Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

Narrative:

The Southern Area IMT facilitated operations at the Beaumont Resource Staging Area and distributing commodities through Points of Distribution sites in the counties of: Orange, Jefferson and Hardin. The Southern Area IMT will transfer command at 1900, on 9/10/17.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Narrative:

Driving, hazardous waste materials, contaminated flood waters, storm debris, and heat stress continue to be hazardous issues throughout the affected area.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Information not applicable under the scope of the IMT's delegation of authority and associated mission tasking.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	0	0	0
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	0	0	0
I. Other Minor Structures	0	0	0

31. Public Status Summary:

C. Indicate the Number of Civilians (Public) Below:

33. Life, Safety, and Health Status/Threat Remarks:

Driving related risks. Immanent hazards and threats to life due to

34. Life, Safety, and Health Threat Management:

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

<p>catastrophic flooding. Other hazards related to exposure to environmental elements and potential for infectious disease from contaminated flood waters. Potential for encounters with wildlife, insects and venomous snakes, as they are forced out of their habitat due to flooding. Cooler and drier conditions have been experienced the past couple days with a warming trend expected over the next few days. Potential for dehydration and heat related illness still exists.</p> <p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): A very dry air mass will remain over the area, into the middle of the week, while temperatures will remain below normal conditions. A reinforcing cold front will move through by Monday, as Hurricane Irma moves over Florida into the Southeast States.</p>	Active?

P. Trail Closure		
Q. Area Closure	X	

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:	
12 hours:	The Southern Area IMT has transitioned with the New York State IMT. They will continue operations and management of the Beaumont RSA.
24 hours:	The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).
48 hours:	The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).
72 hours:	The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).
Anticipated after 72 hours:	The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).

37. Strategic Objectives (define planned end-state for incident): Provide for the continued safety and support of victims in the devastated areas across SE Texas.
--

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

Provide guidance for commodity distribution and RSA support. Provide guidance to jurisdictions concerning POD needs and locations. Manage operations in a safe, accountable and cost effective fashion.	
38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:	
12 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas.
24 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas.
48 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas. Potential for additional rainfall may prolong flooding conditions and hamper rescue, recovery and restoration missions.
72 hours:	Continued flooding will present risks to both responders and the public. Hot and humid conditions will enhance the risk of heat related illness and dehydration. Loss of critical infrastructure will hamper many support functions in the most affected areas. Potential for additional rainfall may prolong flooding conditions and hamper rescue, recovery and restoration missions.
Anticipated after 72 hours:	
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
12 hours:	NONE.
24 hours:	
48 hours:	
72 hours:	
Anticipated after 72 hours:	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts. In coordination between Texas Forest Service, FEMA, the Texas National Guard, the New York Incident Management Team will provide oversight of the Beaumont RSA, beginning 1900, on 9/10/17, when transfer of command will take place. Absence of water utilities due to disruptions from the hurricane are creating some constraints for providing optimum logistical support.	
41. Planned Actions for Next Operational Period: Refer to specifics noted in block 36.	
42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):	
43. Anticipated Incident Containment or Completion Date: 09/30/2017	
44. Projected Significant Resource Demobilization Start Date: 09/11/2017	

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

45. Estimated Incident Costs to Date: **\$1,083,000.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):
The Southern Area Incident Management Team will transition with the New York State Incident Management Team, at 1900, on 9/10/17. In cooperation with the Texas Forest Service, FEMA, the Texas National Guard, the New York State IMT will continue management and support of the Beaumont RSA and PODs, in Southeast Texas. The Beaumont RSA, is currently staging EMS Services, military personnel and several other first responders and law enforcement officials from the State of Texas. It is currently supporting 17 POD locations in Jefferson, Orange, and Hardin counties. For the current reporting period, the Beaumont RSA has received 1 trailer of MREs and 1 trailer of ice. Commodities processed out to various PODs during the current reporting period consist of 4 trailers of MREs and 3 trailers of water. Since the Southern Area IMT assumed command of the Beaumont RSA, cumulative totals of commodities processed out to various PODs, during the current reporting period consist of the following approximate numbers of trailers: MREs 23, Water 76, Ice 40, Cots 6, Blankets 1, Cots 6, and 47 miscellaneous support items.

****Note: The Southern Area IMT will transfer command at 1900, on 9/10/17.**

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top 1/2 of box, show # of personnel associated with resource on bottom 1/2 of box):
