

Juniper Road Two

NC-NCS-220044

Beacon Code 1386

Incident Action Plan

Tuesday, August 16, 2022

Day shift 0700 – 2000

IAP & Maps QR Code

INCIDENT OBJECTIVES	1. Incident Name Juniper Road Two	2. Date Prepared 08/15/22	3. Time Prepared 1900
4. Operational Period Tuesday, August 16, 2022 0700 to 2000			
5. General Control Objectives For The Incident (Include Alternatives) <u>Operational Objectives</u> <ol style="list-style-type: none"> 1. Provide for the safety of all responders, and the general public by: <ul style="list-style-type: none"> ○ Using the deliberate risk management process to identify hazards and mitigate risks throughout the duration of the incident. ○ Insure that effective 2-way communication occurs so that all personnel have a clear understanding of their assignments. ○ Provide for firefighter safety by following 10 Standard Fire Orders, 18 Watch Out Situations and maintaining 2:1 work to rest ratio. ○ Implement and maintain effective COVID-19 mitigation measures, adhering to CDC guidelines, and by managing all COVID-19 exposures and positive tests if they occur. 2. Implement cost effective strategies to contain and control the fire East of Bear Garden, south of Flow Road, West of the powerline that runs from Lodge Road to Hwy 50 and North of Lodge Road. 3. Maintain accurate and current cost estimates of the incident and provide information daily to the Central Office. 4. Keep adjoining agencies, cooperators, general public, and surrounding partners informed on fire status through direct communication and media releases as deemed necessary. 5. Build and maintain relationships with incident personnel, cooperators, and impacted groups or individuals by fostering an environment that promotes teamwork, respect, and that is free from discrimination and harassment. 6. Train and develop personnel by providing a high quality training assignment and working on the completion of Position Task Books throughout the duration of the incident.

HEALTH AND SAFETY MESSAGE

Always Be Careful

INCIDENT: Juniper Road Two DATE: 8/16/22 TIME: 0700-2000

Major Hazards and Risks:

- **Driving & Traffic:** During travel back to your home unit you will encounter many driving hazards. Practice defensive driving techniques. Observe posted speed limits along your route. Allow at least a 3-second following distance behind other vehicles. Watch for slow moving vehicles and slow down early if you find yourself behind any. Clean your windows so you can see the world around you clearly.
- **Heavy Equipment:** Utilize 3-points of contact when getting on/off equipment. Plan and discuss travel routes prior to departing. Load equipment on level ground to prevent sliding off of the trailer. Bystanders need to be in front of hauling units as equipment is loaded.
- **Heat Related Illness (HRI), Dehydration & Solar Radiation:** Acclimate to your environment. Stay ahead of the hydration curve. Hydrate throughout and following each shift. Maintain a water/sports drink ratio of at least 3:1. Listen to your body and acknowledge any symptoms of heat related illness. Recognize and point out any signs of dehydration or HRI in others. Act quickly to reverse such symptoms and always report health issues to your supervisor promptly.
- **Thunderstorm Safety:** Take shelter in low lying areas. Sit or crouch if in open country and avoid grouping together. Take shelter in a vehicle if possible and turn off all machinery. Advise personnel that if they feel an electrical charge – if their hair stands on end or their skin tingles – lightning may be about to strike them. They should drop to the ground immediately.
- **COVID-19:** Cover your mouth and nose when coughing or sneezing. Practice physical distancing. Wash your hands regularly with soap and water or use hand sanitizer. Monitor for signs and symptoms and let your line supervisor know if you feel unwell.

Do your work with pride. Put safety in every stride

Watch Out Situation

11. UNBURNED FUEL BETWEEN YOU AND THE FIRE

Lightning Activity Level (LAL)

Is a scale which describes lightning activity. Values are labeled 1-6:

LAL 1	No thunderstorms
LAL 2	Isolated thunderstorms. Light rain will occasionally reach the ground. Lightning is very infrequent, 1 to 5 cloud to ground strikes in a five minute period.
LAL 3	Widely scattered thunderstorms. Light to moderate rain will reach the ground. Lightning is infrequent, 6 to 10 cloud to ground strikes in a 5 minute period.
LAL 4	Scattered thunderstorms. Moderate rain is commonly produced Lightning is frequent, 11 to 15 cloud to ground strikes in a 5 minute period.
LAL 5	Numerous thunderstorms. Rainfall is moderate to heavy. Lightning is frequent and intense, greater than 15 cloud to ground strikes in a 5 minute period.
LAL 6	Dry lightning (same as LAL 3 but without rain). This type of lightning has the potential for extreme fire activity and is normally highlighted in fire weather forecasts with a Red Flag Warning.

