

Copper Breaks Fire

TX-TXS-190226

Vivian Fire

TX-TXS-190262

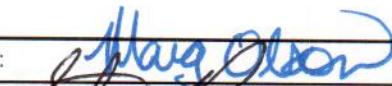

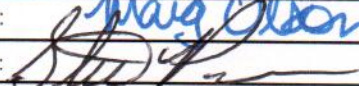

Thursday August 29, 2019

08:00 – 20:00

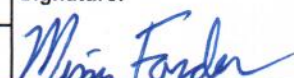

Email: 2019.copperbreaks@firenet.gov

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY	
COPPER BREAKS / VIVIAN	Date/Time From: 08/29/2019 0800 THU	Date/Time To: 08/29/2019 2000 THU
3. Objective(s):		
<p>Provide for firefighter safety through hazard assessments, application of sound risk management decisions, and deliberate mitigation actions.</p> <p>Minimize fire impacts to private lands and ranches around the perimeter, and provide structures protection as need.</p> <p>Operational strategies should include a risk assessment that weighs the values at risk vs. firefighter safety and exposure</p> <p>Manage the human resources assigned in a manner that promotes mutual respect, and is consistent with policy for preventing harassment.</p> <p>Maintain and enhance relationships with the surrounding communities and all cooperators by sustaining inclusive communication strategies and providing timely and accurate information to interested parties.</p>		
4. Operational Period Command Emphasis:		
<p>The overall objective for Copper Breaks and Vivian fire is full suppression of the wildfire.</p> <p>Limit further spread of fire on private lands.</p> <p>Assess and Protect structures as needed.</p> <p>Use suppression tactics that are commensurate with values at risk.</p> <p>Assist with initial response as requested by TFS.</p> <p>Leave Gates as you find them! Either closed or open. Document damage and report damage to fence and gates to Operations immediately, and make hasty repair as soon as possible to do so to prevent loss of livestock and mitigate for safety on roadways.</p>		
General Situational Awareness:		
<p>High temperatures and low humidities are returning. Hold overs from lightning strikes from the passing frontal systems have the potential to kindle. Buried hotspots can become more active.</p>		
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>		
Approved Site Safety Plan(s) Located at:		
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

To: All Incident Personnel, Copper Breaks and Vivian Fire 2019

As Southern Area National Type I Incident Commander, I am committed to a policy of "zero tolerance" of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated. Known or reported acts will be dealt with appropriately.

I am particularly concerned about the perception that alcohol has a place in any of the Incident facilities. It is not appropriate to indulge in alcoholic beverages during any fire assignment.

The National Team from the Southern Region has a policy of "NO ALCOHOL" from the time of dispatch until the time of physical release from the Incident. Members of the Team voluntarily comply with this policy; all incident personnel will be expected to do so also.

We endorse, support, and expect an attitude of mutual respect for all Incident personnel and the public we serve. We also, endorse the attitude and work ethic that places "Safety First, every time on every Incident." We expect nothing less.

/s/ Mike Dueitt

Incident Commander

SAIMT 1

Fire Weather Forecast

FORECAST NO: 9
PREDICTION FOR: Thursday
OPERATIONAL PERIOD: August 29 2019
FORECAST ISSUED: 08/28/2019 at 1800

INCIDENT: Copper Breaks and Vivian
UNIT: TAMFS

Incident Meteorologist: *Greg Murdoch*

Weather Discussion:

After some morning clouds and the possibility of showers/storms some sunshine is expected in the afternoon. Temperatures will be able to rise into the 90s pushing minimum RHs down into upper 30% range with south winds 10 mph or less.

WEATHER FORECAST

Today:

Weather: Mostly cloudy with a chance of morning showers/storms, then partly cloudy.

Gusty erratic winds possible.

High Temperatures: 92-95.

Min RH: 38-43%.

WINDS: S 6-10 mph.

Chance of storms...30% early, then 5% **LAL...**2 **Haines Index...**3 (Low)

Tonight:

Weather: Partly cloudy. A slight chance of showers/storms.

Low Temperatures: 69-72.

Max RH: 85-90%.

WINDS: S 4-7 mph.

Chance of storms....15% **LAL...** 2 **Haines Index...**3 (Low)

Friday:

Weather: Partly cloudy. Isolated shower/storms.

