees throughout the incident or until your team's assignment is complete. Special attention must be given to safety given the complex and dynamic hazards associated with storm response. 2. Acquire resources necessary to provide a safe and effective response clearing debris from primary, secondary, and tertiary public roadways. 3. Work collectively with Georgia Emergency Management Agency's Emergency Support Function 4 Annex to address any new unmet needs passed down to GFC. 4. Request/order needed resources through communications with RM's and FMO's. 5. Within Helene's impact area, evaluate and assess GFC facilities, vehicles, equipment, and communications infrastructure to record and photograph any damages. Produce organized and detailed report of findings by location capturing (location name, address, coordinates, property description, and damage). 6. Monitor employees' work-to-rest ratio. Employees are not to exceed 16-hour days unless approved by the Incident Commander. Efforts will be made for local GFC resources to receive day(s) off as determined by the ongoing incident. 7. Ensure efficient response to maximize cost-containment as we are entrusted with fiscal responsibility on behalf of all Georgians and that all procurement policies are followed. 8. As the incident allows, utilize opportunities to develop local trainees. Trainees should be placed with an experienced mentor, where he/she can gain valuable experience. 9. Follow all policy and procedures related to purchasing, travel, personnel conduct, safety, SOPs for priority road clearance, data collection, data integrity, quality control and other required processes. 10. Provide a complete incident documentation package tracking all requests and incident response costs in accordance with FEMA natural disaster guidance. 		
4. Operational Period Command Emphasis:		
General Situational Awareness:

Health and Safety Message

Incident: Hurricane Helene Response	Date: October 3, 2024
--	------------------------------

Hazards and Risks: Heavy Equipment, Chainsaw safety, Driving, Hydration

Working around Heavy Equipment:

-Equipment: Always use a spotter when backing up. Stay clear of heavy equipment as the line of sight is limited for the operator. When working around equipment at night, be sure to utilize head lamps and high visibility vest.

Chainsaw safety:

-Always use a swamper when using the saw. Full PPE including hard hats, chaps, gloves, ear and eye protection must be worn when operating a saw or working as a swamper. Conduct frequent, scheduled briefings to ensure situational awareness. Never cut trees that are in contact with downed power lines.

Driving:

-Roads: Roads may become busy due to additional traffic from storm evacuations. Use caution when entering and exiting the work areas along the highway.

- Do not text or use the phone when driving, if you need to use a cellular device, pull over or put it in a “hands free” mode.

- Wear seat belts and turn on head lights and strobe lights when driving at night or when conducting operations on the line or in hazardous conditions

- Be on the lookout for hazards such as down power lines, pedestrians, non functioning traffic lights, down trees and other storm debris on the roadway.

Hydration:

-Drink plenty of fluids, take breaks and monitor your body and your fellow team mates. IF YOU SEE SOMETHING-SAY SOMETHING. Heat related injuries or illness can become serious quick. For information on Heat Related Injury (HRI), refer to page 110 of your IRPG

COMMUNICATION :

-Assure all resources have a plan agreed upon for communications. Follow the com plan in the IAP and when radio and cell communications aren't working, utilize human repeaters if needed.

Safety officer: Danny Gore

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. **Mode** refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, base stations, mobile or portable radio.

Finance Message

CTRs/Shift Ticket

PLEASE EMAIL ALL Shift tickets, CTRs, and General Messages TO YOUR REGION ADMIN. You can take a photo of a signed hard copy shift ticket, or CTR. Photos should be legible, and the supervisor's signature should be visible. Strike team leaders or Division Supervisors may have to take pictures and send them in time when they get cell service.

P-Card Use: If you use a P-Card to purchase meals or lodging, please notify Penny, Thomas, and Bo after your first purchase.

You can check in through the QR tree on the front page of the IAP.

Everyone should show a 30-minute meal break every 8 hours. All equipment should be actual hours, not miles. Chainsaws need to have bar length on the shift ticket.

Email your CTRs and Shift Tickets to the finance email below. Please label all finance emails with your resource number.

PLEASE EMAIL ALL Shift tickets, CTRs, and General Messages TO YOUR REGION ADMIN.

Hurricane Helen PIO Talking Points PIO – Seth Hawkins 478-951-8286 shawkins@gfc.state.ga.us

- Damage across entire SE region (GFC Regions 4 and 5)
- Chainsaw teams working across the area, 13 chainsaw crews and 11 dozer crews active
- Timber and community tree damage assessments will begin soon
- LSA is now being managed by New Jersey IMT
- Working with GEMA, FEMA, National Guard, GDOT, local EMA's.
- Push safety resources for residents
- PUBLIC SAFETY!!!
- Do not touch storm fatalities. Refer any of that to Seth Hawkins
- Please upload any field photos to:
 - <https://www.dropbox.com/scl/fo/vkdk0xqjhy4y6fim9nar2/AHC8uJiTz5iOSR/RwyrpA7Jg?rlkey=rkqvowck5ioz974w4sit942zd&st=nagelvzr&dl=0>

Field Map for Hurricane Helene Incident Response

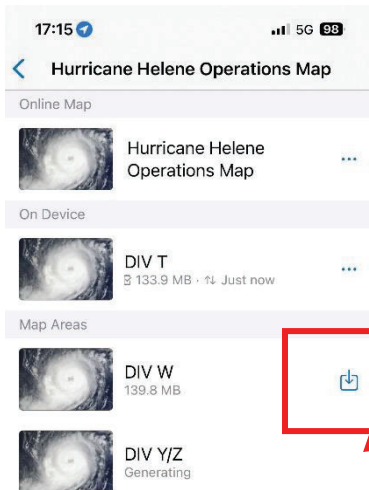

Inside the ArcGIS Field Maps app there is a map called
“Hurricane Helene Operations Map.”