Weather Forecast 8/16/22

Frontal boundary dropping south and stalling near the coast Tuesday will keep rain chances elevated most of the day, mainly near the coast. The front will meander across the region for the rest of the week along with the occasional passage of mid-level impulses embedded within the NW cyclonic flow aloft. This will keep a higher-than-normal chance for daily showers and thunderstorms each day.

. TUESDAY...

Sky/weather.....Mostly cloudy (80-90 percent). Showers likely and chance of thunderstorms.
 Max temperature.....Around 79.
 Min humidity.....84 percent.
 Wind (20 ft).....Light winds becoming east 5 to 6 mph late in the morning. Gusty and erratic winds expected near thunderstorms in the morning.
 Max mixing hgt.....2600 ft AGL.
 Transport winds....East around 5 mph shifting to the south in the morning, then shifting to the west around 12 mph late in the morning shifting to the south 12 to 14 mph early in the afternoon shifting to the east 10 to 14 mph.
 Max vent rate.....Marginal (36043 mph-ft).
 Max LVORI.....8.
 Max ADI.....41.
 Haines Index.....3 or very low potential for large plume dominated fire growth.

. TUESDAY NIGHT...

Sky/weather.....Mostly cloudy (75-85 percent). Showers likely early in the evening. Chance of thunderstorms through the night. Chance of showers.
 Min temperature.....Around 68.
 Max humidity.....100 percent.
 Wind (20 ft).....Northeast winds around 5 mph early in the evening becoming light. Gusty and erratic winds expected near thunderstorms.
 Min mixing hgt.....500 ft AGL.
 Transport winds....East 6 to 14 mph shifting to the west around 6 mph late in the evening, then shifting to the north 13 to 16 mph in the late evening and overnight.
 Min vent rate.....Poor (3119 mph-ft).
 Max LVORI.....8.
 Min ADI.....4.
 Haines Index.....3 or very low potential for large plume dominated fire growth.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 3

TYPE OF FIRE: Wildfire

FIRE NAME: Juniper Road Two

OPERATIONAL PERIOD: 8/16/22

DATE ISSUED: 8/15/22

TIME ISSUED: 1800

UNIT: NCFS District 8

SIGNED: Keith R Money FBAN(T)/David Greathouse FBAN

WEATHER:

****Chance of Rain ****

See fire behavior forecast for details

Weather Threshold's That Shout WATCH OUT

(Per South Coast FDRA Pocket card)

Temperatures greater than 65°, relative humidity less than 35%, 20' winds greater than 10mph

FUELS:

The fuels in the fire area mainly a low pocosin. Areas of the fire has active ground fire that can contribute to control issues and increased fire intensity.

The fuels average to above average for this time of year. The current ERC-X is hovering around the 35th percentile. The 100-hour fuels are at 18% for South Coast FDRA and 1000 hour-fuels are at 19%. 1000 hour-fuels are below average and can contribute to fire intensity.

Today's calculated fine dead fuel moisture is predicted to be 14% (Note: This is fire behavior, not fire danger calculations).

FIRE BEHAVIOR:

Fire activity will minimal today. Rain and high RH values should keep fire activity low. Some smoldering and creeping could occur late in the day if wind picks up without precipitation.

Maximum Surface Fire Potential

Rate of Spread	Flame Length	Probability of Ignition
0-7 ch/hr	0-3'	0-15%

Rule of thumb: Flanking fire could have ROS and FL's of ½ the maximum surface spread. Backing fire will back at 2-4 chains per hour with 3-4' flame lengths.

AIR OPERATIONS:

No impacts forecasted

SAFETY:

Fire Order #1 – Keep informed on the fire weather conditions and forecasts.

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards: [Click or tap here to enter text.](#)

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND	Event Golf 2				
AIR-TO-GRND	Zone 14 Incident ch. 8				
TACTICAL	Division A Zone 14 ch. 1 Division C Zone 14 ch. 2 Contingency Zone 14 ch. 5				

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

Juniper Road Two Fire

COVID Response Actions

All agency COVID protocols will be adhered to.

1. Any reported cases of an employee exposure to COVID or if an employee is showing signs/symptoms of COVID it will be immediately reported your incident supervisor and the incident supervisor will pass this information through the Chain of Command. The Medical Unit will then review the report and determination of further actions required.
2. Upon the Medical Unit review and determination of need, the employee will receive a Rapid COVID Test.
3. The Medical Unit will contact the appropriate medical facility for support with conducting the Rapid COVID test.
4. The medical facility will conduct the Rapid COVID Test and read the results to determine the employee's positive or negative status.
5. For a Vaccinated employee:
 - If the employee shows signs of COVID, they will be tested.
 - If employee test result show negative, then employee will return to their duty assignment on the incident.
6. For an Unvaccinated employee:
 - If the employee shows signs of COVID, they will be isolated/quarantined from other employees until they can be tested.
 - If employee test result show negative, then employee will return to their duty assignment on the incident.
7. If an employee tests positive for COVID:
 - The employee will be Demobed and return home if they came in their own vehicle.
 - If the employee came in an engine, the employee that test positive and the crewman will be Demobed and will return to their home unit.
 - If there is no vehicle available, the employee will need to remain in quarantine until such time as they can return home.

