Fire Weather Planning Forecast for Southwest Arkansas...
Northwest Louisiana...East Texas...and Extreme Southeast Oklahoma
National Weather Service **Shreveport LA**
PRODUCED: 221 PM CDT Sun Sep 24 2023

Had some beneficial rainfall Sunday morning and early afternoon across much of the area. Additional showers and thunderstorms will redevelop Sunday across portions of east Texas before moving into other areas into the evening and overnight hours. With the rainfall, fire weather concerns should remain low Sunday and on Monday. *We will see some additional rain chances for Monday and Tuesday before things start to dry up some across the region towards the middle and end of next week.*

9/29 FRIDAY...Mostly clear. Lows in the upper 60s. Highs around 90. East winds 5 to 10 mph.

9/30 SATURDAY...Mostly clear. Lows in the mid 60s. Highs in the lower 90s. East winds around 5 mph.

10/1 SUNDAY...Mostly clear. Lows in the mid 60s. Highs in the lower 90s. East winds around 5 mph.

Fire Weather Planning Forecast
National Weather Service **Lake Charles LA**
PRODUCED: 300 AM CDT Sun Sep 24 2023

Isolated to scattered afternoon showers and thunderstorms will be possible Sunday. Otherwise, hot once again with highs in the mid to upper 90s and minimum relative humidity values in the 45 to 50 percent range across the region Sunday. *A stronger upper level disturbance expected to bring higher chances of showers and thunderstorms for Monday into Tuesday.* Cloud to ground lightning will pose a threat for wildfire initiation.

FIRE BEHAVIOR OUTLOOK

FIRE NAME: Initial Attack	OUTLOOK PERIOD (valid time period): 09/25-27/2023
DATE ISSUED: 09-23-2023	TIME ISSUED: 1600 central
UNIT: State of Louisiana and Mississippi	SIGNED: /s/ Gary Jarvis FBAN

WEATHER/CLIMATOLOGY DISCUSSION:

Check the daily fire weather forecast for the NWS zone that you are working in.

Outlook as of 1600 on 9/23/2023

Moisture levels will begin to increase Sunday night as an upper system approaches the area. Monday and Tuesday may see a little higher humidity levels, but much of the area is unlikely to see significant rainfall. However, dry air moves back into the area Wednesday through Friday and afternoon relative humidity will once again drop into the 30-35% range.

Sea breezes that bring a sharp wind shift and gusts as high as 20-30 mph later in the afternoon are possible along the coast of Louisiana and Mississippi.

Any lightning will pose a risk of lightning-ignited wildfires.

FIRE BEHAVIOR DISCUSSION:

A Fire and Fuels behavior Advisory has been issued for Louisiana and Mississippi. Very hot temperatures are forecast to dry out fuels and increase ERC values in the MS and LA over the next couple weeks. Widespread KBDIs above 700 are indicative of the continuing drought throughout MS and LA.

Expect moderate to extreme fire behavior with the potential for a rapid transition to crown fire in brush and timber fuels.

Expected Fire Behavior for Sunday (09/24) through Tuesday (09/26):

GS3-Grass/Shrub: ROS 15 to 47 CPH, FL 6-10 feet. Expect FL in excess of 10 feet and ROS exceeding 48 CPH in areas dominated by denser grass fuels.

7-Southern Rough: ROS 13 to 38 CPH, FL 5-7 feet. Expect passive crown fire. Active crown fire possible especially where terrain and wind align and from outflow winds near isolated thunderstorms.

TU2-Timber: ROS 5 to 15 CPH, FL 3-4 feet. Expect passive crown fire. Active crown fire possible especially where terrain and wind align and from outflow winds near isolated thunderstorms.

Spotting up to ¼ of a mile away has routinely been reported on recent fires, including small initial attack fires. The peak probability of Ignition is 70. PI > 70% HIGH PROBABILITY OF SPOT FIRES

ROS-Rate of Spread, CPH-Chains per Hour (1 chain = 66 feet) 40 chains per hour is .5 miles

In the event conditions change forecasts may need to be revised. Major changes may include,

- 1) Major change in weather forecast
- 2) Widespread rains
- 3) Observed fire behavior is not well represented by forecast

In the event reassessment criteria is met, request a spot weather forecast and an updated fire behavior forecast.

SAFETY

1) Outflow from thunderstorm can create wind shifts and unexpected increase wind speeds. Thunderstorms can blow wildfires out of containment, change the fire's direction and/or cause a significant change in the wildfire's intensity and behavior. Thunderstorms have been a direct factor in the death and serious injury to many firefighters.

FY23 LICC Fire Support

DEMOBILIZATION CHECK-OUT PROCESS

This incident is using a virtual checkout process for demobilization.

Please do not leave the incident until the following steps have been completed!

1. SUPERVISORS:

A. When you identify excess resources

OR

B. 72 hours prior to demobilization date (timing out), call the DMOB to provide tentative release details.

2. **RESOURCE:** If you need a flight home, call the DMOB to provide your Name and DOB (as shown on ID) and to confirm the details for your flight reservation.

