27. Note any geospatial data available (indicate data format, content, and collection time information and labels): Incident specific data can be found at: http://ftp.nifc.gov/incident_specific_data/southern/Texas/2017_Harvey_Team2/														
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted														

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

Narrative:

Significant demobilization of excess resources supported by the Resource Staging Area started today. Operations at Beaumont Resource Staging Area continued to distribute commodities to Points of Distribution sites in the counties of Jefferson and Hardin. They are also checking inactive POD sites to ensure backhaul of excess commodities, equipment (road cones, porta johns, signs, etc) has been completed.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Narrative:

Driving, hazardous waste materials, contaminated flood waters, storm debris, and heat stress continue to be hazardous issues throughout the affected area.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Information not applicable under the scope of the IMT's delegation of authority and associated mission tasking.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed

<p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Thursday-Sunny, high near 87. Calm wind becoming south around 5 mph in the morning.</p> <p>Overall pattern to remain dry through the week with no more than some low end rain chances arriving through the weekend. Will however see a gradual uptick in both temperatures and dewpoints.</p>																																					

<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p>
<p>12 hours: New York State IMT will continue operations and management of the Beaumont RSA. It is currently supporting 3 POD locations in Jefferson, and Hardin counties. It is also coordinating back haul of commodities and equipment from multiple inactive POD locations which were serviced by the RSA.</p>
<p>24 hours: The New York State IMT will continue management of the Beaumont RSA at the Ford Arena. Provide logistical support (inclusive of catering services, mobile shower units restroom facilities) for numerous first responders and RSA management personnel. Continued inventory of commodities received at the Beaumont RSA and coordination of the shipment of commodities to requesting Points of Distribution (PODs).</p> <p>It is anticipated that a large portion of the current inventory of ice trailers will be shipped out to alternate location(s).</p>
<p>48 hours: New York State IMT will continue operations and management of the Beaumont RSA. As operations are anticipated to be scaled back, transfer of command from the New York State IMT to a contingent from the Lonestar State IMT will occur on Friday.</p>
<p>72 hours: Operations will continue under management of a contingent from the Lonestar State IMT.</p>
<p>Anticipated after 72 hours:</p>

<p>37. Strategic Objectives (define planned end-state for incident): Provide for the continued safety and support of victims in the devastated areas across SE Texas. Provide guidance for commodity distribution and RSA support. Provide guidance to jurisdictions concerning POD needs and locations.</p>
--

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

Manage operations in a safe, accountable and cost effective fashion.
38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:
12 hours: Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads. Voluntary evacuation order still in effect for portions of Hardin County and the City of Beaumont.
24 hours: Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads.
48 hours: Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads.
72 hours: Hot and humid conditions will enhance the risk of heat related illness and dehydration. There is still potential for flooded roads.
Anticipated after 72 hours:
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:
12 hours: NONE.
24 hours:
48 hours:
72 hours:
Anticipated after 72 hours:
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts. In coordination between Texas Forest Service, FEMA, the Texas National Guard, the New York State Incident Management Team is providing oversight of the Beaumont RSA.
41. Planned Actions for Next Operational Period: Refer to specifics noted in block 36.
42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):
43. Anticipated Incident Containment or Completion Date: 09/30/2017
44. Projected Significant Resource Demobilization Start Date: 09/13/2017
45. Estimated Incident Costs to Date: \$1,318,000.00
46. Projected Final Incident Cost Estimate:
47. Remarks (or continuation of any blocks above – list block number in notation): In cooperation with the Texas Forest Service, FEMA, the Texas National Guard, the New York State IMT will continue management and support of the Beaumont RSA and PODs, in Southeast Texas.

Incident Status Summary (ICS-209)

Incident: **Harvey - Team 2**

The Beaumont RSA, is currently staging military personnel, several other first responders and law enforcement officials from the State of Texas. It is currently supporting 3 POD locations in Jefferson, and Hardin counties. It is also coordinating backhaul from multiple inactive POD locations which were serviced by the RSA.

For the current reporting period, the Beaumont RSA has received 25 trailers of ice, 2 trailers of water and 2 trailers of miscellaneous commodities. Since the Southern Area IMT assumed command of the Beaumont RSA, cumulative totals of commodities processed out to various PODs consist of the following approximate numbers of trailers: MREs 23, Water 85, Ice 40, Cots 6, Blankets 1, and 47 miscellaneous support items.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
