INCIDENT OBJECTIVES	1. Incident Name	2. Date Prepared	3. Time Prepared
	Lateral West	8/11/11	2100
4. Operational Period Day shift 0730-1930 August 12, 2011 Night Shift 1930-2400 and 0001-0730 August 13, 2011			
5. General Control Objectives For The Incident (Include Alternatives)			
<ol style="list-style-type: none"> 1. Provide for firefighter and public safety by adhering to LCES and the 10 standard fire orders. 2. Prevent fire from exiting Refuge boundaries. 3. Mitigate smoke impacts to adjacent communities (Hamptons Roads) by coordinating with state transportation and public health officials. 4. Minimize resource impact to include loss of organic soil or timber resources, which in turn will minimize smoke impacts to local communities. 5. Manage the fire cost effectively for the values at risk by using cost projections identified in the WFDSS as a baseline. 6. Provide for initial attack for additional fires that originate on the refuge.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER	04		
INCIDENT NAME	Lateral West WF	OPERATIONAL PERIOD	Day / Night
AGENCY	USFWS	OPERATIONAL DATE	Friday Aug 12, 2011
FORECAST DATE AND TIME	8/11/2011 18:00	FIRE BEHAVIOR ANALYST	Michael Durfee

FIRE BEHAVIOR **GENERAL:**

Expect similar fire behavior as in the previous 4 days. Winds shift from the N to NE. Low to moderate ground fire activity (in the heavy down fuels) with some torching of brush will be the norm. Fire will slowly move in the hardwoods and have moderate rates of spread in the exposed blow down and slash.

Low Brush/Regeneration/ Slash – ROS: 35-55 chains / hr FL: 15-20 feet Spotting Distance 0.2 – 0.4 miles POI 60%

Southern Rough (Brush with Overstory) – ROS: 20-30 chains / hr FL: 5-6 feet Spotting Distance 0.1 – 0.2 miles POI 60%

Hardwood with Understory – ROS: 6-10 Chains / hr FL: 3-6 feet Spotting Distance 0.1 – 0.2 miles POI 55%

SPECIFIC:

DIV A and D: Continued creeping fire in the organics north of Interior Ditch and towards the West Ditch

DIV B: Creeping fire with occasional flare-ups in the surface fuels.

DIV C: NE winds will push the spread below Corapeake Ditch into the cutover unit. Fire spread will continue south towards the Kim Saunders Ditch. Spread rates will be based on the fuel type.

BULL NORTH WF: NE wind should push fire spread towards Bull Blvd. Watch for spotting from burning heavy logs or from the occasional torching of brush.

SAFETY:

Dead and Down fuels continue to carry the fire; however they will pre-heat the surface brush and grass which could create some short runs.

Know What Your Fire is Doing at all Times

Fire Weather Forecast

FORECAST NO: 2

NAME OF FIRE: Lateral West

PREDICTION FOR: Day and Night Shifts
SHIFT DATES: 8/12-13/2011

UNIT: Great Dismal Swamp National Wildlife Refuge

FORECAST ISSUED: 8/11/11 at 1900

SIGNED: Scott Kennedy
Incident Meteorologist

WEATHER DISCUSSION: High Pressure will be centered North of the area Today then move off the Mid-Atlantic Coast Saturday. A weather system will approach Sunday and move through the area Sunday Night.

TODAY: Partly Cloudy.

MAXIMUM TEMPERATURES: 89 degrees.

MINIMUM HUMIDITY: 35-40%.

20 FT WINDS: AM: NE 4-7 mph.
PM: NE 5-10 mph.

STABILITY/INVERSION: Morning inversion to 250 feet through 1000, then rising to 6700 feet by 1600.

TRANSPORT WINDS: E 10 mph.

DISPERSION INDEX: 30, Fair

CHANCE OF PRECIPITATION: 10%.

LIGHTNING ACTIVITY LEVEL: 1.

TONIGHT: Partly Cloudy.

MINIMUM TEMPERATURES: 68 degrees.

MAXIMUM HUMIDITY: 90-100%.

