29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.)
Relate critical resources needs identified above to the Incident Action Plan.
Fire is burning in areas of deep organic soil under severe drought conditions. Dense smoke is likely to be a public health and safety concern for the foreseeable future.

30: Observed Weather for Current Operational Period Peak Gusts (mph): 19 Max. Temperature: 90 Wind Direction: S Min. Relative Humidity: 41	31: Fuels/Materials Involved: 4 Chaparral (6 Feet) Regrowth of brush and grasses along with large amount of dead and downed fuel from the 2008 fire is currently fueling this fire. Fire will burn into pine pocosin fuels during next burning period. Deep organic soils are present.
--	---

32: Today's observed fire behavior (leave blank for non-fire events):
Flame lengths up to 10 feet in brush/regeneration fuel model and up to 6 feet in southern rough. Rates of spread from 2 chains/hour in hardwood forest to 10 chains/hour in brush.

33: Significant events today (closures, evacuations, significant progress made, etc.):

34: Forecasted Weather for next Operational Period Wind Speed (mph): 10G18 Temperature: 87 Wind Direction: S Relative Humidity: 55	35: Estimated Control Date and Time:	36: Projected Final Size:	37: Estimated Final Cost:
---	--------------------------------------	---------------------------	---------------------------

38: Actions planned for next operational period:
Prepare, improve, hold, and patrol lines in all divisions. Continue water handling operation in DIV A and prepare for water handling operation in DIV B.

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **High**
2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?
When fire receives 6+ inches of rain.

41: Projected demobilization start date:

42: Remarks:
North Bull spot is located in the Dismal Swamp State Park in North Carolina and suppression resources are assigned. 5159 acres burned in Virginia and 997 acres burned in North Carolina.
