27. Note any geospatial data available (indicate data format, content, and collection time information and labels): Incident specific data can be found at: http://ftp.nifc.gov/incident_specific_data/southern/Texas/2017_Harvey_Team2/											
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted											

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

Narrative:

Transfer of Command from the Southern Area IM T to the New York State IMT occurred at 1900hrs, on 9/10/17. Operations at the Beumont Resource Staging Area continued to distribute commodities through Points of Distribution sites in the counties of: Orange, Jefferson and Hardin.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Narrative:

Driving, hazardous waste materials, contaminated flood waters, storm debris, and heat stress continue to be hazardous issues throughout the affected area.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Information not applicable under the scope of the IMT's delegation of authority and associated mission tasking.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed

34. Life, Safety, and Health Threat

Incident Status Summary (ICS-209)

Incident: Harvey - Team 2

<p>Driving related risks. Immanent hazards and threats to life due to catastrophic flooding. Other hazards related to exposure to environmental elements and potential for infectious disease from contaminated flood waters. Potential for encounters with wildlife, insects and venomous snakes, as they are forced out of their habitat due to flooding. Cooler and drier conditions have been experienced the past couple days with a warming trend expected over the next few days. Potential for dehydration and heat related illness still exists.</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="2" style="text-align: left; padding: 2px;">Management:</th> </tr> <tr> <th style="width: 80%;"></th> <th style="width: 20%; text-align: center; padding: 2px;">Active?</th> </tr> </thead> <tbody> <tr><td style="padding: 2px;">A. <p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Tuesday-Sunny, high of 84 degrees, wind NW 5-10mph. Will see some increase in atmospheric moisture associated with Irma from late Tuesday into Wednesday. Expecting some increasing clouds across the forecast area through the day particularly over the northern portion of the area, but any mentionable rains are expected to remain north to northeast of the region.</p>																																							

<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p>
<p>12 hours: New York State IMT will continue operations and management of the Beaumont RSA.</p>
<p>24 hours: The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).</p>
<p>48 hours: The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).</p>
<p>72 hours: The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).</p>
<p>Anticipated after 72 hours: The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).</p>

<p>37. Strategic Objectives (define planned end-state for incident): Provide for the continued safety and support of victims in the devastated areas across SE Texas.</p>

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

Provide guidance for commodity distribution and RSA support.
Provide guidance to jurisdictions concerning POD needs and locations.
Manage operations in a safe, accountable and cost effective fashion.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads.**

24 hours: **Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads. The number of active POD sites is diminishing as utilities are being restored and businesses reopen. Backhaul of excess commodities from inactive POD sites will continue.**

48 hours: **Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads. The number of active POD sites is diminishing as utilities are being restored and businesses reopen. Backhaul of excess commodities from inactive POD sites will continue.**

72 hours: **Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads. The number of active POD sites is diminishing as utilities are being restored and businesses reopen. Backhaul of excess commodities from inactive POD sites will continue.**

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **NONE.**

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

In coordination between Texas Forest Service, FEMA, the Texas National Guard, the New York Incident Management Team is providing oversight of the Beaumont RSA. The transfer of command took place at 1900hrs on 9/10/17.

41. Planned Actions for Next Operational Period:

Refer to specifics noted in block 36.

42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):

43. Anticipated Incident Containment or Completion Date: **09/30/2017**

44. Projected Significant Resource Demobilization Start Date: **09/11/2017**

45. Estimated Incident Costs to Date: **\$1,452,000.00**

46. Projected Final Incident Cost Estimate:

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

47. Remarks (or continuation of any blocks above – list block number in notation):

Today, September 11, 2017 at 0746hrs, approximately 200 responders working out of the Beaumont RSA held a memorial ceremony in remembrance of the lives lost on 9/11/2001. In cooperation with the Texas Forest Service, FEMA, the Texas National Guard, the New York State IMT will continue management and support of the Beaumont RSA and PODs, in Southeast Texas. The Beaumont RSA, is currently staging EMS Services, military personnel and several other first responders and law enforcement officials from the State of Texas. It is currently supporting 13 POD locations in Jefferson, Orange, and Hardin counties. For the current reporting period, the Beaumont RSA has received 1 trailer of blankets, 1 trailer of tarps, 2 trailers of water and 1 trailer of ice. Commodities processed out to various PODs during the current reporting period consist of 1 trailer of water. Since the Southern Area IMT assumed command of the Beaumont RSA, cumulative totals of commodities processed out to various PODs, during the current reporting period consist of the following approximate numbers of trailers: MREs 23, Water 77, Ice 40, Cots 6, Blankets 1, Cots 6, and 47 miscellaneous support items.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
