Spot Forecast for CHIC Tornado Response...

National Weather Service Norman OK
241 PM CDT Wed May 8 2024

Forecast is based on forecast start time of 0700 CDT on May 09.
If conditions become unrepresentative...contact the National Weather Service.

.DISCUSSION...

Isolated thunderstorms may develop late Thursday afternoon into the evening with a threat for cloud-to-ground lightning and hail. The chance for thunderstorms is 20% with the highest chance for thunderstorms south of Sulphur.

.THURSDAY...

Sky/weather.....Sunny then becoming mostly sunny in the afternoon. Slight chance of showers and thunderstorms in the afternoon.
Max temperature.....Around 78.
Min humidity.....39 percent.
Surface winds (mph).Northeast winds 12 to 16 mph.

.THURSDAY NIGHT...

Sky/weather.....Partly cloudy then becoming mostly clear overnight.
Min temperature.....Around 56.
Max humidity.....82 percent.
Surface winds (mph).Northeast winds 12 to 14 mph.

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: CHIC Tornado Recovery | **2. Operational Period:** Date From: May 9, 2024 Date To: May 9, 2024

Safety Officer – AJ Johnson (907) 205-0148 and Christina Ryan-Miller (928) 607-0025

MAINTAIN SITUATIONAL AWARENESS AT ALL TIMES

Contact Incident Safety Officer if an injury occurs.

Weather

Check the weather before you start work and periodically throughout the day. Ensure you know where the nearest shelter is to your work location. SEEK SHELTER IF THERE IS A TORNADO WARNING. Seek shelter if there is lightning within FIVE miles.

PPE

This is a large project with many moving parts that may be outside of your normal duties. If you feel you are missing personal protective equipment to help keep you safe, please reach out to your supervisor.

Wildlife

Larger mammals: Feral hogs, bobcats, badgers, black bears, coyotes, foxes, mountain lions.

Reptiles: Rattlesnakes, copperhead snakes, cottonmouth snakes.

Spiders: Black widows, brown recluse.

Other insects: Ticks, scorpions, chiggers, and the usual flying buzzers.

Dangerous plants – castor bean plants, hemlock, several toxic mushrooms, pokeweed, poison ivy.

Heat Stress

If you are not from the local area, the humidity changes the way heat affects your body – ensure that you are hydrating and eating well. Take breaks in the shade or in air conditioning throughout the day to allow yourself to cool off. The effects of heat stress can accumulate over time, so you may feel fine one day and drained the next day – listen to your body.

Driving

The intersection of 177/7 is very busy. Slow down and double check for vehicles and pedestrians in the area. Watch for roadside work. Wear reflective high visibility vests when outside of vehicle and assisting with traffic control. Dump trucks have begun speeding on highway 177, likely in an effort to make additional runs during nice weather. LE will increase patrols, and a mobile radar will be placed – but use additional caution when entering traffic on that road.

Heavy Debris Removal

Heavy equipment will be used to move large material using towing chains. If you are not part of the debris moving operation in the maintenance yard, you should not be in that work area.

Wellness

There is ample opportunity to meet with someone one-on-one – work with your supervisor or a member of the IMT for more information. We have the Oklahoma Highway Patrol (OHP) CrossFit Trailer visiting, located behind the Fire Station – try to stop in for a fun workout and stress relief.

4. Site Safety Plan Required? No X **Approved Site Safety Plan(s) Located At:** TBD

INCIDENT ACTION PLAN SAFETY ANALYSIS (ICS 215A)

1. Incident Name: CHIC FY24 TORNADO RESPONSE		2. Incident Number: OK-CHP-001120	
3. Date/Time Prepared: Date: 5/8/2024 Time: 1700		4. Operational Period: Date From: 05/09/2024 Date To: 05/09/2024 Time From: 0700 Time To: 1900	
5. Area	6. Hazards/Risks	7. Mitigations	
ALL	Hazard Trees	<ul style="list-style-type: none"> Follow "Hazard Tree Safety" guidelines (IRPG) Consider where you are parking and having conversations – what is above you? Remember the hazard zone extends a minimum of 2 1/2 tree heights. 	
ALL	Heavy Equipment	<ul style="list-style-type: none"> Watch for heavy equipment, and stay out of their general work area, and avoid working below heavy equipment. Use a spotter when backing. Maintain a 50-100 ft exclusion area around equipment. 	
Recovery & Stabilization	Tree Climbing and Lift Use	<ul style="list-style-type: none"> Check all gear prior to climbing. Do not work outside of your comfort and/or skill level. Do not walk under or near trees that are being worked in. 	
Recovery & Stabilization	Hauling Debris	<ul style="list-style-type: none"> Hauling debris with heavy equipment and chains is very dangerous. Ensure all connections are secure. Watch the load during movement to ensure you know how the pile is reacting. Ensure no other personnel are in the work area. 	
ALL	Weather	<ul style="list-style-type: none"> Be aware of changing weather conditions. Watch out for increasing rain, winds, lightning, and flood conditions. 	
ALL	Driving and Traffic	<ul style="list-style-type: none"> Practice "Defensive Driving" techniques traveling on all roads. Use spotters when backing. Follow Driving LCES (Lights, Chock blocks, Emergency brake, & Seat belts). Always use headlights and obey posted speed limits. Use chock blocks, turn wheels into hill when appropriate. Avoid distractions (eating, & cell phones etc.) and use the 3 second rule when following other vehicles. Use additional caution with speeding vehicles on Highway 177. Wear high visibility vests when conducting traffic control operations. 	
ALL	Heat Stress	<ul style="list-style-type: none"> Monitor signs of heat stress in yourself and team members. Maintain an adequate stock of water and healthy snacks to ensure you sustain hydration. 	
ALL	Foreign Debris	<ul style="list-style-type: none"> Wear proper foot, head, and hand protection at all times. Maintain situational awareness to ensure that items react in the way predicted. 	
Recovery & Stabilization	Chainsaw Operations	<ul style="list-style-type: none"> Follow hazard tree safety guidelines (IRPG). Follow "Procedural Felling Operations" (IRPG). Look Up, Look Down, Look All Around for hazard tree indicators. Only fell and buck trees within your expertise levels. Do not fall trees during high wind events. 	
ALL	Animals and Insects	<ul style="list-style-type: none"> Ticks are out in force, so ensure you are using bug spray. Don't forget to do a thorough tick check at the end of the day – the ticks can be very small. 	
ALL	Communication	<ul style="list-style-type: none"> Maintain contact (cell phone/radio, etc) at all times with your team and chain of command.
