14. Date/Time Submitted: 09/09/2017 1753 CDT		15. Primary Location, Organization, or Agency Sent To: TX-TICC									
16. State: TX	17. County / Parish / Borough: Jefferson		18. City: Beaumont								
19. Unit or Other:	20. Incident Jurisdiction: Multiple	21. Incident Location Ownership (if different than jurisdiction): TX-TXS									
22. Latitude/Longitude: Latitude: 30° 0' 41" Longitude: 94° 10' 49"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:		24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:								
25. Short Location or Area Description (list all affected areas or a reference point): Jefferson, Chambers, Orange, Hardin and Liberty Counties in East Texas			26. UTM Coordinates: Zone: Easting: Northing:								
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): Incident specific data can be found at: https://harveytx.maps.arcgis.com/apps/PublicInformation/index.html?appid=f6e11b1dcd304399bf6bba1c4e137961 and											

Incident Status Summary (ICS-209)

Incident: Harvey - Team 2

http://ftp.nifc.gov/incident_specific_data/southern/Texas/2017_Harvey_Team2/

28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

Narrative:

The Southern Area IMT is facilitating operations at the Beaumont Resource Staging Area and distributing commodities through Points of Distribution sites in the counties of: Jefferson, Hardin, Chambers, Orange and Liberty.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Narrative:

Driving, hazardous waste materials, contaminated flood waters, storm debris, and heat stress continue to be hazardous issues throughout the affected area.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Information not applicable under the scope of the IMT's delegation of authority and associated mission tasking.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	0	0	0
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	0	0	0
I. Other Minor Structures	0	0	0

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

<p>33. Life, Safety, and Health Status/Threat Remarks: Driving related risks. Imminent hazards and threats to life due to catastrophic flooding. Other hazards related to exposure to environmental elements and potential for infectious disease from contaminated flood waters. Potential for encounters with wildlife, insects and venomous snakes, as they are forced out of their habitat due to flooding. Cooler and drier conditions have been experienced the past couple days with a warming trend expected over the next few days. Potential for dehydration and heat related illness still exists.</p>	<p>34. Life, Safety, and Health Threat Management:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 90%;"></th> <th style="width: 10%; text-align: center;">Active?</th> </tr> </thead> <tbody> <tr><td>A. <p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Northwesterly winds and lower humidities will prevail through the weekend as high pressure builds across the region.</p>																																					

<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p>
<p>12 hours: The Southern Area IMT will continue management and management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).</p>
<p>24 hours: SA IMT will begin the transition process with the New York State IMT.</p>
<p>48 hours:</p>
<p>72 hours:</p>
<p>Anticipated after 72 hours:</p>

<p>37. Strategic Objectives (define planned end-state for incident): Provide for the continued safety and support of victims in the devastated areas across SE Texas. Provide guidance for commodity distribution and RSA support. Provide guidance to jurisdictions concerning POD needs and locations. Manage operations in a safe, accountable and cost effective fashion.</p>
--

<p>38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:</p>

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

12 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas.
24 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas.
48 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas. Potential for additional rainfall may prolong flooding conditions and hamper rescue, recovery and restoration missions.
72 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas. Potential for additional rainfall may prolong flooding conditions and hamper rescue, recovery and restoration missions.
Anticipated after 72 hours:	
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
12 hours:	NONE.
24 hours:	
48 hours:	
72 hours:	
Anticipated after 72 hours:	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:	
<ol style="list-style-type: none"> 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. 	
Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.	
<p>In coordination between Texas Forest Service, FEMA, the Texas National Guard, the Southern Area IMT continues management and oversight of the Beaumont RSA, and will begin transition to the New York State IMT beginning 9/10/17. Absence of water utilities due to disruptions from the hurricane are creating some constraints for providing optimum logistical support.</p>	
41. Planned Actions for Next Operational Period:	
Refer to specifics noted in block 36.	
42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):	
43. Anticipated Incident Containment or Completion Date: 09/30/2017	
44. Projected Significant Resource Demobilization Start Date: 09/11/2017	
45. Estimated Incident Costs to Date: \$1,020,000.00	
46. Projected Final Incident Cost Estimate:	
47. Remarks (or continuation of any blocks above – list block number in notation):	
<p>The Southern Area IMT in cooperation with Texas Forest Service, FEMA, and the Texas National Guard continues to manage and support the functions of the Beaumont RSA and PODs in Southeast Texas. The Southern Area IMT, State, County, Military and FEMA representatives and resources are working closely in a coordinated effort to establish efficient support to</p>	

Incident Status Summary (ICS-209)

Incident: Harvey - Team 2

PODs and first responders. The Southern Area IMT is providing logistical support for the Beaumont RSA which is currently staging EMS Services, military personnel and several other first responders and law enforcement officials from the State of Texas. The Beaumont RSA is currently supporting 19 POD locations in Jefferson, Liberty, Chambers, Orange and Hardin Counties in Southeast Texas. For the current reporting period the Beaumont RSA has received 4 trailers of MREs and 1 trailer of ice. Commodities processed out to various PODs during the current reporting period consist of 1 trailer of MREs, 1 trailer of ice, 5 trailers of water, and 1 trailer of miscellaneous support items. Since the Southern Area IMT assumed command of the Beaumont RSA, cumulative totals of commodities processed to PODs consist of the following approximate numbers of trailers: Blankets 1, Cots 6, MREs 19, Ice 40, Water 73 and 47 miscellaneous support items.

The Southern Area IMT will begin transition with the New York State IMT, on 9/10/17 and transfer of command will occur at 1900, on 9/10/17.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
