TUESDAY, MAY 7, 2024

0700-1900 HOURS

OK-CHP-001120

IAP QR Code

WBS: PX/P0342250A.00.1

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: 7	
CHIC FY24 TORNADO RECOVERY		Date/Time From: 05/07/2024 0700 TUE	Date/Time To: 05/07/2024 1900 TUE
3. Objective(s):			
<p>Prioritize human safety and operational integrity above all else.</p> <p>Ensure park staff have access to critical incident stress management resources.</p> <p>Protect and/or minimize effects of the incident to the cultural, heritage, and natural resources in the park.</p> <p>Provide limited access to key park areas that can safely be open for public wellness and goodwill.</p> <p>Maintain and enhance relationships with stakeholders and the visitors by providing accurate and timely information.</p> <p>Responsibly manage the incident using the Incident Command System (safety, finance, logistics, and documentation).</p> <p>Provide security for vulnerable government assets exposed by the tornado until security mitigations can be reestablished.</p>			
4. Operational Period Command Emphasis:			
<p>Remember why we are here -- service for the common good!</p> <p>Ensure the park is stabilized and prepared for long-term success by addressing hazards, clearing roads and trails of fallen trees and debris, and evaluating and securing infrastructure.</p>			
General Situational Awareness:			
<p>SAFETY FIRST--Yours, your co-workers and the public! Snags, widow-makers, and trees with shallow root systems are abundant. Wear hard hats when you're in affected areas, maintain your situational awareness, be quick to identify hazards and point them out to your co-workers.</p> <p>Check yourself and clothing for ticks and immediately remove them.</p> <p>Poison ivy is prevalent in the area, be aware.</p> <p>Be situationally aware with changing weather conditions.</p>			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
Approved Site Safety Plan(s) Located

Spot Forecast for CHIC Tornado Response...

National Park Service

National Weather Service Norman OK

1220 AM CDT Mon May 6 2024

.DISCUSSION...

Dry conditions are expected through the day with breezy south winds. Thunderstorms will be possible by early evening, generally after 7 PM, with the most likely timeframe between 10 pm Monday night to 2 am Tuesday morning. The overall probability for storms is low in this area (only about 30% chance), but storms that develop will be capable of all severe hazards, including large hail, damaging winds, and tornadoes. Please call our office anytime at 405-325-3816 if you need any additional information.

.TUESDAY...

Sky/weather.....Mostly sunny then becoming sunny.

Surface winds (mph).Southwest winds 5 to 10 mph.

TIME (CDT)	6 AM	10 AM	2 PM
Sky (%).....	34	4	20
Weather cov.....

Surface wnd spd.6		6	8
Surface wnd gst.9		9	13

If you see any individuals wearing this insignia, contact law enforcement with location and description of the individual(s).

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: CHIC Tornado Recovery | **2. Operational Period:** Date From: May 7, 2024 Date To: May 7, 2024

Safety Officer – AJ Johnson (907) 205-0148 and Christina Ryan-Miller (928) 607-0025

MAINTAIN SITUATIONAL AWARENESS AT ALL TIMES

Contact Incident Safety Officer if an injury occurs.

Weather

Check the weather before you start work and periodically throughout the day. Ensure you know where the nearest shelter is to your work location. SEEK SHELTER IF THERE IS A TORNADO WARNING. Seek shelter if there is lightning within FIVE miles.

PPE

This is a large project with many moving parts that may be outside of your normal duties. If you feel you are missing personal protective equipment to help keep you safe, please reach out to your supervisor.

Wildlife

Larger mammals: Feral hogs, bobcats, badgers, black bears, coyotes, foxes, mountain lions.

Reptiles: Rattlesnakes, copperhead snakes, cottonmouth snakes.

Spiders: Black widows, brown recluse.

Other insects: Ticks, scorpions, chiggers, and the usual flying buzzers.

Dangerous plants – castor bean plants, hemlock, several toxic mushrooms, pokeweed, poison ivy.

Heat Stress

If you are not from the local area, the humidity changes the way heat affects your body – ensure that you are hydrating and eating well. Take breaks in the shade or in air conditioning throughout the day to allow yourself to cool off. The effects of heat stress can accumulate over time, so you may feel fine one day and drained the next day – listen to your body.

Driving

The intersection of 177/7 is very busy. Slow down and double check for vehicles and pedestrians in the area. Watch for roadside work. Wear reflective high visibility vests when outside of vehicle and assisting with traffic control. Congestion will increase along 177 with ODOT working with our contractor to remove debris along the edge.

Heavy Debris Removal

Heavy equipment will be used to move large material using towing chains. If you are not part of the debris moving operation in the maintenance yard, you should not be in that work area.