High Temperatures: 90-94.

Min RH: 40-45%.

WINDS: S 6-10 mph and gusty.

Chance of storms...10% **LAL...**2 **Haines Index...**4 (Low)

Saturday:

Weather: Partly cloudy. A chance of showers/storms in the evening and overnight.

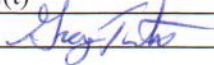

High Temperatures: 88-91

Min RH: 40-45%.

WINDS: S 5-10 mph and gusty.

Chance of storms...30% **LAL...**2 **Haines Index...**4 (Low)

FIRE BEHAVIOR FORECAST

Incident Name	Copper Breaks / Vivian	Forecast Number	9
Operational Period	08/29/2019	Date/Time Issued	08/28/2019 1800
Unit	TX-TXS	Forecast by	Alison Coons FBAN  Greg Titus FBAN(t) 

FIRE BEHAVIOR DISCUSSION

GENERAL:

- Minimal fire activity expected across fire area, weather conditions are becoming more favorable for hot spots to show themselves.
- Today should be a great day to find and mop up the remaining heat.
- Haines Index of 3

Probability of Ignition: 51%	Fuel Type & Moisture	Rates of Spread	Flame Length
Spotting Distance: Up to 0.3 miles	Juniper and mesquite with grass understory	Wind	ROS
Predicted Energy Release Component (ERC): 49	1 hr - 6%	5 mph	8 ch/hr
	10 hr - 7%	10 mph	19 ch/hr
	100 hr - 9%	15 mph	32 ch/hr
	1000 hr - 11%		
	Herb - 40% Woody - 115%		3-6 feet

SPECIFIC:

Copper Breaks- Minimal fire activity expected.

Vivian- The return of higher temperatures and lower RH are expected to help hot spots show themselves.

AIR OPERATIONS:

No major concerns for air operations today. Possibility of storms in the evening.

SAFETY:

The Five Communication Responsibilities for All Firefighters

Brief others -----Debrief your actions -----Communicate hazards to others-----Acknowledge messages

Ask if you don't know

LEARN MORE ABOUT FIRE BEHAVIOR

With almost every firefighter carrying a smart phone, each of us has the opportunity to use a variety of mobile applications to assist in weather and fire behavior calculations and predictions. Depending on your need there is probably an app that will be just what you are looking for. Below are just a few applications available on android and/or apple products that are commonly used in the wildland fire environment. A little time spent researching each app will help you decide which are going to be most useful for you.

Application	Description
Weather Calculator	Calculation of RH, FDFM, and PIG. Archiving of weather obs. Attach pics and share EASILY. (Play Store)
Wildland Toolkit	Fire behavior checklists and calculations as well as IRPG safety checklists. (App Store and Play Store)
Wildfire Analyst (WFA Pocket)	Uses predefined weather scenarios to model fire behavior and provide outputs in 3-D and 4-D applications(https://www.wildfireanalyst.com/ , App Store and Play Store)
Wildland Fire Behavior App	Calculates potential fire behavior using basic fuel and weather inputs. (Play Store)
Wind Ninja Mobile	Computes spatially varying wind fields for wildland fire support. (App Store and Play Store)

Please send your fire behavior observations to: 2019.CopperBreaks.Situation@firenet.gov

WILDLAND PARAMEDIC UNIT 2-12 (214) 649-9602		ANDREW VALENTINI	2	/0800	/2000	
6. Control Operations/Work Assignments:						
Task: Continue mop-up operations throughout the division, mopping up all heat that poses a threat to the line. Continue to patrol entire division. Take GPS coordinates, or mark on Collector, the locations of cut fences. Remove old flagging that is no longer needed.						
Purpose: To ensure fire doesn't escape.						
End State: To have secure line with no patrol.						
7. Special Instructions:						
Be prepared to assist with initial attack. Use degrees decimal minutes when communicating locations.						
DIVS will ensure that all personnel in their division leave the fire safely every night. Operational personnel will use the "Buddy" system to ensure everyone reaches their sleeping destination each night. Should an incident/accident occur, the "Buddy" will notify the appropriate supervisors up the chain of command.

