INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY	
TIGER ISLAND	Date/Time From: 08/31/2023 0700 THU	Date/Time To: 08/31/2023 2400 THU
3. Objective(s):		
<ol style="list-style-type: none"> 1. All operations will be conducted with safety of the public and firefighters in mind. Protection of life and property is your highest priority task. When in doubt, sacrifice acres rather than firefighter and public safety. 2. Provide public information regarding fire danger to maintain good awareness of the risk and hazards to the public. Coordinate with LDAF Public Information Officer at (225) 975-7532 or presssecretary@ldaf.la.gov and State Fire Marshal's Public Affairs Director at (225) 620-5115 or ashley.rodrique@la.gov. 3. Manage the human resources assigned to fire incident in a manner that promotes mutual respect and is consistent with interagency human resource objectives. The team will handle EEO complaints in consultation with LDAF Human Resources involving personnel attached to the team. 4. Continue partnership and coordination with the appropriate LDAF, State Fire Marshall, GOHSEP, and local public safety officials. 5. Manage incident in a cost effective manner. 		
4. Operational Period Command Emphasis:		
Stop, Think, Discuss then Act, and ensure LCES is in place prior to engaging the fire. The Tiger Island Fire receives a strategic, risk-based response, commensurate with the threats and opportunities, and uses the full spectrum of management actions, that consider fire and fuel conditions, weather, values at risk, and resources available.		
General Situational Awareness:		
Watch Out Situations: Extreme heat, dry fuels and fire behavior. Aviation use and possible long medivac times. Cumulative fatigue.		
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>		
Approved Site Safety Plan(s) Located		
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):		
<input type="checkbox"/> ICS 202 <input type="checkbox"/> ICS 203 <input type="checkbox"/> ICS 204 <input type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input type="checkbox"/> ICS 206	<input type="checkbox"/> ICS 207 <input type="checkbox"/> ICS 208 <input type="checkbox"/> ICS 220 <input type="checkbox"/> Map/Chart <input type="checkbox"/> Weather Forecast/Tides/Currents	Other Attachments: <input type="checkbox"/> _____ <input type="checkbox"/> _____ <input type="checkbox"/> _____ <input type="checkbox"/> _____

To: All Incident Personnel, Tiger Island Fire

As Southern Area National Type I Incident Commander, I am committed to a policy of “zero tolerance” of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated. Known or reported acts will be dealt with appropriately.

I am particularly concerned about the perception that alcohol has a place in any of the Incident facilities. It is not appropriate to indulge in alcoholic beverages during any fire assignment.

The Southern Area Red Team has a policy of “NO ALCOHOL” from the time of dispatch until the time of physical release from the Incident. Members of the Team voluntarily comply with this policy; all incident personnel will be expected to do so also.

We endorse, support, and expect an attitude of mutual respect for all Incident personnel and the public we serve. We also, endorse the attitude and work ethic that places “Safety First, every time on every Incident.” We expect nothing less.

/s/Steve Parrish

Incident Commander

SA Red Team

Fire Weather Forecast

FORECAST NO: 04
PREDICTION FOR: Thursday and Thu Night
DATE: August 31st, 2023
FORECAST ISSUED: 1800 August 30th, 2023

Fire: Tiger Island
UNIT: LA-LAS-000252
Incident Meteorologist: *Jeremy Michael*
Signed: JRM (304-886-2331)

WEATHER DISCUSSION:

*****RED FLAG WARNING 10 AM to 8 PM *****

After a morning of poor/low RH recovery, A Red Flag Warning will go into effect from 10 AM until 8 PM. This is a result of hot, very dry conditions, and wind gusts up to 17 mph. RH will be slow to moisten into the evening, with recoveries into Friday morning rather poor in the 50-60% range. Friday will be similar to today, with the possibility of another Red Flag Warning. By Friday evening, the sea breeze may reach the fire area bringing brief gusty winds, but finally a return of excellent RH (90-100%) recovery by Saturday morning.