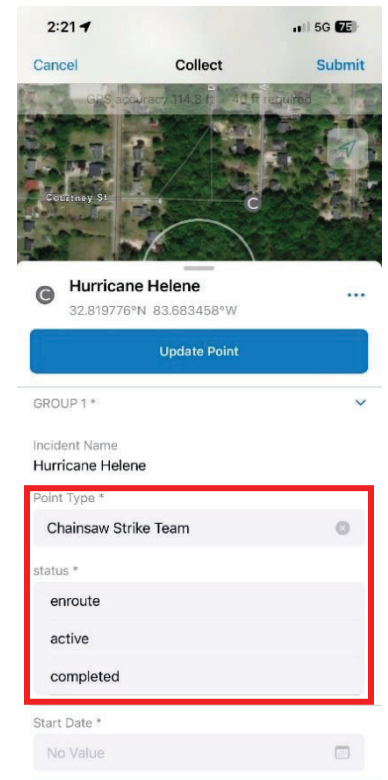

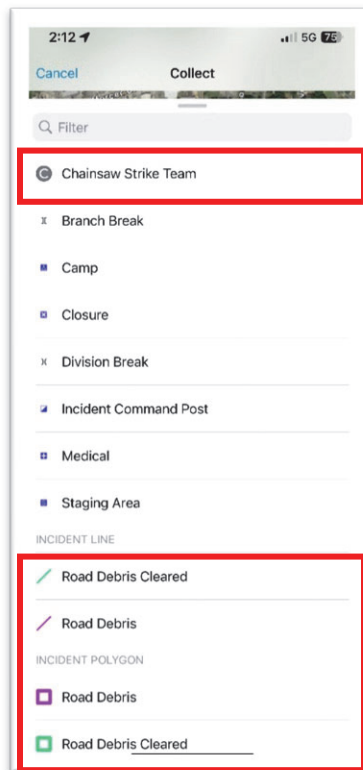

Log in with your GFC ArcGIS account (either the designed County account or the old Area account).

Within the map, mark features such as chainsaw strike team locations and road debris, and fill in their attributes.

WE KNOW CELL SERVICE IS QUESTIONABLE. There is an offline map on the main page. Click on the download button to the right of the map name. Download it when you have service or WiFi.

Click to download offline.

This is your map. Add things that will help you, your crew, or adjacent resources.

Incident within an Incident Plan *(Updated 9/14/15)*

The **Incident Commander** is responsible for overall action in case of a serious accident.

ON SCENE

Upon occurrence of a “**SERIOUS**” incident involving significant injury or fatality within the incident, the highest qualified person on scene shall take control of the situation until the nearest **Division /Group Supervisor** arrives to assume control. Immediate and clear communication must be established between Operations and Division/Group Supervisors to determine who can arrive at the scene quickest and assume control of the situation. In the event of such an incident in camp or on incident roads, on-site personnel shall take control until an **Operations Chief** or **Division/Group Supervisor** arrive or **Local Law Enforcement** and/or **Medical personnel** have assumed control as the **On-Scene Incident Commander**.

Incident Communications or the **On-Scene Incident Commander** will take immediate action to clear all radio traffic on the incident “Command Channel” by broadcasting “**Emergency Traffic Only**”, so that quick and proper coordination for handling the accident can take place.

At no time during the incident will the name of the subject(s) be used over the radio.

Upon arrival at the incident scene, whoever has been designated to manage the incident (Operations Section Chief or Division/Group Supervisor) should take immediate actions to:

- Identify and mobilize medical personnel to the scene – notify them you are in charge.
- Coordinate appropriate transportation for injured personnel.
- Restrict unnecessary personnel from the accident scene.
- Secure the scene area and identify witnesses for investigation.

The nearest **Line Safety Officer** will respond immediately to the scene to assist the **On-Scene Incident Commander** and shall be responsible for initiating the proper investigation and documentation by qualified personnel.

ICP

Immediately upon notification of a serious incident requiring emergency action, the **Incident Commander**, **Medical Unit Leader**, **Planning Operations**, **Safety Officer**, and **Air Operations** shall respond to the incident communications facility in order to support the incident. The **Medical Unit Leader** will normally physically operate the radio during the patient assessment/care portion of the incident. In the absence of the **Incident Commander**, The **Planning Section Chief** will assume the supervisory role.

Planning Section Chief, **Logistics Section Chief**, **Finance Section Chief** and **Public Information Officer** shall be notified and may be requested to respond to incident communications as dictated by specific emergency needs.

Public Information Officer is responsible for managing external communication. All information released from the incident shall be through the **Public Information Officer** with the approval of the **Incident Commander**.

The **Incident Commander** will make contact with the **Agency Administrator** who will in turn contact appropriate officials of the agency. If the accident involves a fatality, the **Agency Administrator** will be responsible for implementing Agency specific protocols for dealing with the incident.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