DEMOBILIZATION PROCEDURES FOR INCIDENT PERSONNEL

1. Supervisors, OPS/IC need to identify surplus resources to be released. These requests must be submitted to DMOB on General Message Form (ICS 213) including name, resource number, last shift date, and release/travel date. The DMOB unit should be given at least 24-hour notification for all resources. DMOB will share/post upcoming demobilizations.
2. Supervisors must perform evaluations on personnel prior to them leaving the incident. Originals should be brought to the Documentation Unit Leader when demobilizing. A copy will be given to employee. Employee will give copy to their home unit supervisor to be captured in IQS.
3. All personnel approved to be released from the incident will start their demob at the ICP Plans Trailer, where they will receive a Demobilization Checkout sheet (ICS 221) from the DEMOB unit leader.
4. The Demobilization Checkout Form must be taken to the Logistics Section first.
 - a. The Facilities Unit Leader will sign off on Demob sheet after all motel expenses are cleared.
 - b. The Supply Unit Leader will sign off after all supplies are returned.
 - c. The Communication Unit Leader will sign off after all communications equipment has been returned.
 - d. The Ground Support Unit Leader will sign off after equipment inspection is complete. ***If you have any equipment with problems, you must bring this to the GSUL's attention and document prior to leaving the incident. Failure to do so could result in your home unit paying the bill for that repair.***
5. The Demobilization Checkout Sheet will be taken to the Finance Section for completion of Time (CTR) and Equipment (Shift Ticket) reports. Finance will collect the final vehicle inspection form and estimated travel time to home unit. Finance will complete time sheet (FTR) and provide employee a copy. Finance will sign the Demob sheet when all requirements are met. ***Discrepancies on time records must be resolved through appropriate channels before demobilization is completed.***
6. The Demob Sheet will be taken to Documentation Unit leader, who will collect the Performance evaluation (needed for IQS records), daily unit logs, and any other notable documentation.
7. Lastly, the Demobilization Checkout Sheet will be returned to the DMOB Unit Leader. If all requirements are met, they will finalize the form. Personnel/equipment are then approved to be released at the identified time. The DMOB Unit Leader will email a list of personnel/resources demobilizing that day to CO Ops and Regional Ops for home unit notification. ***Personnel must notify their home unit upon arrival home.***

TRAVEL GUIDANCE AND RESTRICTIONS

TRAVEL LIMITATIONS: All demobilized personnel must arrive at their home a.) before 2200 hours and b.) not exceed 16.0 hours of worktime that shift. Beginning travel times must take this into account. If personnel are not able to reach their home by this timeframe, resting-overnight (RON) may need to occur. If it is anticipated that RON will be needed, the DMOB Unit Leader will need to send a General Message Form to a.) the Ordering Manager (ORDM) to request lodging and b.) to the Incident's Buying Team to pay for the accommodations. If an emergency RON is required, personnel should pay for the accommodations and then work with their home unit office manager to process the expense account to the Incident's fire charging code.

All agency personnel will meet their own agency's travel limitations when returning to their home. Out-of-area resources will be required to meet local and regional requirements related to travel.

TRAVEL ROUTE: State agency personnel returning via their agency's vehicles will plan the most direct, most practical routes to their homes. Resources that must travel long distances to home units should file a route plan with the DMOB Unit Leader, and notify their home unit upon arrival.

Public Information

- Media continues to be interested in the fire. If you see any media without escort or need public information assistance please reach out to your PIOs.
- Please take photos and/or video footage and send it via text to Carrie at 910-874-2629 or email carrie.mccullen@ncagr.gov.
- Certificates: If you would like to recognize anyone external to the team that has helped out with Juniper Road Two Fire, let us know and we'll create a certificate for them!

Human Resources Message

Discrimination is the treatment of people based on the group, class, or category to which that person belongs rather than on individual merit.

Your conduct – Treat others with respect. An incident brings together a diverse group of people. Treat others as you would like to be treated. Be sensitive to the culture and value of others.

Your speech – Offensive or derogatory remarks are inappropriate and are not acceptable in a workplace. Language that is OK with you may not be OK with others.

Appropriate Clothing – Whatever the location of the incident, it remains a workplace where appropriate dress is required.

Each of us must take responsibility for our conduct, our speech, and our dress to maintain a professional workplace. We need to treat each other with respect.

Individuals who engage in any form of inappropriate behavior will be released from the assignment and be subject to appropriate disciplinary action.

If you have any issues or concerns, please speak with IC Michael Cheek or Deputy IC Shane Hardee.