TODAY:

WEATHER: Sunny and hot.
MAX TEMP: 96-99° **HEAT INDEX:** 95-98° **MIN RH:** 20-25%
PROBABILITY OF PRECIP: 0% **CHC WTG RAIN:** 0% **LAL:** 1
WINDS (20 feet): NE 6-11 mph with gusts up to 17 mph.
MIXING HEIGHT: Weak morning inversion. 9,000-10,000 ft during the afternoon.
TRANSPORT WIND: NNE 9-14 mph.

TONIGHT:

WEATHER: Clear and dry.
MIN TEMP: 69-72° **MAX RH:** 50-60%
PROBABILITY OF PRECIP: 0% **CHC WTG RAIN:** 0% **LAL:** 1
WINDS (20 feet): NE 3-8 mph.
TRANSPORT WIND: ENE 4-9 mph.

FRIDAY:

WEATHER: Sunny and hot.
MAX TEMP: 98-101° **HEAT INDEX:** 97-100° **MIN RH:** 24-29%
PROBABILITY OF PRECIP: 10% **CHC WTG RAIN:** 5% **LAL:** 1
WINDS (20 feet): ENE 4-9 mph with gusts up to 16 mph. Sea breeze with gusty winds to 20 mph possible during the early evening. Low confidence at this time.
MIXING HEIGHT: Weak morning inversion. 10,000-11,000 ft during the afternoon.
TRANSPORT WIND: E 4-9 mph.

EXTENDED OUTLOOK: SATURDAY - MONDAY: Saturday into Monday, flow remains onshore with improved afternoon min RH and the return of recoveries upwards of 90%. As moisture increases across the region, showers/storms are becoming increasingly likely during this time period. At this time, odds of a wetting rain (0.25"+) are around 30-40% each afternoon. Uncertainty remains with the evolution of this system, so confidence is low. However, confidence is much higher for increased humidity and lessening fire weather concerns.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 07	TYPE OF FIRE: Wildland, Type 1
FIRE NAME: Tiger Island	OPERATIONAL PERIOD: Day and Swing Shift
DATE ISSUED: Wednesday, August 30, 2023 Time Issued: 1800	SHIFT DATE: Thursday, August 31, 2023
UNIT: Private Lands	SIGNED: Alison Coons, FBAN 

WEATHER SUMMARY:

Local Thresholds – Watch Outs Temp >80°, Min RH < 35%, Winds > 20 mph	Forecast for Today Temp: 99°, Min RH: 20%, Winds: 10-15 mph Gust 25
---	---

FIRE BEHAVIOR:

Fuels are critically dry. **KBDI and ERC values are at record levels.** Fuel conditions combined with gusty winds, especially during the afternoon, have the potential to produce extreme fire behavior. Fires may exhibit erratic and explosive growth behavior. Be alert for thunderstorms in the fire area during the afternoon that could cause strong erratic winds. Isolated heat points displayed on IR maps could transition into active flame as drying continues.

Live fuel moisture samples collected at the north end of Division O on 08/29 ranged from 49 to 59 percent moisture, MEANING they are well into the transition of live fuels contributing to fire intensity and spread as if they were dead fuels.

Fire Behavior based on values for the fuel models shown.

Vegetation	Fuel Model	Max Rate of Spread	Flame Length
Grass/Shrub	GS3	118 ch/hr ~ 1.5 miles/hr	11 feet
Southern Rough	7	94 ch/hr ~ 1.2 miles/hr	10 feet
Timber Litter and Understory	TU2 / TL6	39 ch/hr ~ .5 miles/hr	6 feet

During peak heating expect **Spotting** distances up to **0.5 miles** from wind driven ground fire and slightly less from torching trees.

Probability of Ignition Day = **70%**

A new spot fire or ignition in the afternoon could reach **2 acres** in an hour in sheltered timber and **8 acres** where grass/shrub and southern rough fuels are continuous. If exposed to wind gust at or above 20 mph the potential size could more than double!

Specific Areas of Concern:

All Divisions: Live fuels are dry enough to act as dead fuels and support fire spread in the same way. Isolated heats are still showing near lines that could develop into open flames and spread as needles and leaves continue to fall.

