HEALTH AND SAFETY MESSAGE

INCIDENT: NCFS Summer 24 Fire Support

DATE: 06/29/24

Time: 0700-1900

Major Hazards and Risks:

Driving & Traffic: Driving during or after a rain event, whether a sprinkle or a heavy downpour, can be one of the most difficult driving situations a driver encounters. Rainy conditions are directly associated with higher collision rates. Watch out for slicker conditions on forest and paved roads. Increase your following distance to 5 plus seconds. **When backing up, ALWAYS USE A SPOTTER.**

TRAFFIC HEADS UP! It's the weekend and beach traffic can be crazy busy. Drive defensively!

Heat Related Illness (HRI) & Dehydration: Acclimate to your environment. Stay ahead of the hydration curve. Hydrate throughout and following each shift. Maintain a water/electrolyte ratio of at least 3:1. Listen to your body and acknowledge any symptoms of heat related illness.

Safety In Snake Country: Leave snakes alone. Most bites occur when people get too close or try to kill a snake. Never touch a snake, even if you think it is dead. Don't stick your hands or feet where you can't see. If bitten, seek immediate medical attention. Identify the type of snake if possible (poisonous or non-poisonous).

Accidents: *Identify on scene IC and CALL 911, follow 8 Line, make sure patient is secure and in a safe place. Contact your fire line supervisor and inform him/her.*

A good attitude makes safety work for you and those around you!

Thunderstorm Safety

NWS indicates a higher chance of thunderstorms in the area over the next several operational periods

- In the past 5 years, there have been 82 lightning strike deaths in the United States.
- Stay away from tall trees, powerlines or other elevated conductive objects.
- Don't hesitate. Seek shelter in a vehicle or sturdy building as soon as you hear thunder.
- If on the fire line and far from your truck, move to an area with shorter trees.
- Don't group resources together.
- Don't operate machinery or electric motors.
- Don't resume work in exposed areas until 30 minutes after storm activity has passed.
