

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

1. Incident Name: Harvey - Team 2		2. Incident Number: TX-FEM-170002	
3. Report Version (check one box): Initial <input checked="" type="checkbox"/> Update Final	4. Incident Commander(s) & Agency or Organization: Thomas Wutz - New York State IMT	5. Incident Management Organization: Type 3 Team <input checked="" type="checkbox"/> Unified Command	6. Incident Start Date/Time: Date: 08/30/2017 Time: 0700 CDT
7. Current Incident Size or Area Involved (use unit label – e.g., "Acres", "Square Miles"): 2606720 Acres	8a. Percent (%) Contained or Completed: 0 %	9. Incident Type: Hurricane B. Incident Description: C. Cause: Lightning/Natural D. Fire Suppression Strategy:	10. Incident Complexity Level: <input checked="" type="checkbox"/> Single Complex
	b. Total Percentage (%) of Perimeter that will be Contained or Completed: 0 %		
12. Prepared By: Print Name: Scott Jackson-SITL Date/Time Prepared: 09/12/2017 1630 CDT		13. Approved By: Print Name: Tom Wutz-ICT3 Signature: .	
14. Date/Time Submitted: 09/12/2017 1704 CDT		15. Primary Location, Organization, or Agency Sent To: TX-TICC	
16. State: TX	17. County / Parish / Borough: Jefferson	18. City: Beaumont	
19. Unit or Other:	20. Incident Jurisdiction: Multiple	21. Incident Location Ownership (if different than jurisdiction): TX-TXS	
22. Latitude/Longitude: Latitude: 30° 0' 41" Longitude: 94° 10' 49"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:	24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:	
25. Short Location or Area Description (list all affected areas or a reference point): Jefferson, Chambers, Orange, Hardin and Liberty Counties in East Texas			26. UTM Coordinates: Zone: Easting: Northing:
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): Incident specific data can be found at: http://ftp.nifc.gov/incident_specific_data/southern/Texas/2017_Harvey_Team2/			
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):			

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

Narrative:
Operations at Beaumont Resource Staging Area continued to distribute commodities to Points of Distribution sites in the counties of: Jefferson and Hardin.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Narrative:
Driving, hazardous waste materials, contaminated flood waters, storm debris, and heat stress continue to be hazardous issues throughout the affected area.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc): Information not applicable under the scope of the IMT's delegation of authority and associated mission tasking.	A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed

Incident: **Harvey - Team 2**

<p>hazards and threats to life due to catastrophic flooding. Other hazards related to exposure to environmental elements and potential for infectious disease from contaminated flood waters. Potential for encounters with wildlife, insects and venomous snakes, as they are forced out of their habitat due to flooding. Potential for dehydration and heat related illness still exists.</p> <p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Wednesday-Mostly sunny, with a high near 87. East wind around 5 mph becoming west in the afternoon.</p> <p>Overall pattern to remain dry through the week with no more than some low end rain chances arriving through the weekend. Will however see a gradual uptick in both temperatures and dewpoints.</p>		Active?

Q. Area Closure	X	

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:	
12 hours:	New York State IMT will continue operations and management of the Beaumont RSA. It is currently supporting 3 POD locations in Jefferson, and Hardin counties. It is also coordinating back haul of commodities and equipment from multiple inactive POD locations which were serviced by the RSA.
24 hours:	The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Delivery (PODs).
48 hours:	Continued operations and management of the Beaumont RSA. Commodities distribution to active Points of Distribution will continue. Backhaul and inventory of excess commodities from inactive Points of Distribution.
72 hours:	New York State IMT will continue operations and management of the Beaumont RSA. As operations are anticipated to be scaled back, transfer of command from the New York State IMT to a contingent from the Lonestar State IMT will tentatively occur.
Anticipated after 72 hours:	

37. Strategic Objectives (define planned end-state for incident):	
Provide for the continued safety and support of victims in the devastated areas across SE Texas.	
Provide guidance for commodity distribution and RSA support.	
Provide guidance to jurisdictions concerning POD needs and locations.	
Manage operations in a safe, accountable and cost effective fashion.	

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:	
12 hours:	Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads. Voluntary evacuation order still in effect for portions of Hardin

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

	County and the City of Beaumont.
24 hours:	Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads.
48 hours:	Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads.
72 hours:	Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads.
Anticipated after 72 hours:	
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
12 hours:	NONE.
24 hours:	
48 hours:	
72 hours:	
Anticipated after 72 hours:	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts. In coordination between Texas Forest Service, FEMA, the Texas National Guard, the New York State Incident Management Team is providing oversight of the Beaumont RSA.	
41. Planned Actions for Next Operational Period: Refer to specifics noted in block 36.	
42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):	
43. Anticipated Incident Containment or Completion Date: 09/30/2017	
44. Projected Significant Resource Demobilization Start Date: 09/13/2017	
45. Estimated Incident Costs to Date: \$1,273,000.00	
46. Projected Final Incident Cost Estimate:	
47. Remarks (or continuation of any blocks above – list block number in notation): In cooperation with the Texas Forest Service, FEMA, the Texas National Guard, the New York State IMT will continue management and support of the Beaumont RSA and PODs, in Southeast Texas. Estimated Incident Costs to Date in Block 46 is down from previous report due to more accurate reporting. The Beaumont RSA, is currently staging EMS Services, military personnel and several other first responders and law enforcement officials from the State of Texas. It is currently supporting 3 POD locations in Jefferson, and Hardin counties. It is also coordinating backhaul from multiple inactive POD locations which were serviced by the RSA. For the current reporting period, the Beaumont RSA has received 3 trailers of MREs, 4 trailers of ice, 1 trailer of water and 2 trailers of miscellaneous commodities. Since the Southern Area IMT assumed command of the Beaumont RSA, cumulative totals of commodities processed out to various PODs, during the current reporting period consist of the following approximate numbers of trailers: MREs 23, Water 77, Ice 40, Cots 6, Blankets 1, Cots 6, and 47 miscellaneous support items.	
49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of