Wellness

CISM team is still onsite for individual meetings. There is also plenty of opportunity to meet with someone one-on-one – work with your supervisor or a member of the IMT for more information.

4. Site Safety Plan Required? No X **Approved Site Safety Plan(s) Located At:** TBD

INCIDENT ACTION PLAN SAFETY ANALYSIS (ICS 215A)

1. Incident Name: CHIC FY24 TORNADO RESPONSE		2. Incident Number: OK-CHP-001120	
3. Date/Time Prepared: Date: 5/6/2024 Time: 1700		4. Operational Period: Date From: 05/07/2024 Date To: 05/07/2024 Time From: 0700 Time To: 1900	
5. Area	6. Hazards/Risks	7. Mitigations	
ALL	Hazard Trees	<ul style="list-style-type: none"> Follow "Hazard Tree Safety" guidelines (IRPG) Consider where you are parking and having conversations – what is above you? Remember the hazard zone extends a minimum of 2 1/2 tree heights. 	
ALL	Heavy Equipment	<ul style="list-style-type: none"> Watch for heavy equipment, and stay out of their general work area, and avoid working below heavy equipment. Use a spotter when backing. Maintain a 50-100 ft exclusion area around equipment. 	
Recovery & Stabilization	Tree Climbing and Lift Use	<ul style="list-style-type: none"> Check all gear prior to climbing. Do not work outside of your comfort and/or skill level. Do not walk under or near trees that are being worked in. 	
Recovery & Stabilization	Hauling Debris	<ul style="list-style-type: none"> Hauling debris with heavy equipment and chains is very dangerous. Ensure all connections are secure. Watch the load during movement to ensure you know how the pile is reacting. Ensure no other personnel are in the work area. 	
ALL	Weather	<ul style="list-style-type: none"> Be aware of changing weather conditions. Watch out for increasing rain, winds, lightning, and flood conditions. 	
ALL	Driving and Traffic	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques traveling on all roads. Use spotters when backing. Follow Driving LCES (Lights, Chock blocks, Emergency brake, & Seat belts). Always use headlights and obey posted speed limits. Use chock blocks, turn wheels into hill when appropriate. Avoid distractions (eating, & cell phones etc.) and use the 3 second rule when following other vehicles. Never drive through standing water on roads. Wear high visibility vests when conducting traffic control operations. 	
ALL	Heat Stress	<ul style="list-style-type: none"> Monitor signs of heat stress in yourself and team members. Maintain an adequate stock of water and healthy snacks to ensure you sustain hydration. 	
ALL	Foreign Debris	<ul style="list-style-type: none"> Wear proper foot, head, and hand protection at all times. Maintain situational awareness to ensure that items react in the way predicted. 	
Recovery & Stabilization	Chainsaw Operations	<ul style="list-style-type: none"> Follow hazard tree safety guidelines (IRPG). Follow "Procedural Felling Operations" (IRPG). Look Up, Look Down, Look All Around for hazard tree indicators. Only fell and buck trees within your expertise levels. Do not fall trees during high wind events. 	
ALL	Animals and Insects	<ul style="list-style-type: none"> Ticks are out in force, so ensure you are using bug spray. Don't forget to do a thorough tick check at the end of the day. 	
ALL	Communication	<ul style="list-style-type: none"> Maintain contact (radio/cell phone etc) at all times with your team and chain of command.

6. Control Operations/Work Assignments:						
<p>Everyone who was previously assigned to guardrail clearance, plan to continue that work until tied in with Hwy 177. Then continue on to the specific group assignments</p> <p>Alpine: Continue work in the Bromide Hill area and Rock Creek Campground. After work is complete, move to NW perimeter road.</p> <p>Black Hills/CHIC Maintenance: Work in the Maintenance yard. Utilize skid steer and loader to move and separate organic and non-organic debris. Clear security fence around the perimeter.</p> <p>Equip Operator/Arborist: Use equipment at Veterans Lake to clear debris. If Flower Park is not oversaturated and equipment can be utilized, debris removal here will become the priority.</p> <p>All groups: Work with resource advisor as needed for area of work. When moving debris, utilize Hwy 77 to the SW perimeter loop to take material to the staging area past Veterans Lake.</p>

7. Special Instructions:

If falling hazard trees, be cognizant of historic black walnut forest.

Special attention should be had when cutting wooded debris with non-organic debris mixed in.

Leave any historic artifacts that may be found during operations and notify supervisor/IMT.

No felling or chainsaw use within 50 yards of the Monkey Tree.

A reasonable buffer should be kept between equipment and ground crews at all times.

Pay special attention to taking heavy equipment onto saturated grounds.