20 FT WINDS: E 4-7 mph early, becoming SE 2-4 mph.

STABILITY/INVERSION: Inversion to 250 feet by 2100 hours.

DISPERSION INDEX: 2, very poor.

CHANCE OF PRECIPITATION: 10%

LIGHTNING ACTIVITY LEVEL: 1

OUTLOOK FOR SATURDAY: Partly Cloudy with Isolated Showers and Thunderstorms. Winds S 4-7 mph, becoming SE 5-10G15 mph in the afternoon. High temperature 89. Min RH 45-50%. Chance of Rain 20%. Dispersion 50, Good.

EXTENDED FORECAST:

	SUNDAY	MONDAY	TUESDAY
MINIMUM TEMP	72°	71°	67°
MAXIMUM TEMP	86°	87°	85°
MINIMUM RH	55-60%	50-55%	45-50%
20 FT. WINDS	AM: S 4-7 mph PM: SSE 5-10G15 mph	AM: SW 4-8 mph PM: W 6-12G18 mph	AM: NW 4-7 mph PM: NW 5-10G16 mph
SKY	Mostly Cloudy	Partly Cloudy	Partly Cloudy
WEATHER	Scattered Thunderstorms	Scattered Thunderstorms	
CHANCE PRECIP	50%	30%	5%

HEALTH AND SAFETY MESSAGE

Every person must have a briefing prior to going on line.

INCIDENT: Lateral West Fire	DATE: August 12, 2011 Day Shift and Night Shift	TIME:
<p>Major Hazards and Risks:</p> <p style="text-align: center;">Snags Heavy Equipment Medical Emergencies Situational Awareness Driving</p>		
<p>Snags – The refuge burned in 2008 which created a large number of snags, they can kill. Look up, down, all around to ensure you know if this hazard is present in the location you are working. Use lookouts when operations must work around high concentrations of snags. When parking or stopping be sure you don't leave your vehicle close to a snag. Be cautious when equipment is working near snags as that can cause snags to come down.</p> <p>Heavy Equipment-There is a lot of equipment being used on this incident. Be sure to allow for sufficient space when working in the same area as heavy equipment. Be sure when approaching equipment that the operator is aware you are there. Do not have ground resources close to heavy equipment when working around snags.</p> <p>Medical Plan – Medical emergencies can happen at any time. Line supervisors must take some time each day to determine where the nearest medical help is and understand medical protocols. Locate, GPS and if necessary, prepare helispots for potential emergencies. Advise all line personnel of potential helispot locations during tailgate briefings.</p> <p>Situational Awareness – We are working in a dynamic environment. You may be in the same division several days in a row but that does not mean conditions are the same. Weather, fire behavior, and available resources change....which means your situation has changed. Constantly evaluate changes in any of these to ensure your safety is not compromised.</p> <p>Driving – There have been several close calls while driving. Local traffic isn't in our way...we are in theirs.</p>		
<p>Remember the “ABCs” of Safety</p> <p>Always Be Careful</p>		
<p>Blue Team Safety Officers Brian Beisel & Pat Sheridan welcome information on safety topics. Please contact either of us at any time.</p>		
<p><i>LCES must be in place prior throughout the entire operational period.</i></p> <p><i>Reevaluate as move locations during the day.</i></p>		

DIVISION ASSIGNMENT LIST		1. Branch I		2. Division/Group Div A			
3. Incident Name Lateral West		4. Operational Period Date: 8/12/2011 Time: 0730-1930

<ol style="list-style-type: none"> Report all injuries/illnesses to Division Supervisors (or designee) who will assume command and notify Division Medical Personnel and Line Safety Officer. Medical personnel will provide medical care & stabilize patient. Division Supervisors will notify Communications with size-up of injury/illness and exact location. <u>Do not use the injured person's name on the radio.</u> Communications will notify MEDL and the Safety Officer to assist and to advise for further care as needed. SOF1 and MEDL will coordinate with Communications to contact ambulance or other care. Any air resources will be coordinated through local EMS/911. Communications network will be clear of all traffic until the medical emergency is finished. Request that FFTR/Engine crews or single resources let MEDL know if they have any EMTs or Paramedics and if they have equipment with them.