Div A: Where reburn potential and unburned areas exists, short runs encouraged by northerly winds are possible in the afternoon and early evening.

Div F: North and northeast winds could encourage rapid fire spread on the west side of the division and along Nichols-Sibley Rd.

Div J: Isolated and scattered heat remain close to the lines. Watch for torching and short runs where fuels are continuous.

Div O and W: Isolated and scattered heat remain close to the lines. Watch for torching and spotting. North winds will continue to test lines across both divisions.

Air Operations:

Generally good conditions for air operations, gusting winds may cause some issues. Increased smoke from interior or new starts will reduce visibility.

Fire Behavior Safety Message

Reassess your situation and mitigate hazards if you have any doubts about your escape routes or safety zones or if the situation becomes too complex. The Tiger Island Fire has numerous changes in vegetation type and age throughout providing for a broad range of fire behavior possible.

HEALTH AND SAFETY MESSAGE

INCIDENT: Tiger Island	DATE: 08/31/2023 Period: Day-Swing	Operational
------------------------	---------------------------------------	-------------

Major Hazards and Risks:

1. Traffic and Driving 2. Fire Weakened Trees 3. Heat/Dehydration 4. Heavy Equipment Ops

Symptoms of Dehydration

Thirst isn't always a reliable early indicator of the body's need for water. Many people, particularly older adults, don't feel thirsty until they're already dehydrated. Dehydration occurs when you use or lose more fluid than you take in, and your body doesn't have enough water and other fluids to carry out its normal functions. If you don't replace lost fluids, you will get dehydrated.

The signs and symptoms of dehydration also may differ by age.

- Extreme thirst
- Less frequent urination
- Dark-colored urine
- Fatigue
- Dizziness
- Confusion

Heat Exhaustion Symptoms

- Clammy skin
- Dizziness
- Headache
- Muscle cramps
- Extreme thirst
- Excessive sweating (hyperhidrosis)
- Dehydration
- Fainting
- Nausea
- Vomiting
- Weakness
- Decreased urine output

Prevention

- Loosen the clothes or wear loose fitting clothes.
- Drink plenty of fluids and stay hydrated.
 - Water
 - Gatorade & Water 1:4 Ratio
 - Eliminate Caffeine products
- While doing a strenuous exercise, stop and rest.
- Using sunscreen, SPF >15
- Move to air-conditioned spaces in case of extreme heat.

Backing Accidents

- Use a spotter
- Get out and look around your vehicle before backing for hazards
- Park so you can pull in forward and drive thru when exiting
- Continually check your mirrors, camera, and back window

Tiger Island Risk Assessment

Incident Safety Officers: Brad Lidell, Joe Castro, Tommy Hawkings, Ed Bratcher(t), and Jason Rose(t)

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (Project 25).

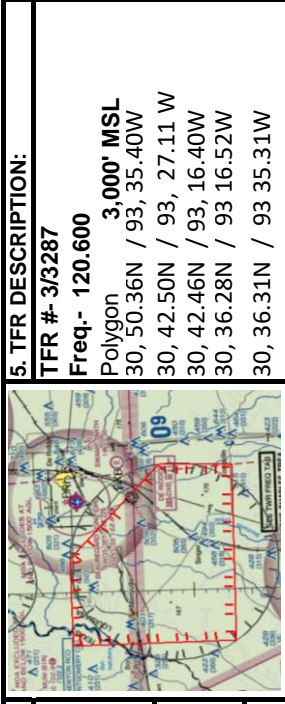

***** Special Instructions: Use Human Repeater When Necessary.**

FINANCE

Finance Processes:

- **If you are an AD**, we need a copy of your **Casual Hire** form & **Resource Order**.
- **If you are a Cooperator or Contractor**, we need a copy of your **Agreement/Contract** and **Resource Order**.
- **All Contract/Cooperator Equipment** needs to have a **Pre-Use Inspection** form.
- **If you are a Crew**, we need a copy of your **Manifest** as well as the documents mentioned above.
- **If you are an Overhead Resource**, we need a copy of your Resource Order.

