terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

Incident: Hidden Pines

Creeping
Smoldering

Narrative:

Fire activity inn the morning is smoldering, but transitions to an active flame in the afternoon in the unburned fuels.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Timber (Litter and Understory)
Short Grass (1 foot)
Tall Grass (2.5 feet)

Narrative:

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Damage assessment teams have identified an additional 16 homes destroyed by the fire and 2 additional homes with minor damage.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	95	2	64
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	0	0	7
I. Other Minor Structures	0	0	70

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: Minimal fire growth is projected within containment area.

24 hours: Minimal fire growth is projected within containment area.

48 hours:

72 hours:

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Ensure public and firefighter safety throughout the incident.

Continue suppression operations to limit structure loss and negative impact to environmentally sensitive areas. continue to establish control lines

Convey damage assessment to Bastrop County for analysis of loss.

Maintain open communications with public and media.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: Continued threat to approximately 95 homes, MD Anderson Research Facility, and infrastructure located within Buescher State Park.

Continued threat to approximately 95 homes, MD Anderson Research Facility, and infrastructure located within Buescher State Park.

Continued threat to approximately 95 homes, MD Anderson Research Facility, and infrastructure located within Buescher State Park.

Incident: Hidden Pines

72 hours:

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: No critical unmet needs at this time.

24 hours: No critical unmet needs at this time.

48 hours:

72 hours:

Anticipated after 72 hours:

- 40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
- 1) critical resource needs identified above.
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

A full suppression strategy has currently contained much of the fire spread. Spotting and extremely dry conditions make overall control difficult. Highly sensitive fire due to its proximity to Austin and because it is burning next to the 2011 Bastrop fire scar that destroyed hundreds of homes. Additional safety concerns with high volume of traffic on Hwy 71 bordering fire edge.

41. Planned Actions for Next Operational Period:

Continue direct suppression operations; limit structure loss; continue to monitor and recheck structures within the burned area; continue to improve control line; mop-up around homes and structures; patrolling.

- 42. Projected Final Incident Size/Area (use unit label e.g., "Acres", "Square Miles"): 5,000
- 43. Anticipated Incident Containment or Completion Date: 10/23/2015
- 44. Projected Significant Resource Demobilization Start Date:
- 45. Estimated Incident Costs to Date: \$411.099.00
- 46. Projected Final Incident Cost Estimate: \$0.00
- 47. Remarks (or continuation of any blocks above list block number in notation):
 - 49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