IWI IC Responsibilities:

** Special instructions for Emergency Communications: If you are unable to contact Comms on radio call 911 **

Medical person providing care must request type of transportation as early as possible (ie:air or ground)

- Take charge of the scene – inform the Division Supervisor and Communications that you are the IWI IC and establish radio communications (frequencies, channels). Identify the emergency name – Division A medical, Copper Breaks Fire medical, Highway 6 accident.
- Assign or begin patient assessment and first aid. Using the eight line in the Incident response pocket guide in the pink section page 118. Request additional medical resources on division/branch or across incident as early as possible Transmit patient information to Communications using Medical Incident Report on back
- Determine patient transportation through consultation with line medical personnel and Medical Unit Leader. Consider transportation time, risk to personnel, destination facility and available operational resources. If air transport is chosen, implement the plan for alternative transportation in the event aircraft cannot complete the mission. Order transportation resources through Communications as early as possible.
- Notify Communications as resources arrive and any patient status changes. Names of injured or deceased individuals will not be transmitted on the radio.
- Initiate documentation for future investigation; if a line safety officer is available, assign them to lead documentation. Do not move the deceased individuals, gear or personal effects except to accomplish rescue work or protect the safety of others. Obtain written documentation of witnesses. The Unit Log, ICS 214, may be used for the initial documentation, but a subsequent narrative will be required.

HEALTH AND SAFETY MESSAGE

"We don't plan on luck to be safe, we plan on sound risk management and good decisions"....the Red Team

INCIDENT: Copper Breaks Fire/Vivian Fire **DATE:** Thursday, August 29, 2019

Major Hazards & Risks: Leadership, Driving & Inclement weather

Leadership is all about Character: Fire leaders set the example by exhibiting strong character. Character is based on values. It is the combination of actions and words that others appraise to determine if the leader can be trusted to do the right thing. Leader's continually build their own character by:

- Knowing our values, reviewing them frequently, and looking for areas of improvement
- Admitting when we are wrong
- Taking time to reflect on our actions
- Finding role models and asking them to be a mentor

Travel Information: All resources released from the incident will meet agency travel requirements, such as restrictions on hours of travel per day. All personnel must be able to reach their home base prior to 2200 hrs, CDT or rest overnight. Individual resources are to notify their home Dispatch of their ETA home or their next assignment, and let them know when you arrive. All resources will be rested, off shift, for a minimum of 8 hrs, and meet the 2:1 work/rest ratio before beginning demob if they have completed a full shift prior to departure. If you get drowsy pull over and take a 20 min nap. Get a drink and some fresh air before proceeding.

Inclement weather: Have a plan for inclement weather, where to go, and what to do. Don't forget about the after hours plan.

Be alert for these signs of drowsy driving, which are similar to those seen in distracted or drunk drivers:

! Increased frequency of blinking

! Longer blink durations

! Slower eye movements

! Poor decision making

! Falling asleep while stopped in traffic

! Poor lane maintenance (swerving)

! Slowed reaction time

I HATE IT WHEN I FORGET MY SEAT BELT!

Safety Officers: Brad Lidell, Tommy Hawkins,
Mike Cook, Ivan Cupp, Larry Connell

FINANCE NOTES

For costs that will be charged to the **Copper Breaks** fire, including:

- Receipts for lodging, baggage, airfare, rental vehicles, and fuel for rentals;
- Mileage logs for agency vehicles (i.e., USFS, NPS or other non-TFS fleet); &
- Rental agreements

Please have copies of available when you come to demob. Documents can also be submitted via email to: 2019.copperbreaks.finance@firenet.gov. Please include associated request # and name on the receipts.

All resources: **Please** include the name of the fire you & your equipment worked each day in the remarks section of the CTRs and shift tickets.

On the day that you will be coming to **demob**, bring the CTRs/shift tickets for your last work day & planned travel. **Federal employees** should indicate the beginning of travel time to home units. All others should estimate time to home units. If you are being reassigned, your time will end when travel to the new incident begins.

If you are working with COMP on a claim, please ensure that you **print** your name legibly, include contact information (phone number/email), and provide photos to support the package. Documentation should show how the damage is related to the incident operations.

Thank you for all of your continued hard work!

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE

"MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency) **Report to Quanah Communications or 940-261-0667**

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fall, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
