CHIC FY24 TORNADO RESPONSE

WEDNESDAY, MAY 8, 2024

0700-1900 HOURS

OK-CHP-001120

WBS: PX/P0342250A.00.1

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period:	
CHIC FY24 TORNADO RECOVERY		Date/Time From: 05/08/2024 0700 WED	Date/Time To: 05/08/2024 1900 WED
3. Objective(s):			
<p>Prioritize human safety and operational integrity above all else.</p> <p>Protect and/or minimize effects of the incident to the cultural, heritage, and natural resources in the park.</p> <p>Provide limited access to key park areas that can safely be open for public wellness and goodwill.</p> <p>Maintain and enhance relationships with stakeholders and the visitors by providing accurate and timely information.</p> <p>Responsibly manage the incident using the Incident Command System (safety, finance, logistics, and documentation).</p> <p>Provide security for vulnerable government assets exposed by the tornado until security mitigations can be reestablished.</p>			
4. Operational Period Command Emphasis:			
<p>Remember why we are here -- service for the common good!</p> <p>Ensure the park is stabilized and prepared for long-term success by addressing hazards, clearing roads and trails of fallen trees and debris, and evaluating and securing infrastructure.</p>			
General Situational Awareness:			
<p>SAFETY FIRST--Yours, your co-workers and the public! Snags, widow-makers, and trees with shallow root systems are abundant. Wear hard hats when you're in affected areas, maintain your situational awareness, be quick to identify hazards and point them out to your co-workers.</p> <p>Check yourself and clothing for ticks and immediately remove them.</p> <p>Poison ivy is prevalent in the area, be aware.</p> <p>Be situationally aware with changing weather conditions.</p> <p>Be aware of heavy equipment and trucks on park roads; come to a complete stop at intersections and watch for traffic.</p>			
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

Spot Forecast for CHIC Tornado Response...

National Weather Service Norman OK

445 PM CDT Tue May 7 2024

Forecast is based on forecast start time of 0700 CDT on May 08.

.DISCUSSION...

No significant weather issues are expected through the next few days at the tornado response area. There are no significant precipitation chances through Saturday (although there are low 20 percent chances of showers south of Ardmore and Tishomingo on Thursday afternoon, but that currently looks to stay to the south of Sulphur). Winds will be from the northeast through the day with no significant wind shifts. There will be a lot of sun with the UV index expected to be around 9 on Thursday.

.THURSDAY...

Sky/weather.....Sunny.
Max temperature.....Around 76.
Min humidity.....41 percent.
Surface winds (mph).Northeast winds 10 to 14 mph.

TIME (CDT)	6 AM	9 AM	NOON	3 PM
Sky (%).....	6	8	12	15
Weather type....	NONE	NONE	NONE	NONE
Temp.....	58	64	73	76
RH.....	69	59	45	42
Surface wnd dir.	NE	NE	NE	NE
Surface wnd spd.	10	12	13	14
Surface wnd gst.	16	17	20	21

If you see any individuals wearing this insignia, contact law enforcement with location and description of the individual(s).

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: CHIC Tornado Recovery | 2. Operational Period: Date From: May 8, 2024 Date To: May 8, 2024

Safety Officer – AJ Johnson (907) 205-0148 and Christina Ryan-Miller (928) 607-0025

MAINTAIN SITUATIONAL AWARENESS AT ALL TIMES

Contact Incident Safety Officer if an injury occurs.

Weather

Check the weather before you start work and periodically throughout the day. Ensure you know where the nearest shelter is to your work location. SEEK SHELTER IF THERE IS A TORNADO WARNING. Seek shelter if there is lightning within FIVE miles.

PPE

This is a large project with many moving parts that may be outside of your normal duties. If you feel you are missing personal protective equipment to help keep you safe, please reach out to your supervisor.

Wildlife

Larger mammals: Feral hogs, bobcats, badgers, black bears, coyotes, foxes, mountain lions.

Reptiles: Rattlesnakes, copperhead snakes, cottonmouth snakes.

Spiders: Black widows, brown recluse.

Other insects: Ticks, scorpions, chiggers, and the usual flying buzzers.

Dangerous plants – castor bean plants, hemlock, several toxic mushrooms, pokeweed, poison ivy.

Heat Stress

If you are not from the local area, the humidity changes the way heat affects your body – ensure that you are hydrating and eating well. Take breaks in the shade or in air conditioning throughout the day to allow yourself to cool off. The effects of heat stress can accumulate over time, so you may feel fine one day and drained the next day – listen to your body.