ALL: Please email your CTRs, Shift Tickets and any of the documents mentioned above as a PDF or JPEG to: 2023.tigerisland.finance@firenet.gov

In the SUBJECT LINE put OVERHEAD with O# or EQUIPMENT with E# to help identify the content in the email.

Finance Fire Codes

FWS Code: FFF2500000QK8T0

NPS Code: PP.FSQK8TD23.00.1

USFS code: (1522) PNQK8T

The finance staff will attend all briefings. If you have any questions or need assistance in submitting your information!

Training Message

ALL Trainees:

If you are working as a trainee on the Tiger Island Fire, no matter the position, please check in with the Training Specialist. Bring your Task Book, your red card, your Order #, and your coach/evaluator to the Training Specialist at the Check-In table inside the front door in the ICP.

This will take you less than 5 minutes. It will help us track numbers and positions and it will produce a good training packet that will be emailed to the person you designate to document your experience.

Greg Seamon
Training Specialist

TIGER ISLAND INCIDENT

LA-LAS-000252

DEMOBILIZATION CHECK-OUT PROCESS

This incident is using a virtual checkout process for demobilization. **Please do not leave the incident until the follow steps have been completed!**

1. **24 hours prior** to demobilization date, please ensure that:
Your incident supervisor has submitted a [Demob Request Form](#).
 - in coordination with the Demob unit.
 - If you need a flight arranged for you, please submit a [Flight](#) Request Form.
2. **On your demob date**, please check out with the following units.
 - Supply Unit – Return gear and supplies.
 - Ground Support/Weed Wash – Return pool NERV rentals, receive inspections, etc.
 - Communications Unit – Return Radios and other communications equipment.
 - Time/Finance – Ensure that all CTRs and/or shift tickets have been submitted and **you have received your final, signed OF-288 Time Report or OF-286 invoice.**
3. **Once you have completed the above steps**, please fill out the [Demob Check Form](#) and contact the Demob Unit Leader to confirm your release from the incident. **PLEASE DO NOT FILL OUT THE DEMOB RELEASE FORM UNTIL ALL PRIOR STEPS BEEN COMPLETED!**
Demob Unit Leader: (480) 420-7735, 2023.tigerisland.demob@firenet.gov

IWI IC Responsibilities – Division Group Supervisor or Point of Contact

- Take charge of the scene – inform the Division Supervisor and Tiger Island Communications that you are the IWI IC and establish radio communications (frequencies, channels). Identify the emergency name – Division A medical, etc.
- **For backup IWI communication, call the IWI phone: (208) 891-6743.**
- Assign or begin patient assessment (Medical Incident Report - MIR) and first aid. Request additional medical resources on division/branch or across incident. Transmit MIR patient information to Communications.
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.
- As appropriate, conduct an After Action Review to determine successes, areas to improve and lessons learned.

7. Division Branch Group	Area Location Capability	
Div A	EMS Responders & Capability:	<i>None Assigned</i>
Div F	EMS Responders & Capability:	Ambulance: LA 007 (ALS) 903-824-0219 EMPF Jason Olson (ALS) 760-445-4477 Medic Team 1 (Fireline ALS UTV) 479-236-6684

Div O/W	EMS Responders & Capability:	<i>None Assigned</i>
Night	EMS Responders & Capability:	Ambulance: LA 013 (ALS) 318-548-0349 Ambulance LA 010 (ALS) 318-218-4954
ICP	EMS Responders & Capability:	Nick Arnett (BLS) 408-888-1900 Fred Adler (BLS) 479-238-6064

For medical emergencies use CMD Repeater or (208) 891-6743.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON-SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o – 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o – 3^o burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Evacuation Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + Medical (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. EVACUATION PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, crews, immobilization devices, AED, oxygen, trauma bag, IV/fluid(s), splints, rope rescue, wheeled litter, HAZMAT, extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead..

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETAs of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
