Health and Safety Message

Incident: Hurricane Helene Response

Date: September 29, 2024

Hazards and Risks: Heavy Equipment, Chainsaw safety, Driving, Hydration

Working around Heavy Equipment:

-Equipment: Always use a spotter when backing up. Stay clear of heavy equipment as the line of sight is limited for the operator. When working around equipment at night, be sure to utilize head lamps and high visibility vest.

Chainsaw safety:

-Always use a swamper when using the saw. Full PPE including hard hats, chaps, gloves, ear and eye protection must be worn when operating a saw or working as a swamper. Conduct frequent, scheduled briefings to ensure situational awareness.

Driving:

-Roads: Roads may become busy due to additional traffic from storm evacuations. Use caution when entering and exiting the work areas along the highway.

- Do not text or use the phone when driving, if you need to use a cellular device, pull over or put it in a "hands free" mode.

- Wear seat belts and turn on head lights and strobe lights when driving at night or when conducting operations on the line or in hazardous conditions

- Be on the lookout for hazards such as down power lines, down trees and other storm debris on the roadway.

Hydration:

-Drink plenty of fluids, take breaks and monitor your body and your fellow team mates. IF YOU SEE SOMETHING-SAY SOMETHING. Heat related injuries or illness can become serious quick. For information on Heat Related Injury (HRI), refer to page 110 of your IRPG

Safety officer: Danny Gore

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, base stations, mobile or portable radio.