Driving

The intersection of 177/7 is very busy. Slow down and double check for vehicles and pedestrians in the area. Watch for roadside work. Wear reflective high visibility vests when outside of vehicle and assisting with traffic control. Dump trucks have begun speeding on highway 177, likely in an effort to make additional runs during nice weather. LE will increase patrols, and a mobile radar will be placed – but use additional caution when entering traffic on that road.

Heavy Debris Removal

Heavy equipment will be used to move large material using towing chains. If you are not part of the debris moving operation in the maintenance yard, you should not be in that work area.

Bee Movement

A beehive will be relocated prior to the tree they were living in being felled. This will anger the hive, despite efforts being taken to minimize the impact – so if you see workers in bee suits - avoid that area.

Wellness

There is ample opportunity to meet with someone one-on-one – work with your supervisor or a member of the IMT for more information. We have the Oklahoma Highway Patrol (OHP) CrossFit Trailer visiting, located behind the Fire Station – try to stop in for a fun workout and stress relief.

INCIDENT ACTION PLAN SAFETY ANALYSIS (ICS 215A)

1. Incident Name: CHIC FY24 TORNADO RESPONSE		2. Incident Number: OK-CHP-001120	
3. Date/Time Prepared: Date: 5/7/2024 Time: 1700		4. Operational Period: Date From: 05/08/2024 Date To: 05/08/2024 Time From: 0700 Time To: 1900	
5. Area	6. Hazards/Risks	7. Mitigations	
ALL	Hazard Trees	<ul style="list-style-type: none"> Follow "Hazard Tree Safety" guidelines (IRPG) Consider where you are parking and having conversations – what is above you? Listen for buzzing in trees – a large hive is being moved because it was able to be discovered inside of a tree prior to being cut. Remember the hazard zone extends a minimum of 2 1/2 tree heights. 	
ALL	Heavy Equipment	<ul style="list-style-type: none"> Watch for heavy equipment, and stay out of their general work area, and avoid working below heavy equipment. Use a spotter when backing. Maintain a 50-100 ft exclusion area around equipment. 	
Recovery & Stabilization	Tree Climbing and Lift Use	<ul style="list-style-type: none"> Check all gear prior to climbing. Do not work outside of your comfort and/or skill level. Do not walk under or near trees that are being worked in. 	
Recovery & Stabilization	Hauling Debris	<ul style="list-style-type: none"> Hauling debris with heavy equipment and chains is very dangerous. Ensure all connections are secure. Watch the load during movement to ensure you know how the pile is reacting. Ensure no other personnel are in the work area. 	
ALL	Weather	<ul style="list-style-type: none"> Be aware of changing weather conditions. Watch out for increasing rain, winds, lightning, and flood conditions. 	
ALL	Driving and Traffic	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques traveling on all roads. Use spotters when backing. Follow Driving LCES (Lights, Chock blocks, Emergency brake, & Seat belts). Always use headlights and obey posted speed limits. Use chock blocks, turn wheels into hill when appropriate. Avoid distractions (eating, & cell phones etc.) and use the 3 second rule when following other vehicles. Use additional caution with speeding vehicles on Highway 177. Wear high visibility vests when conducting traffic control operations. 	
ALL	Heat Stress	<ul style="list-style-type: none"> Monitor signs of heat stress in yourself and team members. Maintain an adequate stock of water and healthy snacks to ensure you sustain hydration. 	
ALL	Foreign Debris	<ul style="list-style-type: none"> Wear proper foot, head, and hand protection at all times. Maintain situational awareness to ensure that items react in the way predicted. 	
Recovery & Stabilization	Chainsaw Operations	<ul style="list-style-type: none"> Follow hazard tree safety guidelines (IRPG). Follow "Procedural Felling Operations" (IRPG). Look Up, Look Down, Look All Around for hazard tree indicators. Only fell and buck trees within your expertise levels. Do not fall trees during high wind events. 	
ALL	Animals and Insects	<ul style="list-style-type: none"> Ticks are out in force, so ensure you are using bug spray. Don't forget to do a thorough tick check at the end of the day – the ticks can be very small. 	
ALL	Communication	<ul style="list-style-type: none"> Maintain contact (cell phone/radio, etc) at all times with your team and chain of command.