3. **RESOURCE: On your demob date**, please check out with the following units:

- INSPECTIONS
 - CONTRACT RESOURCES: Post-inspection is required.
 - Other Resources: Courtesy inspections provided upon request.
 - Inspections will be completed through Ground Support EQPM. Call to schedule time and location. Jonathan Jones: 731-336-6058
- TIME/FINANCE – Ensure that all CTRs and/or shift tickets have been submitted and you have received your final, signed OF-288 Time Report or OF-286 invoice.
(2023.lalic.support.finance@firenet.gov)

4. **RESOURCE: Once you have completed the above steps**, call the DMOB to provide your travel plan details.

PLEASE DO NOT BEGIN YOUR TRAVEL UNTIL ALL PRIOR STEPS HAVE BEEN COMPLETED!

Contact DMOB for any questions!

Hours: 0700-2030

LICC FIRE SUPPORT & IDA INCIDENT

FINANCE PROCEDURES

Resources assigned to LICC Fire Support and the Ida fire are requested to submit all finance documents electronically to the email listed below.

Finance Email: 2023.lalic.support.finance@firenet.gov

Please email electronic copies of the following documents as applicable:

- Contract/Agreement/State Cooperative Agreement
- Casual Hire Form (ADs)
- Resource Order
- Crew Manifest

The preferred method of turning in CTR's, Shift Tickets, or other associated time documents is direct to our Finance email. Electronic copies can include PDF, scanned copies of documents, or pictures of documents. QR codes and links are below to fillable PDF time documents.

- CTRs and Shift Tickets should be submitted at a minimum, every other day.
- Justifications are required in the remarks when posting Time without meal breaks.
- Hazard Pay is required to be justified in the remarks, such as: "Firefighting on an uncontrolled Fireline."
- VIPR Resources should submit lodging receipts periodically rather than at the time of demob.
- Include your cell phone number on CTR and/or Shift Tickets in remarks.
- Our Finance email does not have an auto reply.

Partial Payments – VIPR Resources should have an interim invoice submitted after 14 days. Please email lodging receipts while assigned to the incident(s) to finance to complete and interim invoice if extending.

Demob – Please notify finance when emailing time documents for your last operational shift to close out time.

Coding Time

Please ensure to include correct incident code on CTRs and/or Shift Tickets based on the information below.

FY23 LICC Fire Support – P8EK6V23 0806

Code to LALIC Support when not assigned to a wildfire during staging.

ABC Misc. – P8EK2123 0806

Code hours working fires less than 300 acres on USFS lands, and all fires in the initial response/mutual aid zone that do not exceed 1 operational period. **VIPR Resources:** code full work shift for day to this code when responding to an IA fire.

Fire Codes – Fires that exceed 300 acres and/or 1 operational period will have to have a new fire code generated that will be provided to code to. Notate on CTRs and Shift Tickets when responding to initial attack fires, include fire name if known.

Logistics

Ordering/Supplies: 2023.lalic.support.ordering@firenet.gov

REMINDER! When writing up a General Message (213), you need at least the following:

1. Person of contact (POC) with phone number
2. Location of items to deliver
3. Date and Time Needed (DTN)
4. Supervisor's signature

SAFETY MESSAGE/PLAN (ICS 208)

LICC Support	2. Operational Period:	Date From: 09/25/2023 Time From: 0700	Date To: 09/28/2023 Time To: 2030
--------------	-------------------------------	--	--------------------------------------

Transfer of Command

This incident has gone through a Transfer of Command the risk for the personnel Increase Significantly.

Here some factors that will increase the risk:

- No or poor briefing of incoming or staying personnel.
- Not knowing who is in command.
- Face -face briefing may not be possible and radio frequencies could be changed.
- Some resources have not checked in and new Command staff may not be aware of the number, type, and locations of all resources.

Mitigation actions:

- Utilize the IRPG briefing check list.
- All resources know who their immediate supervisor is before engaging.

Safety Checklist

- LCES must be established & known to ALL firefighters BEFORE needed.
- Know the major areas of safety concern on fires: firelines, transportation, weather.
- Participate in crew briefings before, during, and after each operational period.
- Drink enough water to replace fluids lost through perspiration. Drink at least one quart of water per hour.
- Drive with headlights on and watch your speed.

For medical emergencies see special instructions on 204s

IWI IC Responsibilities – Division Group Supervisor or Point of Contact

- Take charge of the scene – inform the Division Supervisor and LICC that you are the IWI IC and establish radio communications (frequencies, channels). Identify the emergency name – Division A medical, etc.
- Assign or begin patient assessment (Medical Incident Report - MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to Communications.
- Determine patient transportation through consultation with communications and 911 when needed. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. Unit Log, ICS 214, may be used for initial documentation, but a narrative will be required.
- As appropriate, conduct an After-Action Review to determine successes, areas to improve and lessons learned.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (**Verify correct frequency prior to starting report**)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient as applicable (start with the most severe patient)*

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: **Considerations:** *If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.*

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
